ELIZABETH THE SECOND, by the Grace of
God of the United Kingdom, Canada and Her
other Realms and Territories, Queen, Head of
the Commonwealth, Defender of the Faith.

TO ALL TO WHOM THESE PRESENTS
SHALL COME,

GREETING:

PROCLAMATION

WHEREAS the Residential Rent Regulation
Act, 1986, being chapter 63 of the Statutes of
Ontario, 1986, except for certain provisions men-
tioned therein, does not come into force until a
day to be named by Proclamation of Our Lieuten-
ant Governor.

AND WHEREAS by Our Royal Proclamation
dated the 10th day of December, 1986, certain sec-
tions of the Residential Rent Regulation Act, 1986,
being chapter 63 of the Statutes of Ontario, 1986,
were proclaimed in force on the 15th day of
December, 1986, the 1st day of January, 1987 and
the 2nd day of January, 1987, respectively;

AND WHEREAS it was also intended that
those portions of the Residential Rent Regulation
Act, 1986, being chapter 63 of the Statutes of
Ontario, 1986, that require proclamation to come
into force and that were not mentioned in that
Proclamation, other than section 43, clause 75 (i),
subsections 83 (4) and (5), section 91, clause 92 (1)

(c) and sections 93 and 117, should come into
force on the 15th day of December, 1986.

NOW THEREFORE KNOW YE that, having
taken the premises into Our Royal consideration,
We, by and with the advice of Our Executive
Council of Ontario and in the exercise of the
power in US vested in this behalf by the said Act
or otherwise howsoever, Do, by this Our Royal
PROCLAMATION hereby Name Monday,
the fifteenth day of December, 1986 as the day upon
which those portions of the Residential Rent Regu-
lation Act, 1986, being chapter 63 of the Statutes
of Ontario, 1986 that require proclamation to come
into force and that were not mentioned in the
Proclamation issued on the 10th day of December,
1986, except for section 43, clause 75 (i), subsec-
tions 83 (4) and (5), section 91, clause 92 (1) (c)
and sections 93 and 117, come into force.

OF ALL WHICH PREMISES all Our loving
subjects and all others whom it doth or may in
anywise concern are hereby required to take notice
and govern themselves accordingly.

IN TESTIMONY WHEREOF We have caused
these Our Letters to be made patent and the Great
Seal of Our Province of Ontario to be hereunto
affixed.

WITNESS

THE HONOURABLE LINCOLN M. ALEXAN-
DER, A Member of Our Privy Council for Can-
ada, One of Our Counsel Learned in the Law,
Bachelor of Arts, LIEUTENANT GOVERNOR
OF OUR PROVINCE OF ONTARIO,

RESIDENTIAL RENT REGULATION ACT, 1986

O. Reg. 10/87.

Rent Registry.

Made—January 14th, 1987.

Filed—January 15th, 1987.

REGULATION MADE UNDER THE RESIDENTIAL RENT REGULATION ACT, 1986

RENT REGISTRY

1. In this Regulation,

"basic unit rent" means the amount of rent charged for a rental unit exclusive of any separate charges;

"registration statement" means the statement mentioned in section 57 of the Act;

"rent reduction" means the reduction of rent charged to a tenant or a reduction in a permissible increase after the actual rent date, as a result of an agreement between the landlord and tenant to reduce the difference between the actual rent and the lawful rent;

"separate charges" means the amounts of rent charged separately for any service, facility, privilege,

accommodation or thing that the landlord provides for the tenant in respect of the tenant's occupancy of the rental unit. O. Reg. 10/87, s. 1.

2.—(1) A registration statement shall consist of the Rent Registration Building Form in Form 1R completed for each building in the residential complex and the Rent Registration Unit Form in Form 2R completed for each rental unit in the residential complex and, as applicable,

- (a) the Rent Registration Long-term Tenancy Agreement Form in Form 3R;
- (b) the Rent Registration July, 1985 Increases Form in Form 4R; and
- (c) an amended registration statement or part thereof required under subsection (7), 4 (6), 9 (2), 10 (1) or 11 (1).

(2) If a landlord files a Rent Registration Reduced Rent Form in Form 5R, it shall form part of the registration statement.

(3) If, in respect of a rental unit, the rent was increased after the 1st day of July, 1985 and before the 1st day of August, 1985 and,

- (a) the rent increase did not contravene section 124 of the *Residential Tenancies Act*; or
- (b) the rental unit was exempt from Part XI of the *Residential Tenancies Act*,

the landlord shall complete and submit Form 4R.

(4) Where subsection 2 (3) of the Act applies, the landlord shall complete and submit Form 3R, and shall attach thereto a true copy of the written tenancy agreement referred to in subsection 2 (3) of the Act that applies to the rental unit.

(5) The registration statement is incomplete in respect of the rental unit for so long as the true copy referred to in subsection (4) has not been submitted.

(6) For so long as the registration statement is incomplete under subsection (5), the Minister shall not record the provisions of a written tenancy agreement claimed by the landlord to apply under subsection 2 (3) of the Act and shall not include reference to the provisions in a notice given under section 60 of the Act.

(7) Where the rent chargeable under a written tenancy agreement mentioned in subsection 2 (3) of the Act for a future rental period cannot be determined by the landlord at the time of submitting a registration statement, the landlord shall submit an amended Form 3R in respect of the rental unit before the future rental period commences and the Minister shall give notice of the amendments to the landlord and the tenant.

(8) The registration statement originally filed by the landlord is incomplete in respect of the rental unit for so long as the amended Form 3R referred to in subsection (7) has not been submitted after the date on which it was required to be submitted.

(9) For so long as the registration statement is incomplete under subsection (8), the Minister shall not record the provisions of a written tenancy agreement claimed by the landlord to be applicable to the future rental period. O. Reg. 10/87, s. 2.

3. The landlord may complete and submit Form 5R if a rent reduction has occurred. O. Reg. 10/87, s. 3.

4.—(1) For the purposes of section 54 of the Act, "actual rent" shall be calculated in accordance with this section.

(2) Actual rent does not include,

(a) abatements of rent ordered by a court that reduce the rent actually paid in the rental period; and

(b) the amounts referred to in clause 100 (1) (a) or (b) of the Act.

(3) If the rent payable is less if paid on the due date, the actual rent is the amount payable under the tenancy agreement if the rent is paid on the due date.

(4) If the landlord submits a Rent Registration Reduced Rent Form in respect of a rental unit, the actual rent shall be deemed to be the amount of the rent charged as a result of a rent reduction less any statutory rent increases that were permissible between the actual rent date and the date of the rent reduction.

(5) Where section 99 of the Act would otherwise apply to a rental unit, but the rent charged on the actual rent date is decreased within the following twelve months, the actual rent shall be the total rent charged for the twelve months divided by the number of rental periods, unless an order of the Residential Tenancy Commission, the Board, the Minister or a court provides otherwise.

(6) Where subsection (5) applies, the landlord shall file an amended Form 2R within ninety days of the twelve-month period mentioned in subsection (5).

(7) Where section 99 of the Act would otherwise apply to the rental unit, and the rent charged on the actual rent date is increased within the following twelve months, the actual rent shall be the amount of rent actually charged on the actual rent date.

(8) Notwithstanding subsection (7), the actual rent is the amount of rent stated to be chargeable in a written tenancy agreement as of the actual rent date if,

(a) the actual rent date is prior to the 1st day of February, 1987; or

(b) the actual rent date is on or after February 1, 1987 and no discount, benefit in the nature of a discount or reduced rent paid or allowed to the tenant,

(i) respecting incompleteness of construction of the residential complex or temporary failure to provide promised services or facilities, extends beyond the six-month period commencing upon the date that any rental unit in the residential complex was first occupied, or

(ii) respecting marketing of the first rental of rental units in the residential complex, exceeds two months rent as averaged over the term of the tenancy agreement. O. Reg. 10/87, s. 4.

5.—(1) A request for information respecting the rent of a single specific rental unit may be made by a landlord, tenant or prospective tenant of that rental unit by telephone or in person.

(2) Subject to subsection (1), all requests for information under subsection 56 (1) of the Act shall be in writing. O. Reg. 10/87, s. 5.

6.—(1) Unless the landlord consents in writing, the Minister shall not provide the name, address and telephone number of the landlord to any person other than,

(a) another landlord of the residential complex; or

(b) a tenant of a rental unit in the residential complex.

(2) Unless the tenant consents in writing, the Minister shall not provide the name, address and telephone number of the tenant to any person other than the landlord or another tenant in the residential complex.

(3) A request for information under this section shall be in writing. O. Reg. 10/87, s. 6.

7. The fees payable under subsection 56 (2) of the Act are as follows:

1. A request for information respecting one rental unit by a landlord, tenant or prospective tenant of that rental unit no charge

2. A request for information respecting all of the rental units in a residential complex by a landlord,

i. where no request has been made by that landlord within the previous six-month period no charge

- ii. for any request within six months of a previous request by the same landlord \$2 per unit up to 20 units, \$1 for each additional unit.

3. A request for information respecting all of the rental units in a building or in a residential complex by tenants of at least three different rental units in the residential complex,

- i. where no request has been made by any three or more tenants in the residential complex within the previous six-month period for information respecting all of the rental units in the building or the residential complex . . . no charge

- ii. for any request within six months of a previous request for information respecting all of the rental units in the building or the residential complex by any three or more tenants, other than a copy of the information given upon the previous request \$2 per unit up to 20 units, \$1 for each additional unit.

4. A request by any person to whom paragraph 1, 2 or 3 does not apply for information on a unit by unit basis within a residential complex \$2 per unit up to 20 units, \$1 for each additional unit.

5. Any request for information not referred to in paragraphs 1 to 4 the cost estimated by the Minister to provide the information.

O. Reg. 10/87, s. 7.

8.—(1) For the purposes of subsection 19 (5) of the Act, "documents" include a registration statement.

(2) A request for an extension of time under subsection 19 (5) of the Act in respect of the time limit set out in subsection 57 (1) or (2) of the Act, shall be in writing.

(3) In determining whether to grant a request made under subsection (2), the Minister shall take into account whether,

- (a) the landlord has, in good faith, attempted to comply with the time limit; and
- (b) the landlord has requested an extension of time before the date in respect of which an extension is sought.

(4) Notwithstanding that a landlord has requested an extension of time under this section, the landlord shall expeditiously file the registration statement required under sections 57 and 58 of the Act after the time limit set out in section 57 of the Act. O. Reg. 10/87, s. 8.

9.—(1) Where a registration statement, as submitted by the landlord, is incorrect or incomplete, the Minister shall so notify the landlord and may require that the landlord file further or corrected information.

(2) A landlord shall comply with a request under subsection (1) within thirty days after the date of the request or such later date as the Minister may permit.

(3) Where a landlord complies with subsection (2), the time for filing a registration statement shall be deemed to be extended to the date upon which compliance was effected.

(4) Subsection (3) does not apply if the Minister is of the opinion that the landlord has not acted in good faith in respect of the requirements set out in sections 57 and 58 of the Act. O. Reg. 10/87, s. 9.

10.—(1) Where the Minister has requested a copy of the document authorizing the agency under subsection 58 (3) of the Act, the landlord shall file the document within thirty days after the request or such later date as the Minister may permit.

(2) A landlord who fails to comply with subsection (1) shall be deemed not to have filed a complete registration statement.

(3) Where the Minister is of the opinion that the landlord, while acting in good faith, is unable to provide a copy of the document mentioned in subsection (1), subsection (2) does not apply. O. Reg. 10/87, s. 10.

11.—(1) If a landlord claims that paragraph 7 of subsection 58 (1) of the Act applies to a rental unit, the Minister may request that a detailed statement of the facts and grounds upon which the landlord relies respecting that claim be filed and the landlord shall file the document within thirty days after the request or such later date as the Minister may permit.

(2) A landlord who fails to comply with subsection (1) shall be deemed not to have filed a complete registration statement.

(3) Where the Minister is of the opinion that the landlord, while acting in good faith, is unable to provide the statement mentioned in subsection (1), subsection (2) does not apply. O. Reg. 10/87, s. 11.

12.—(1) In subsections 59 (2) and (3) of the Act, the prescribed percentage is 5 per cent.

(2) Notwithstanding subsection (1), the prescribed percentage in subsections 59 (2) and (3) of the Act is 0 per cent for any rental unit for which a rent reduction occurred after the actual rent date and for which the landlord has filed Form 5R. O. Reg. 10/87, s. 12.

13.—(1) For the purposes of section 65 of the Act, a clerical error or omission does not include,

- (a) an error or omission caused by incorrect information provided by a landlord or tenant; or
- (b) an error of less than \$1 on a monthly basis made in recording the actual rent or an ordered rent for a rental unit.

(2) A landlord or tenant who believes that any information recorded in the registry is incorrect due to a clerical error or omission may give notice to the Minister in writing.

(3) Where the Minister determines that a clerical error or omission has been made, the Minister shall amend the registry and shall give to the landlord and tenant notice of the amendments.

(4) Where subsection (3) applies, the time period in subsection 59 (2) or (3) of the Act, as applicable, shall recommence on the date that the notice of the amendments was given under subsection (3) and shall end,

- (a) where subsection 59 (2) of the Act applies, ninety days after the date the notice of the amendments was given;
- (b) where subsection 59 (3) of the Act applies but the time period set out in the original notices given under section 60 of the Act was determined under subsection 59 (2) of the Act, twenty-four months after the date the notice of the amendments was given; and
- (c) where subsection 59 (3) of the Act applies and the time period set out in the original notices given under section 60 of the Act was determined under subsection 59 (3) of the Act, the later of,
 - (i) 120 days after the date the notice of the amendments was given, and
 - (ii) twenty-four months after the date the original notices were given under section 60 of the Act.

(5) Notwithstanding subsection (4), the time period specified under section 59 of the Act shall not recommence if the clerical error or omission,

(a) does not affect the determination of the lawful rent as of the actual rent date or later; or

(b) does not change the effective date a rent increase may lawfully be charged. O. Reg. 10/87, s. 13.

14.—(1) An application under section 61 of the Act shall be in Form 6R.

(2) Where an application is filed under section 61 of the Act and the Minister determines that a clerical error or omission was made in the recording or processing of the information, subsections 13 (3), (4) and (5) apply and the application is deemed to be withdrawn unless the applicant, within thirty days after the notice of the amendments is given under subsection 13 (3), notifies the Minister that the application should be continued and determined under section 61 of the Act. O. Reg. 10/87, s. 14.

15.—(1) In clause 69 (g) of the Act and in this section, "relevant change" means any information necessary to maintain the accuracy and currency of the rent registry and includes,

- (a) a change after the actual rent date in respect of matters mentioned in paragraph 5 of subsection 58 (1) of the Act;
- (b) a change in the number of bedrooms or in the location of the rental unit;
- (c) a change of landlord;
- (d) a change in a separate charge unless such information has been recorded under section 69 of the Act;
- (e) a change in the effective date of rent increase;
- (f) the early termination of a written tenancy agreement referred to in subsection 2 (3) of the Act; and
- (g) a change in the status of the rental unit which would affect whether or not the Act applies thereto in respect of a rent increase or the setting of rent,

but does not include a change which is due to a clerical error or omission of the Minister or of the landlord in any document filed with the Minister.

(2) The landlord or tenant shall notify the Minister in writing of any proposed relevant change to the information recorded in the rent registry.

(3) Where a notice is received under subsection (2) or where it comes to the attention of the Minister that a relevant change may be necessary, the Minister shall make inquiries and shall determine if a relevant change should be made and, if so, record the relevant change in the rent registry.

(4) The Minister shall give notice of any change made to the rent registry to the landlord and tenant.

(b) believes that a relevant change should be recorded in the rent registry,

(5) A landlord or tenant who,

(a) disagrees with a relevant change recorded in the rent registry; or

may apply under clause 13 (3) (d) of the Act for an order determining whether a relevant change should be recorded in the rent registry by the Minister. O. Reg. 10/87, s. 15.

LINCOLN M. ALEXANDER

PROVINCE OF ONTARIO

ELIZABETH THE SECOND, by the Grace of God of the United Kingdom, Canada and Her other Realms and Territories, Queen, Head of the Commonwealth, Defender of the Faith.

TO ALL TO WHOM THESE PRESENTS SHALL COME,

GREETING:

PROCLAMATION

WHEREAS by an Act passed at the Second Session of the Twenty-ninth Legislature of Ontario convened on the twenty-ninth day of February, 1972, and prorogued on the fifteenth day of December, 1972 intituled "The Assessment Amendment Act, 1972 (2)" the Assessment Act was amended so that the Lieutenant Governor by his Proclamation might bring into force certain provisions of the Assessment Act, and might suspend certain other provisions therein with the result that the assessment roll returned in certain specified municipalities and localities in the Province of Ontario might provide for the assessment at market value of real property in the specified municipalities and localities;

AND WHEREAS it has appeared expedient that a Proclamation should now issue under the authority of section 70 of the Assessment Act;

NOW THEREFORE KNOW YE that, having taken the premises into Our Royal consideration We, by and with the advice of Our Executive Council of Ontario and in the exercise of the power in US vested in this behalf by the said Act or otherwise howsoever, Do, by this Our Royal PROCLAMATION hereby Name Wednesday, the twenty-fifth day of February, 1987 as the day upon which, in the municipality of,

- (a) the Township of Cavan in the County of Peterborough,
- (b) the Township of Vespra in the County of Simcoe,
- (c) the Township of Dalton in the County of Victoria,
- (d) the Township of Baldwin in the District of Sudbury, and
- (e) the Improvement District of Dubreuilville and the Geographic Townships of Esquega and Fiddler in the jurisdiction of the Michipicoten Board of Education, all in the District of Algoma;

the provisions of sections 62, 63, 65 and 67 of the said Assessment Act shall cease to be in force.

OF ALL WHICH PREMISES all Our loving subjects and all others whom it doth or may in anywise concern are hereby required to take notice and govern themselves accordingly.

IN TESTIMONY WHEREOF We have caused these Our Letters to be made patent and the Great Seal of Our Province of Ontario to be hereunto affixed.

WITNESS:

THE HONOURABLE LINCOLN M. ALEXANDER, A Member of Our Privy Council for Canada, One of Our Counsel Learned in the Law, Bachelor of Arts, LIEUTENANT GOVERNOR OF OUR PROVINCE OF ONTARIO,

ENVIRONMENTAL ASSESSMENT ACT

O. Reg. 13/87.

General.

Made—January 14th, 1987.

Filed—January 19th, 1987.

REGULATION TO AMEND REGULATION 293 OF REVISED REGULATIONS OF ONTARIO, 1980 MADE UNDER THE ENVIRONMENTAL ASSESSMENT ACT

1.—(1) Clause 9 (2) (b) of Regulation 293 of Revised Regulations of Ontario, 1980, as remade by subsection 4 (2) of Ontario Regulation 841/81 and amended by subsection 2 (2) of Ontario Regulation 414/83, is further amended by striking out “or” at the end of subclause (vi), by adding “or” at the end of subclause (vii) and by adding thereto the following subclause:

(viii) fish and wildlife habitat management,

(2) The Table to clause 9 (2) (c) of the said Regulation, as remade by subsection 2 (3) of Ontario Regulation 414/83, is amended by striking out “Wildlife, including fish, Habitat Manipulation” in Column 1 and by striking out “December 31, 1985” opposite thereto in Column 2.

(3) Section 9 of the said Regulation, as amended by section 4 of Ontario Regulation 841/81, section 3 of Ontario Regulation 775/82, section 2 of Ontario Regulation 414/83 and section 2 of Ontario Regulation 783/83, is further amended by adding thereto the following subsection:

(8) In subsection (2), “fish and wildlife habitat management” means the creation, improvement and

maintenance of habitat in order to increase or maintain the supply of food, cover and opportunities for reproduction for fish and wildlife populations, but does not include structural measures for which assessment is required under the provisions of the class environmental assessment for water management structures.

ENVIRONMENTAL ASSESSMENT ACT

O. Reg. 14/87.

Exemption—Ontario Hydro—OH-24/2.

Made—January 9th, 1987.

Approved—January 9th, 1987.

Filed—January 19th, 1987.

ORDER MADE UNDER THE ENVIRONMENTAL ASSESSMENT ACT.

EXEMPTION—ONTARIO HYDRO—OH-24/2

Having received a request from Ontario Hydro that an Exemption Order, OH-24, published in *The Ontario Gazette* on December 13, 1980 be amended to reflect a change in scope of the undertaking, namely:

The activity of acquiring and maintaining properties included within Schedules A and B, to serve as a buffer zone adjacent to the Nanticoke generating station site in order to preserve the operating efficiency of the coal handling and flyash facilities. Structures located on the properties acquired are to be demolished and the sites restored to natural grade,

be exempt from the application of the Act pursuant to section 29; and

Having been advised that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

A. The present owners who are affected by the deposition of coal dust and flyash which interferes with the enjoyment of property will continue to be so affected.

B. In order to avoid coal dust and flyash deposition experienced by property owners during certain

weather conditions, the operating efficiency of the coal handling and flyash facilities are compromised and interfered with, to the point of a possible complete shut-down in the future, thereby interfering with Ontario Hydro's operation of the generating station.

- C. Those of the present owners who wish to sell their properties to a willing buyer will be interfered with if Ontario Hydro cannot purchase their properties while an environmental assessment is being prepared.

Having weighed such injury, damage or interference against the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reason:

- A. The use of the property as a buffer zone is unlikely to have any significant adverse effects on the environment.
- B. The acquisition would prevent the present owners from being adversely affected by coal dust and flyash.
- C. This order is being issued to permit Ontario Hydro to acquire the additional property described in Schedule B of condition 1 which suffers similar impacts to the cottage properties described in the original Exemption Order OH-24 which related only to the properties described in Schedule A.

This exemption is subject to the following terms and conditions:

1. This Exemption Order replaces Exemption Order OH-24 which is hereby terminated, and applies to the following lands:
 - (a) those properties described in Exemption Order OH-24 and which are set out in Schedule A below; and
 - (b) the properties set out in Schedule B below.

ENVIRONMENTAL ASSESSMENT ACT

O. Reg. 15/87.

Exemption—Ministry of Northern Development and Mines and Ministry of Natural Resources—MNDM/MNR-1.

Made—December 18th, 1986.

Approved—December 18th, 1986.

Filed—January 19th, 1987.

ORDER MADE UNDER THE ENVIRONMENTAL ASSESSMENT ACT

EXEMPTION—MINISTRY OF NORTHERN DEVELOPMENT AND MINES AND MINISTRY OF NATURAL RESOURCES—MNDM/MNR-1

Having received a request from the Ministry of Northern Development and Mines and the Ministry of Natural Resources that an undertaking, namely:

The activities of:

Planning, designing and constructing an access road of approximately 30 km on Crown land to provide a road link between the Town of Sioux Lookout and the Township of Ear Falls,

be exempt from the application of the Act pursuant to section 29; and

Having been advised by the Minister of Northern Development and Mines and the Minister of Natural Resources that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

- A. The time required to prepare and submit an Environmental Assessment for this undertaking would delay implementation, and significantly delay the benefits expected to accrue from the undertaking.
- B. Employment opportunities during and after construction may be lost permanently.
- C. Prolonging the economic hardship experienced by the Township of Ear Falls would result in unnecessary costs to the Province in the form of social assistance and subsidies.

Having weighed such injury, damage or interference against the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

- A. Ear Falls is suffering economic hardship as a result of the closing of the Griffith Mine.
- B. McKenzie Forest Products requires access to an area of overmature timber which is susceptible to spruce budworm infestation and fire.
- C. Construction of this road link has the potential to both provide access to the timber resource, and lessen some of the negative effects of the mine closure in Ear Falls through provision of employment, and relocation of work force.
- D. Negative environmental effects are not expected in the area of the proposed link.

This exemption is subject to the following terms and conditions:

1. The planning, design, and construction of this road will be carried out according to the Ministry of Natural Resources' Field Environmental Planning Procedures which was approved as part of their existing class Environmental Assessments.
2. Prior to carrying out any construction activity pursuant to this Exemption Order, an environmental status report outlining the planning, design, construction and mitigation work proposed to be undertaken shall be completed. The Environmental Status Report shall be filed at least 30 days prior to the commencement of construction by the Minister of Northern Development and Mines and the Minister of Natural Resources, with the Director of the Environmental Assessment Branch of the Ministry of the Environment for placing in the public record. The Environmental Status Report will also be filed in the Ear Falls and Sioux Lookout municipal offices. The ESR will clearly state proposed start and completion dates.
3. This Exemption will expire December 31, 1987. If construction of the undertaking has not been commenced by that date, the undertaking will not be exempt under this order. O. Reg. 15/87.

**REGULATION TO AMEND
REGULATION 910 OF
REVISED REGULATIONS
OF ONTARIO, 1980
MADE UNDER THE
SECURITIES ACT**

1. Section 144 of Regulation 910 of Revised Regulations of Ontario, 1980 is amended by striking out "or section 162" in the second line and inserting in lieu thereof "156*c* or 162".
2. Sections 148, 149, 150, 151 and 152 of the said Regulation are revoked and the following substituted therefor:

148. Every report required to be filed under section 102, 103 or 104 of the Act shall be prepared in accordance with Form 36. O. Reg. 19/87, s. 2, *part*.

149. Notwithstanding subsection 102 (1) of the Act, a person or company is not required to file a report on becoming an insider of an issuer where the person or company does not own or exercise control or direction over securities of the issuer. O. Reg. 19/87, s. 2, *part*.

150. Every report required to be filed under section 104 of the Act shall be filed within ten days of the date of the transfer. O. Reg. 19/87, s. 2, *part*.

3. Part VII of the said Regulation is amended by adding thereto the following sections:

156a.—(1) Upon the occurrence of a stock dividend, stock split, consolidation, amalgamation, reorganization, merger or other similar corporate event that affects all holdings of a class of securities in the same manner, on a per share basis, the reporting requirements of Part XX of the Act shall be deemed to have been satisfied as they apply to a holder of the class of securities of an issuer that is affected, where an officer of the issuer files written notice of the event, including a description of the effect on each class of securities of the issuer that is affected, within ten days of the event.

(2) Upon the acquisition by a person or company of securities of an issuer through a stock dividend plan, a share purchase plan or other plan available to a class of security holders, employees or management of an

issuer, the reporting requirements of Part XX of the Act shall be deemed to have been satisfied as they apply to the person or company where an officer of the issuer files written notice including a description of the transaction and the effect upon the holdings of the person or company within ten days of the transaction. O. Reg. 19/87, s. 3, *part*.

156b. A person or company that is required under this Part and under Part XX of the Act to file a report prepared in accordance with Form 36 shall be deemed to have complied with such requirements if a report prepared in accordance with Form 36 is filed in a Canadian jurisdiction other than Ontario with a securities commission or other agent that has been designated by the Commission for the purpose of accepting such filings. O. Reg. 19/87, s. 3, *part*.

156c. A report prepared in accordance with Form 36 that is filed with the Commission may contain the facsimile signature of the individual, officer, director, agent or attorney required to sign the form, if an original manually signed copy is filed concurrently with a securities commission in Canada designated by the Commission for the purpose of accepting such filings. O. Reg. 19/87, s. 3, *part*.

4. Forms 36 and 37 of the said Regulation are revoked and the following substituted therefor:

INSTRUCTIONS

— A nil report is not required in Alberta, Manitoba, Ontario, Québec, Saskatchewan, or under federal legislation (CBCA and the Bank Act).

1. Identification of the reporting issuer

Provide the full legal name of the reporting issuer. Use a separate report for each reporting issuer.

2. Insider data

Indicate the relationship(s) with the reporting issuer (see List of Codes). If more than one, indicate all applicable Codes.

Specify the date of last report filed and if it is a first (initial) report, the date on which the holder became an insider.

3. Identification of the insider

Provide the following information about the insider: name, address, business telephone number, insider number and CUSIP number (corporate insider) if applicable.

Insider Report forms in English and French are available from the Ontario, Québec, Manitoba and federal jurisdictions.

Note: If you are a corporate insider in the province of Québec, you will receive correspondence in French. Individuals from the province of Québec will receive, upon request, correspondence in English.

4. Jurisdiction

Indicate each jurisdiction where the issuer is a reporting issuer.

5. Insider holdings and changes

Show direct and indirect holdings separately.

Where a transaction is reported, both direct and indirect holdings of that class of securities must be shown.

For first (initial) report complete only:

- (A) designation of class of securities held,
- (D) present balance of class of securities held,
- (E) nature of ownership (see List of Codes),
- (F) identification of the registered holder where ownership is indirect.

If shares were purchased while insider complete all sections.

- (A) Provide a designation of the securities traded sufficient to identify the class, including yield, series, maturity.

- (B) Provide the number of securities, or in the case of debt securities, the aggregate value, of the class held, directly and indirectly, before the transaction that is being reported.

- (C) Provide for each transaction:

- the date of the transaction;
- the nature of the transaction (see List of Codes);
- the number of securities acquired or disposed of, or in the case of debt securities, the aggregate value;
- the unit price paid or received on the day of the transaction, excluding the commission;
- if the report is in American dollars, check the space under "\$ US".

- (D) Provide the number, or in the case of debt securities, the aggregate value, of the class held, directly and indirectly, after the transaction that is being reported.

- (E) Indicate the nature of ownership of the class of securities held (see List of Codes).

- (F) For securities that are indirectly held, identify the registered holder.

6. Remarks

Add any explanation necessary to the clear understanding of the report.

If space provided for any item is insufficient, additional sheets may be used. Additional sheets must be cross-referred to the item and properly identified and signed.

Office staff is not permitted to alter, delete, or change a report.

7. Signature and filing

The report must be signed and dated.

Two copies of the report must be received by each jurisdiction in which it is filed within the time limits prescribed by the laws of that jurisdiction. See addresses below.

One of the two copies must be manually signed.

If the report is filed on behalf of a company, partnership, trust or other entity, the name of the company or other entity shall appear in printed form immediately following the signature. In the case of a company, there shall be filed with each jurisdiction in which the report is filed a certified copy of the resolution or by-law authorizing such person or persons to file. If the report is signed on behalf of an individual by an agent, there shall be filed with each jurisdiction in which the report is filed a duly completed power of attorney. The name of each individual signing a report shall be typed or printed legibly.

5. This Regulation comes into force on the 1st day of February, 1987.

O. Reg. 19/87, s. 4, part

ENVIRONMENTAL ASSESSMENT ACT

O. Reg. 20/87.

Exemption—Ontario Hydro—OH-29/3.

Made—January 14th, 1987.

Approved—January 14th, 1987.

Filed—January 21st, 1987.

ORDER MADE UNDER THE
ENVIRONMENTAL ASSESSMENT ACT

EXEMPTION—ONTARIO HYDRO—OH-29/3

Having received a request from Ontario Hydro that an undertaking, namely:

the activity of modifying by redeveloping or upgrading all existing hydro-electric facilities including: hydro-electric generating stations, storage/control dams, measuring/submerged weirs, and access roads;

be exempt from the application of the Act pursuant to section 29; and

Having been advised that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

- A. The public will be interfered with and damaged by the delay in correction of facility defects or delay in optimization of resource use which could either render a facility unsafe (with possible resultant loss or damage to public property or health) or uneconomical.
- B. Ontario Hydro will be interfered with and damaged by the delay and expense required to prepare individual environmental assessments which could render modification activities uneconomical, necessitate extended uneconomic operation of facilities or temporary decommissioning of facilities leading to a requirement for substitute power.

Having weighed such injury, damage or interference against the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

- A. Ontario Hydro has formally submitted a Class Environmental Assessment pursuant to the previous exemption order for this undertaking; however, an approval has not yet

been issued with respect to that Class Environmental Assessment. This exemption extends the existing exemption, which would otherwise expire on December 31, 1986, to provide time to complete processing the Class Environmental Assessment.

- B. The undertaking is not likely to have any significant adverse effects on the environment as the exempt activities are primarily of a minor nature; therefore, the interference which would be caused by the immediate application of the Act would be undue.
- C. Parts of the undertaking are subject to review and approval under various acts or agreements, including the *Environmental Protection Act*, Water Power Lease Agreements with the Ministry of Natural Resources and Licences of Occupation with MNR.

This exemption is subject to the following terms and conditions:

1. This exemption shall terminate on December 31, 1987 or, if earlier, the date on which approval to proceed with the undertaking referred to in reason A is given.
2. Ontario Hydro shall consult with the Director of the Environmental Assessment Branch in cases where it appears that the modification activity would result in significant adverse environmental changes so that Ontario Hydro and the Minister of the Environment may decide whether the project should proceed pursuant to an individual environmental assessment rather than this order.
3. An Environmental Report shall be prepared by Ontario Hydro for each project initiated under this exemption order and will be submitted to the Director of the EA Branch at least thirty days prior to the proposed implementation of such activities. A copy of the Environmental Report shall also be submitted to the Director of the appropriate Ministry of the Environment regional office. This report will be filed in the public record in order to inform the public of proposed projects.
4. Where any activity which otherwise would be exempt under this order is being carried out as or is part of an undertaking for which an environmental assessment has been accepted and approval to proceed received, the activity shall be carried out in accordance with any terms or conditions in the approval to proceed as well as the conditions of this order.

5. Where any activity which is the subject of this order is being carried out as or is part of another undertaking which is the subject of an exemption order under the Act, the activity exempt under this order shall be carried out in accordance with any terms or conditions in the other exemption order as well as the conditions in this order.
6. Ontario Hydro shall continue to provide the Director of the Environmental Assessment Branch with a list of projects, which Ontario Hydro proposes to carry out under this order, every six months and shall not carry out any project pursuant to this order unless it is included on the list or added as an update. ENVIRONMENTAL ASSESSMENT ACT

O. Reg. 21/87.

Exemption—Ontario Hydro—OH-30/3.

Made—January 14th, 1987.

Approved—January 14th, 1987.

Filed—January 21st, 1987.

ORDER MADE UNDER THE ENVIRONMENTAL ASSESSMENT ACT

EXEMPTION—ONTARIO HYDRO—OH-30/3

Having received a request from Ontario Hydro that an undertaking, namely:

the activity of planning, design and construction of and property acquisition for shoreline and riverbank improvements and the subsequent use and maintenance of these improvements;

be exempt from the application of the Act pursuant to section 29; and

Having been advised that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

- A. The public will be interfered with and damaged by the delay in correction of erosion or sedimentation problems which could result in additional loss or damage to public and private properties.
- B. Ontario Hydro will be interfered with and damaged by the delay and expense required to prepare individual environmental assessments which could render the shoreline and

riverbank improvements uneconomical and result in a less appropriate course of action and in increased costs to Ontario Hydro through damage to facilities and settlements of damage claims of private property owners

Having weighed such injury, damage or interference against the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

- A. Ontario Hydro has formally submitted a Class Environmental Assessment pursuant to the previous exemption order for this undertaking; however, an approval has not yet been issued with respect to that Class Environmental Assessment. This exemption extends the existing exemption, which would otherwise expire on December 31, 1986, to provide time to complete processing the Class Environmental Assessment.
- B. The undertaking is not likely to have any significant adverse effects on the environment and, therefore, the interference with the activity of shoreline and riverbank improvements which would be caused by the immediate application of the Act would be undue.
- C. Parts of the undertaking are subject to review and approval under various acts or agreements, including the *Lakes and Rivers Improvement Act*, the *Ontario Water Resources Act* and any existing Water Power Lease Agreements with the Ministry of Natural Resources.
- D. Parts of the undertaking are proposed to repair erosion problems which would become progressively worse if not quickly repaired and the delay involved in obtaining approval under the *Environmental Assessment Act* could result in increased erosion or sedimentation, degradation of the environment and danger to buildings and property.

This exemption is subject to the following terms and conditions:

1. This exemption shall terminate on December 31, 1987 or, if earlier, the date on which approval to proceed with the undertaking referred to in reason A is given.
2. Ontario Hydro shall consult with the Director of the Environmental Assessment Branch in cases where it appears that the activity

would result in significant adverse environmental changes so that Ontario Hydro and the Minister of the Environment may decide whether the project should proceed pursuant to an individual environmental assessment rather than this order.

3. An Environmental Report shall be prepared by Ontario Hydro for each project initiated under this exemption order and will be submitted to the Director of the EA Branch at least thirty days prior to the proposed implementation of such activities. A copy of the Environmental Report shall also be submitted to the Director of the appropriate Ministry of the Environment regional office. This report will be filed in the public record in order to inform the public of proposed projects.
4. Where any activity which otherwise would be exempt under this order is being carried out as or is part of an undertaking for which an environmental assessment has been accepted and approval to proceed received, the activity shall be carried out in accordance with any terms or conditions in the approval to proceed as well as the conditions of this order.
5. Where any activity which is the subject of this order is being carried out as or is part of another undertaking which is the subject of an exemption order under the Act, the activity exempt under this order shall be carried out in accordance with any terms or conditions in the other exemption order as well as the conditions in this order.
6. Ontario Hydro shall continue to provide the Director of the Environmental Assessment Branch with a list of projects, which Ontario Hydro proposes to carry out under this order, every six months and shall not carry out any project pursuant to this order unless it is included on the list or added as an update. PLANNING ACT, 1983

O. Reg. 22/87.

Zoning Areas—Part of the District
of Sudbury.

Made—January 16th, 1987.

Filed—January 21st, 1987.

ORDER MADE UNDER THE PLANNING ACT, 1983

ZONING AREAS—PART OF THE DISTRICT OF SUDBURY

INTERPRETATION

1. In this Order,

“accessory”, when used to describe a use, building or structure, means a use, building or structure that is normally incidental or subordinate to the principal use, building or structure on the same lot;

“agricultural use” means the use of land, buildings or structures for the purpose of forestry, field crops, fruit farming, market gardening, dairying, animal husbandry, poultry raising, beekeeping and such uses as are customarily related to agriculture;

“commercial use” means the use of land, buildings or structures for the purpose of buying and selling commodities or supplying services;

“conservation” means the preservation, protection and improvement of the natural environment through a management and maintenance program;

“dwelling unit” means one or more habitable rooms occupied or capable of being occupied as an independent and separate housekeeping establishment in which separate kitchen and sanitary facilities are provided for the exclusive use of the unit;

“extractive industrial use” means the use of land for the extraction of mineral aggregate including sand, gravel, shale, clay and bedrock suitable for the production of crushed stone, building stone, cement products and other similar materials;

“front lot line” means the lot line that divides a lot from a street, right-of-way, Crown shoreline reserve or high-water mark of a river or lake and,

(a) in the case of a corner lot, the shorter lot line that abuts a street, right-of-way, Crown shoreline reserve or high-water mark of a river or lake shall be the front lot line, and

(b) where a lot abuts both a street and the high-water mark of a river, lake or Crown shoreline reserve, the lot line abutting the high-water mark or Crown shoreline reserve shall be the front lot line;

“front yard” means a yard extending across the full width of the lot between the front lot line and the nearest main wall of the principal building or structure on the lot;

“ground floor area” means the area of the lowest storey of a building or structure above grade, measured between the exterior faces of the exterior walls of the floor level of that storey;

"group home" means a single dwelling in which three to ten unrelated residents live under the supervision of the staff or receiving family;

"guest cabin" means a building without cooking and sanitary facilities that is accessory to a seasonal dwelling;

"home occupation" means an occupation for gain conducted in a portion of a dwelling, lot or accessory building by the residents of a dwelling;

"hotel" means an establishment containing at least four bedrooms available for the sleeping accommodation of the travelling public and includes a motel;

"landfill site" means land approved by the Ministry of the Environment for the deposit of landfill;

"lot" means a parcel of land,

(a) described in a deed or other document legally capable of conveying land, or

(b) shown as a lot or block on a registered plan of subdivision;

"lot area" means the total horizontal area within the lot lines of a lot;

"lot frontage" means the horizontal distance between the side lot lines of a lot and, where the lot lines are not parallel, the lot frontage is the distance between the side lot lines measured on a line that crosses the lot and is parallel to and 7.5 metres distant from the front lot line;

"lot line" means a boundary of a lot;

"mobile home" means a dwelling unit that is designed to be made mobile and constructed or manufactured as a permanent residence but does not include a recreational vehicle, travel trailer, tent trailer or other trailer;

"public access" means public land designated by the Crown and developed and maintained for public access to a body of water;

"public utility" means a public water works or water supply system, sewage works, electrical power or energy generating transmission or distribution system, street lighting system, natural or artificial gas works or supply system or a telephone system and includes any lands, buildings or equipment required for the administration or operation of the public works or system;

"rear lot line" means the lot line opposite the front lot line;

"rear yard" means a yard extending across the full width of a lot between the rear lot line and the nearest main wall of the principal building on the lot;

"seasonal dwelling" means a separate building or mobile home containing only one dwelling unit used for recreation and not occupied as a permanent residence or home;

"side lot line" means a lot line other than a front or rear lot line;

"side yard" means a yard between the nearest main wall of the principal building or structure and the side lot line extending from the front yard to the rear yard;

"single dwelling" means a separate building containing only one dwelling unit which is occupied as a permanent residence or home;

"street" means a public highway that is the principal means of access to abutting lots and is under the jurisdiction of the Province of Ontario or a local roads board or is a road within a registered plan of subdivision;

"waste disposal site" means land approved by the Ministry of the Environment upon, into or from which waste may be deposited or processed;

"wayside pit or quarry" means a temporary source of consolidated or unconsolidated aggregate opened by or for a public road authority, including a local roads board, for the purpose of public road construction;

"yard" means a space open from the ground to the sky unoccupied except for accessory buildings, on a lot on which a building is situated. O. Reg. 22/87, s. 1.

PART 1

GENERAL

2. This Order applies to all land in the geographic Township of Merritt in the District of Sudbury, except land located in the municipality of the Town of Espanola. O. Reg. 22/87, s. 2.

3. No land to which this Order applies shall hereafter be used and no building or structure shall hereafter be erected, located or used except in accordance with the terms of this Order, but nothing in this Order prevents the use of any land, building or structure for a purpose prohibited by this Order if the land, building or structure was lawfully used for that purpose on the day this Order comes into force. O. Reg. 22/87, s. 3.

4. The land affected by this Order is divided into the zones listed in the Table as shown on a map filed with the Plans Administration Branch, North and East, of the Ministry of Municipal Affairs in Toronto as Number 153, the said zones being designated on the map as set out in the Table:

TABLE

ZONE NAME	ZONE SYMBOL ON MAP
RU	
RU Residential	RR
RU Seasonal Residential	SR
RU Seasonal or Permanent Residential	SR*
RU Sort Commercial	CR
RU Attractive Industrial	ME
RU Hazard Lands	H
RU Waste Disposal	WD

O. Reg. 22/87, s. 4.

5.—(1) Accessory buildings and structures are permitted in every zone if they,

- (a) are not used for human habitation; or
- (b) are not located within one metre of a side or rear lot line.

(2) No guest cabin is permitted in any zone except in Seasonal Residential Zone.

(3) A maximum of two guest cabins is permitted per lot. O. Reg. 22/87, s. 5.

5. Nothing in this Order prevents,

- (a) the reconstruction of any building or structure that is damaged or destroyed by causes beyond the control of the owner if the dimensions of the original building or structure are not increased or its original use altered; and
 - (b) the strengthening or restoration to a safe condition of any building or structure.
- O. Reg. 22/87, s. 6.

7. Where a building has been erected or a structure erected before the day this Order comes into force on a lot having less than the minimum frontage or area, or the minimum front, side or rear yard required by this Order, the building or structure may be extended, enlarged, repaired or renovated if there is no further

reduction in any yard that is less than the minimum required by this Order and all other requirements of this Order are met. O. Reg. 22/87, s. 7.

8. Where a lot with less than the minimum lot frontage or area required by this Order existed before the day this Order came into force, this Order does not prohibit uses permitted in the relevant zone designation if all other requirements of this Order are met. O. Reg. 22/87, s. 8.

9.—(1) No building or structure shall be erected or located on a lot that does not abut,

(a) a street; or

(b) in Seasonal Residential Zones, a private road or a water body with public access.

(2) This section does not apply to a lot created by consent under section 52 of the *Planning Act, 1983* or a predecessor thereof. O. Reg. 22/87, s. 9.

10. A tool shed, scaffold or other building or structure incidental to the construction of a building or structure permitted by this Order may be maintained until the construction is completed or has been discontinued for sixty consecutive days, whichever is earlier. O. Reg. 22/87, s. 10.

11. A home occupation is permitted as a subordinate use in all zones if not more than 25 per cent of the ground floor area of a single dwelling or seasonal dwelling is used for the home occupation. O. Reg. 22/87, s. 11.

12. No more than one single dwelling is permitted on a lot. O. Reg. 22/87, s. 12.

13. Public utilities are permitted in every zone. O. Reg. 22/87, s. 13.

14.—(1) Where the width of Crown land lying between a front lot line and the high-water mark of any lake is greater than the required minimum building setback from the front lot line, there shall be no required building setback from the front lot line.

(2) Where the width of the Crown land lying between the front lot line and the high-water mark of any lake is less than the minimum required building setback from the front lot line, the required building setback may be reduced by a distance equal to the width of such Crown land. O. Reg. 22/87, s. 14.

PART II

PERMITTED USES

15.—(1) Every use of land and every erection or use of buildings or structures is prohibited except as set out in the Table and in subsection (2):

OCCUPATIONAL HEALTH AND SAFETY ACT

O. Reg. 23/87.

Amending Certain Regulations.

Made—January 14th, 1987.

Filed—January 22nd, 1987.

REGULATION TO AMEND CERTAIN REGULATIONS MADE UNDER THE OCCUPATIONAL HEALTH AND SAFETY ACT

Lead

1.—(1) The Schedule to Ontario Regulation 536/81 is amended by striking out “as follows” in the second line and inserting in lieu thereof “for a forty hour week and an eight hour day as follows”.

(2) Paragraph 5 of the said Schedule is amended by inserting after “The” in the first line “weekly”.

(3) The said Schedule is amended by adding thereto the following paragraphs:

6. The daily exposure shall be calculated as follows:

$C_1T_1 + C_2T_2 + \dots + C_nT_n$ = cumulative daily exposure, where C_1 is the concentration found in an air sample and T_1 is the total time in hours to which the worker is taken to be exposed to concentration C_1 in a day.

7. The daily time-weighted average exposure shall be calculated by dividing the cumulative daily exposure by 8.

Mercury

- 2.—(1) The Schedule to Ontario Regulation 141/82 is amended by striking out “as follows” in the second line and inserting in lieu thereof “for a forty hour week and an eight hour day as follows”.

- (h) a resort, or
- (i) a tourist outfitter establishment,

as defined in Regulation 936 of Revised Regulations of Ontario, 1980.

(2) A licence in Form 9 is not valid for hunting black bear unless a certificate in Form 32 signed by an authorized employee or an operator of a tourist establishment is attached to the licence and the holder of the licence,

(a) is hunting with an immediate relative who is the holder of a licence in Form 4; or

(b) at the time of the hunt,

(i) owns real property in a wildlife management unit that has an open season for the hunting of black bear for non-residents,

(ii) has contracted with the operator of a tourist establishment for accommodation and is actually accommodated either on the premises of the tourist establishment or on a Crown land site, the occupation of which is authorized by a district manager of an administrative district of the Ministry of Natural Resources, or

(iii) has contracted for bear guiding or baiting services or air transportation

with the operator of a tourist establishment and is accommodated either on a Crown land site, the occupation of which is authorized by a district manager of an administrative district of the Ministry of Natural Resources, or on privately owned lands, situated in a wildlife management unit of the hunt, the occupation of which is authorized by the owner thereof.

(3) An owner of real property referred to in subsection (2) shall not hunt in a wildlife management unit other than the wildlife management unit in which the real property is located.

(4) No person other than an authorized employee or an operator of a tourist establishment to whom certificates in Form 32 have been delivered and whose signature is on file with the district manager of an administrative district of the Ministry of Natural Resources for the purpose of issuing a certificate in Form 32 shall issue the certificate.

(5) No person shall transfer a certificate in Form 32.

(6) No operator of a tourist establishment shall issue a certificate in Form 32 to a non-resident hunter unless the hunter has contracted with the operator for accommodation or for black bear guiding or baiting services or for air transportation.

(7) An application for a certificate in Form 32 by a non-resident who,

- (a) will be hunting with an immediate relative who is the holder of a licence in Form 4; or
- (b) is, at the time of the application and will be at the time of the hunt, the owner of real property in a wildlife management unit that has an open season for the hunting of black bear for non-residents,

shall be in Form 31.

(8) A certificate in Form 32 shall be issued in duplicate and the issuer shall send the duplicate original to the district manager of the administrative district of the Ministry of Natural Resources in which the issuer operates the tourist establishment on or before,

- (a) the 15th day of July in the year the certificate in Form 32 is issued, where the certificate has been issued before the 30th day of June in that year; or
- (b) the 30th day of November in the year the certificate in Form 32 is issued, in all other cases.

(9) A certificate in Form 32 is valid for the period specified in the certificate. O. Reg. 27/87, s. 1.

2. Schedule 4 to the said Regulation, made by section 2 of Ontario Regulation 492/83, is revoked.

**PUBLIC NOTICE
APPLICATIONS FOR PERMANENT
CLASS 'R' AUTHORITIES**

The Ontario Highway Transport Board will deal with applications for permanent Class 'R' operating authorities in the following manner:

1. In accordance with Board policy statement dated January 14th, 1980, special Class 'R' hearings will be held as follows:

- (a) Southern Ontario
 - Toronto March 30 to April 6
 - Windsor April 6
 - London April 7
 - Kitchener April 8 & 9
 - Ottawa April 13 & 14
- (b) Northern Ontario
 - Timmins April 13
 - Thunder Bay April 14
 - Kapuskasing April 21
 - North Bay April 21
 - Sudbury April 27

(c) Toronto

May 14

NOTICE

At the commencement of each of the special hearings, at each location noted above, the Board will hear:

- (a) General evidence with respect to supply and demand in the area either for or against further licensing in the area. The Board encourages associations, shipper groups or government agencies to present their views and any supporting factual information that can be generated;
- (b) Statistical evidence from any government or private body that would indicate a change in Class 'R' trucking requirements. Prior to these hearings the Ministry of Transportation and Communications will have provided to the Board all available forecasts pertinent to Class 'R' trucking requirements and may provide a representative at the hearing to review them;
- (c) Specific evidence in support of each individual applicant. Shippers if they choose may give general evidence with respect to need in the area and may support a number of applicants with one appearance. They would be required to identify the applicant(s) they support and state why the service is needed. Witnesses giving evidence in this form would be subject to cross-examination by any respondent affected;
- (d) Specific evidence from respondents as it applies to the application opposed. Each respondent would be required to testify on one.

Following these hearings the Board will, on the basis of the evidence presented, issue a concise report outlining its perception of trends in demand for the upcoming construction season. This report will be made public and available to any interested party.

Each application will continue to be determined on its own merits considering public necessity and convenience as established by the evidence.

FELIX D'MELLO,
Acting Secretary.

Claude Petit,
123 Gatineau Avenue,
Gatineau, Quebec J8T 4J7

THE MATTER OF the *Public Commercial Vehicles Act* of Ontario, R.S.O. Charter 1980, Chapter 407 as amended;

AND IN THE MATTER OF the Public Commercial Vehicle Operating Licence R-6873 issued to Claude Petit:

The following notice was issued by the Registrar Motor Vehicles on October 28, 1986.

TAKE NOTICE that pursuant to the Section 12 (d) of the *Public Commercial Vehicles Act*, the Minister of Transportation and Communications proposes to cancel Public Commercial Vehicles Operating Licence R-6873 issued to Claude Petit on the grounds that Claude Petit is financially incapable of providing or continuing to provide transportation services in accordance with the Act and the Regulations or the terms of conditions of the licence, or of meeting its financial responsibilities to persons using such services.

AND FURTHER TAKE NOTICE that you are entitled to a hearing on the proposal to cancel the said operating licence before the Ontario Highway Transport Board if you mail or deliver, within 15 days after the service on you of this Notice, a Notice in writing requiring such a hearing. Such Notice must be mailed to:

1. The Ontario Highway Transport Board,
151 Bloor Street West,
10th Floor,
Toronto, Ontario
M5S 2T5

and

2. The Minister of Transportation and Communications,
Main Floor, East Building,
1201 Wilson Avenue,
Downsview, Ontario
M3M 1J8

AND FURTHER TAKE NOTICE that should you not require a hearing, the decision of the Minister to cancel the said operating and vehicle licences shall be effective 21 days after the service of this Notice to you.

AND FURTHER TAKE NOTICE that should you file the aforementioned Notice requesting a hearing, you may examine before the hearing any written or documentary evidence that may be introduced, or any reports the contents of which will be given in evidence.

Dated at Toronto, this 28th day of October, 1986.

Whereas the licensee has given notice in writing to the Minister and the Board requiring a hearing pursuant to Section 23 of the *Public Commercial Vehicles Act* and the Minister has consequently referred the matter to the Ontario Highway Transport Board.

TAKE NOTICE that the Board will hold a hearing on this matter on Friday the 24th day of April, 1987 at its Chambers, Britannica House, 151 Bloor Street West, 10th Floor, Toronto, Ontario at 10.00 a.m.

AND FURTHER TAKE NOTICE that pursuant to Section 23 (6) of the *Public Commercial Vehicles Act*, the date established for this hearing has been set sufficiently in advance to permit the licensee a reasonable opportunity to show or to achieve compli-

ance before the hearing with all lawful requirements for the issue or retention of his licence.

AND FURTHER TAKE NOTICE that should you or any other party to these proceedings not attend at the time and place shown for this hearing the Board may proceed in your absence and you will not be entitled to any further notice in these proceedings.

FELIX D'MELLO,
Acting Secretary.

ASSESSMENT ACT

O. Reg. 34/87.

Pipe Line Rates.

Made—January 27th, 1987.

Filed—January 27th, 1987.

REGULATION MADE UNDER THE
ASSESSMENT ACT

PIPE LINE RATES

1. The rates contained in the Schedule to this Regulation shall apply to the assessment for taxation of all pipe lines liable to assessment and taxation under section 24 of the Act and located in or on the boundary of any municipality or territory without municipal organization comprised in the locality named in this section, or in any part of a municipality situated in,

- (a) the Township of Eastnor in the County of Bruce;
- (b) the Town of Durham in the County of Grey;
- (c) the Town of Wasaga Beach in the County of Simcoe;
- (d) the Township of Hornepayne in the District of Algoma;
- (e) the Township of Machar in the District of Parry Sound; and
- (f) the District Municipality of Muskoka,

(i) in the towns of Bracebridge, Gravenhurst and Huntsville, and

(ii) in the townships of Georgian Bay, Lake of Bays and Muskoka Lakes.
O. Reg. 34/87, s. 1.

2. For the purposes of clause 24 (17) (b) of the Act,

- (a) where two or more pipe lines occupy the same right of way, each pipe line occupying the right of way is a second and subsequent pipe line, except that which bears the highest assessed value computed by applying the rates in the Schedule without the reduction in rates for the second and subsequent pipe lines occupying the same right of way provided for in clause (b), but where two or more pipe lines occupying the same right of way have the same assessed value so computed and that assessed value is the highest assessed value or is the only assessed value for the pipe lines occupying that right of way, each of such pipe lines is designated as a second and subsequent pipe line except that one that was first in use as a pipe line; and
- (b) where a right of way occupied by a pipe line that is not designated to be a second or subsequent pipe line under clause (a) is also occupied by a pipe line that is designated to be a second or subsequent pipe line, each pipe line so designated shall be assessable and taxable at 75 per cent of the rate in the Schedule that is applicable to each pipe line so designated. ASSESSMENT ACT

O. Reg. 35/87

Equalization of Assessments made under
Section 63 of the Assessment Act.

Made—January 27th, 1987.

Filed—January 27th, 1987.

REGULATION MADE UNDER THE
ASSESSMENT ACTEQUALIZATION OF ASSESSMENTS MADE
UNDER SECTION 63 OF THE ASSESSMENT
ACT

1. The equalization of assessment made under the Act in each prescribed class of real property necessary in order to provide for each municipality specified in Schedules 1 and 2 to this Regulation, assessments of real property that, in accordance with section 63 of the Act, will be equitable one with the other in each prescribed class of real property shall include, as standards to be taken into account in such equalization and the computation of the factors resulting therefrom, the following considerations:

1. The proportion that the municipal and school taxes levied for the year 1986 against the total assessment of real property in each prescribed class of real property is of the total municipal and school taxes levied for the year 1986 in the municipality shall be maintained to the extent that, if that single mill rate that would have been required to produce in the year 1986 the amount of municipal and school taxes levied in that year against the total assessment of the prescribed class of real property were applied to the total assessment of that prescribed class of real property resulting from the application of the factors hereafter in this Regulation prescribed for that class of real property in that municipality, the municipal and school taxes that would have been so levied for the year 1986 from the total assessment for that prescribed class will be substantially the same total amount for that prescribed class of real property as was actually levied in the municipality for the year 1986 against the total assessment for that prescribed class of real property in that municipality.
2. All real property within a prescribed class of real property in the same municipality shall, as nearly as may be, be assessed at the same proportion of the market value of such real property in the year 1980 with respect to the municipality referred to in Schedule 1 or in the year 1984 with respect to the municipalities referred to in Schedule 2, as that market value is determined by the Assessment Commissioner in whose Assessment Region such real property is located.

3. That total assessment, including assessments made under section 32 or 33 of the Act, of the real property in a municipality to which this Regulation applies shall not be increased or decreased substantially.

4. Equitability of assessment of real property within each prescribed class of real property in the same municipality shall be established without significant alteration of the assessment relationships between prescribed classes of real property in the same municipality, provided that this paragraph does not apply to affect changes in the assessment relationship between prescribed classes of real property that result from an increase in the total assessment of the prescribed class of real property by reason of assessments made under section 32 or 33 of the Act. O. Reg. 35/87, s. 1.

2. This Regulation applies to the municipalities named in Schedules 1 and 2 to this Regulation and to the assessment to be shown on the assessment roll to be returned in each municipality for the year 1986 for taxation in the year 1987 and for every assessment made in each municipality for taxation in each subsequent year until a new reassessment of all property within that municipality is made under subsection 63 (3) of the Act. O. Reg. 35/87, s. 2.

3. For the purposes of this Regulation, the real property situate in each municipality named in Schedules 1 and 2 to this Regulation shall be divided into the prescribed classes of real property that are designated in the said Schedules for that municipality. O. Reg. 35/87, s. 3.

4. For the purposes of this Regulation, the factor to be applied to the market value, as determined in accordance with paragraph 2 of section 1, of real property in each prescribed class of real property in the municipality shall be that shown in Schedules 1 and 2 to this Regulation opposite the number of the prescribed class applicable to that municipality. O. Reg. 35/87, s. 4.

5. For the purposes of this Regulation, the following classes of real property are prescribed:

CLASS 1

Property assessed either,

- (a) as residential and comprising not more than six residential units, including vacant land municipally zoned for residential development described in this clause; or
- (b) as seasonal residential including vacant land zoned principally for this purpose.

CLASS 2

Property assessed either,

- (a) as residential and comprising seven or more residential units, including vacant land municipally zoned principally for residential development described in this clause; or
- (b) as a unit or proposed unit within the meaning of the *Condominium Act* to which subsection 65 (2) of the *Assessment Act* does not apply and that is part of a building or parcel of land containing seven or more residential units, whether or not such residential units are units or proposed units within the meaning of the *Condominium Act*.

CLASS 3

Property assessed as commercial, including vacant land municipally zoned principally for commercial development.

CLASS 4

Property assessed as industrial, including vacant land municipally zoned principally for industrial development.

CLASS 5

Property assessed as farm land.

CLASS 6

Property assessed as a pipe line.

CLASS 7

Property assessed as a railway right-of-way.
O. Reg. 35/87, s. 5.

6.—(1) The rates contained in Schedule 3 to Ontario Regulation 316/83 shall apply to the assessment for taxation of all pipe lines liable to assessment and taxation under section 24 of the Act and located in or on the

boundary of the municipality named in Schedule 1 to this Regulation.

(2) The rates contained in Schedule 3 to this Regulation shall apply to the assessment for taxation of all pipe lines liable to assessment and taxation under section 24 of the Act and located in or on the boundary of any municipality, part of a municipality or territory, without municipal organization comprised in a locality named in Schedule 2 of this Regulation.

(3) For the purposes of clause 24 (16a) (b) of the Act,

(a) where two or more pipe lines occupy the same right of way, each pipe line occupying the right of way is a second and subsequent pipe line, except that which bears the highest assessed value computed by applying the rates in Schedule 3 to Ontario Regulation 316/83 for Schedule 3 to this Regulation, as applicable, without the reduction in rates for the second and subsequent pipe line occupying the same right of way provided for in clause (b), but where two or more pipe lines occupying the same right of way have the same assessed value so computed and that assessed value is the highest assessed value or is the only assessed value for the pipe lines occupying that right of way, each of such pipe lines is designated as a second and subsequent pipe line except that one that was first in use as a pipe line; and

(b) where a right of way occupied by a pipe line that is not designated to be a second or subsequent pipe line under clause (a) is also occupied by a pipe line that is designated to be a second and subsequent pipe line, each pipe line so designated shall be assessable and taxable at 75 per cent of the rate in Schedule 3 to Ontario Regulation 316/83 or Schedule 3 to this Regulation, as applicable, that applies to each pipe line so designated.

REGULATION TO AMEND
REGULATION 881 OF
REVISED REGULATIONS
OF ONTARIO, 1980
MADE UNDER THE
PUBLIC SERVICE ACT

1. Section 75 and 76 of Regulation 881 of Revised Regulations of Ontario, 1980, as amended by sections 23 and 24 of Ontario Regulation 24/86, are revoked and the following substituted therefor:

75.—(1) In this section, "leave of absence" means a leave of absence for the purpose of undertaking employment under the auspices of the government of Canada or other public agency or in the private sector.

(2) A deputy minister may grant to an employee of his or her ministry leave of absence with pay for a period of not more than two years and, if the leave was granted for less than two years, may extend it from time to time, provided the total period of the absence is not more than two years.

(3) A deputy minister, with the approval of the Deputy Minister, Human Resources Secretariat, may grant to an employee of his or her ministry leave of absence with pay for a period of not more than five years and, if the leave was granted for less than five years, the deputy minister, with the approval of the Deputy Minister, Human Resources Secretariat, may extend it from time to time, provided the total period of the absence is not more than five years.

(4) Where a leave of absence was originally granted under subsection (2), the deputy minister, with the approval of the Deputy Minister, Human Resources Secretariat, may extend it from time to time provided the total period of absence does not exceed five years.

(5) A deputy minister may grant to an employee of his or her ministry leave of absence without pay and without accumulation of credits for a period of not more than two years and, if the leave was granted for less than two years, may extend it from time to time, provided the total period of the absence is not more than two years.

(6) A deputy minister, with the approval of the Deputy Minister, Human Resources Secretariat, may grant to an employee of his or her ministry leave of absence without pay and without accumulation of credits for a period of not more than five years and the original leave was for less than five years, the deputy minister, with the approval of the Deputy Minister, Human Resources Secretariat, may extend it from time to time, provided the total period of absence is not more than five years.

(7) Where a leave of absence was originally granted under subsection (5), the deputy minister, with the approval of the Deputy Minister, Human Resources Secretariat, may extend the leave of absence from time to time, provided the total period of absence does not exceed five years.

(8) Where leave of absence with pay is granted

(a) the employee is entitled to the same sick leave benefits and vacation credits to which the employee would be entitled if the employee had not taken the leave of absence;

(b) the employee shall submit regular personal attendance reports; and

(c) the employing agency shall reimburse the Treasurer of Ontario,

(i) for the salary of the employee, and

(ii) for contributions made by the Government of Ontario on behalf of the employee in respect of the *Public Service Superannuation Act*, the *Superannuation Adjustment Benefits Act*, the *Canada Pension Plan* and the *Unemployment Insurance Act* (Canada) and group insurance plans.

(9) Where leave of absence without pay and without accumulation of credits is granted, the employee, at the employee's option, may continue to participate in the group insurance plans in which the employee would have participated if the employee had not taken the leave of absence if the employee pays the full premiums for the coverage under the plans. MUNICIPAL BOUNDARY NEGOTIATIONS ACT, 1981

O. Reg. 49/87.

Town of Blenheim—Township of
Harwich Boundary.

Made—January 28th, 1987.

Filed—January 30th, 1987.

ORDER IN COUNCIL

R.O.C. 38/87

WHEREAS The Corporation of the Town of Blenheim and The Corporation of the Township of Harwich have entered into an agreement dated the 6th day of October, 1986 for the resolution of certain boundary issues;

AND WHEREAS public notice was given by the Clerk of the Executive Council under subsection 17 (1) of the *Municipal Boundary Negotiations Act, 1981* of the intention to make an Order implementing the inter-municipal agreement;

AND WHEREAS no objections to the proposed issuance of the Order were filed with the Clerk of the Executive Council within the filing period;

NOW THEREFORE on the recommendation of the undersigned, the Lieutenant Governor, by and with the advice and concurrence of the Executive Council, orders under section 14 of the *Municipal Boundary Negotiations Act, 1981* that,

1. On the 1st day of February, 1987, the portion of the Township of Harwich described in the Schedule is annexed to the Town of Blenheim.

2. All real property of The Corporation of the Township of Harwich situate in the annexed area vests in The Corporation of the Town of Blenheim on the 1st day of February, 1987.

3. On the 1st day of February, 1987, the by-laws of The Corporation of the Town of Blenheim extend to the annexed area and the by-laws of The Corporation of the Township of Harwich cease to apply to such area, except,

(a) by-laws of The Corporation of the Township of Harwich,

(i) that were passed under section 34 of the *Planning Act, 1983* or a predecessor of that section,

(ii) that were kept in force by subsection 13 (3) of *The Municipal Amendment Act, 1941*, or

(iii) that were passed under the *Highway Traffic Act* or the *Municipal Act* that

regulate the use of highways by vehicles and pedestrians and that regulate the encroachment or projection of buildings or any portion thereof upon or over highways,

which shall remain in force until repealed by the council of The Corporation of the Town of Blenheim;

- (b) by-laws of The Corporation of the Township of Harwich passed under section 45, 58 or 61 of the *Drainage Act* or a predecessor of those sections; and
- (c) by-laws conferring rights, privileges, franchises, immunities or exemptions that could not have been lawfully repealed by the council of The Corporation of the Township of Harwich.

4. The clerk of The Corporation of the Township of Harwich shall forthwith prepare and furnish to the clerk of The Corporation of the Town of Blenheim a special collector's roll showing all arrears of taxes or special rates assessed against the lands in the annexed area up to and including the 31st day of January, 1987 and the persons assessed therefor.

5.—(1) All real property taxes levied under any general or special Act and uncollected in the annexed area that are due and unpaid on the 1st day of February, 1987 shall be deemed on that date to be taxes due and payable to The Corporation of the Town of Blenheim and may be collected by The Corporation of the Town of Blenheim.

(2) On or before the 1st day of May, 1987, The Corporation of the Town of Blenheim shall pay to The Corporation of the Township of Harwich an amount equal to the amount of all real property taxes that The Corporation of the Town of Blenheim is entitled to collect in the annexed area under subsection (1) that were due but unpaid on the 1st day of February, 1987.

6. All business taxes levied and uncollected in the annexed area that are due and unpaid on the 31st day of January, 1987 shall continue after that date to be taxes due and payable to The Corporation of the Township of Harwich and may be collected by The Corporation of the Township of Harwich.

7.—(1) The assessment of land in the annexed area upon which the taxes after the 31st day of January, 1987 shall be levied, shall be determined by the Assessment Commissioner in accordance with the classes of real property and the factors prescribed for by The Corporation of the Town of Blenheim by regulations made under the *Assessment Act*.

(2) Where the Assessment Commissioner makes an assessment in accordance with subsection (1), section 34 of the *Assessment Act* applies to the assessment.

8. The annexed area is established as a special rate area for municipal tax purposes and, subject to subsection 10 (6), for the properties and the annexed area,

- (a) in the year 1987, for the period commencing on February 1, 1987, each property shall pay an amount of taxes calculated by multiplying the 1987 total mill rate for the Town of Blenheim for all purposes by the assessment role for that property, as shown on the assessment role prepared in accordance with section 7 and subtracting therefrom 100 per cent of the tax differential calculated under section 10 (6) and then subtracting therefrom the amount of taxes paid or owing on that property to the Township of Harwich for that portion of the 1987 taxation year before January 31, 1987;
- (b) in the years 1988 to 1991, inclusive, each property shall pay an amount of taxes calculated by multiplying the total mill rate for the Town of Blenheim for that year for all purposes by the assessment role for that property shown on the last revised assessment role for the Town of Blenheim for that taxation year and subtracting therefrom 100 per cent of the tax differential established under subsection (a); and
- (c) in the year 1992, and subsequently, each property shall pay an amount of taxes calculated by multiplying the 1992 and subsequent total mill rates for the Town of Blenheim for all purposes by the assessment role for that property as shown on the last revised assessment role for the Town of Blenheim for the 1992 and subsequent taxation years.

9.—(1) In this section,

"town assessment" means the assessment on a property in the annexed area as shown in the assessment role prepared in accordance with section 7;

"township assessment" means the assessment on a property in the annexed area as shown in the assessment role returned assessment role for the 1987 taxation year.

(2) In the year 1987, the treasurer of The Corporation of the Town of Blenheim shall establish a tax differential for each property in the annexed area by calculating the product of the 1987 mill rate for the Town of Blenheim for all purposes and the assessment role for that property and subtracting therefrom the product of the 1987 total mill rate for the Township of Harwich for all purposes and the township assessment on that property.

10.—(1) In this section, "phase in period" means the years 1987 to 1991, inclusive.

(2) If two or more properties in the annexed area are consolidated during the phase in period, the tax differentials for those properties shall be consolidated and a new tax differential shall be established for the consolidated property.

If the total assessment of the consolidated properties is less than the aggregate of the assessments on the constituent properties, the new tax differential shall be apportioned in the same proportion and at the same rate as the total assessment is diminished.

If a property in the annexed area is severed or divided during the phase in period, the tax differential shall be allocated to each of the divided parts of the property in the same proportion as the assessment of each part bears to the aggregate of all of the assessments making up the original property at the time of the division of that property but in no case shall the rate of the tax differential be increased.

If for any reason taxes on a property are reduced in any year during the phase in period, the tax differential established under section 9 shall not exceed the taxes payable to the treasurer of The Corporation of the Town of Blenheim shall reduce the tax differential in that year by the amount by which the tax differential exceeds the taxes payable.

In the event that the whole or any part of any property in the annexed area is rezoned to permit any commercial or industrial use, the provisions of sections 9 and 10 shall cease to apply to the whole of such property immediately upon the approval of such rezoning.

The Corporation of the Town of Blenheim shall indemnify The Corporation of the Township of Harwich, for compensation for the loss of assessment in the annexed area, the sum of \$20,000 of which,

- (a) \$1,000 is payable on or before the 1st day of July in each of the years 1987 to 1996, inclusive; and
- (b) \$10,000 is payable on the 1st day of September, 1996.

The agreement between The Corporation of the Town of Blenheim and The Corporation of the Township of Harwich entered into on the 6th day of October, 1986 is hereby given effect. O. Reg. 49/87.

NOTICE OF APPLICATION BY THE CORPORATION OF THE CITY OF HAMILTON FOR PRIVATE LEGISLATION

NOTICE IS HEREBY GIVEN that The Corporation of the City of Hamilton will make application to the Legislative Assembly of the Province of Ontario at its next regular session commencing 1987 for an Act amending the *City of Hamilton Act, 1985*.

The *City of Hamilton Act, 1985* established The Hamilton Entertainment and Convention Facilities Inc. to maintain, operate, manage, market and promote Hamilton Place, the Convention Centre and the Arena. The Act provides that the Board of Directors shall be composed of the Mayor and thirteen members appointed by Council of whom four members shall be members of Council and nine members shall not be members of Council.

The amending Act will change the composition of the Board of Directors so that it will be composed of the Mayor and thirteen members of whom seven members shall be members of Council and six members shall not be members of Council. The net effect is to increase the number of Council members by three members and to reduce the Council members by three members.

The application will be considered by a Standing Committee of the Legislative Assembly. Any person who has an interest in the application and who wishes to make submissions, for or against the application, to the Standing Committee should notify, in writing, the Clerk of the Legislative Assembly, Queen's Park, Toronto, Ontario M7A 1A2.

NOTICE OF APPLICATION FOR SPECIAL LEGISLATION

NOTICE IS HEREBY GIVEN that, on behalf of the Corporation of the City of Toronto, application will be made to the Legislative Assembly of the Province of Ontario, for an Act to provide:

(1) That Council may pass by-laws which would amend the Toronto Fire Department Superannuation and Benefit Fund and the Toronto Civic Employees' Pension and Benefit Fund (the "Funds") to provide that:

(a) any matters (including investments) considered by the Committees which administer the Funds shall be determined by a simple majority;

(b) the power to invest money accumulating to the credit of the Funds may be delegated to any person or body;

(c) money accumulated to the credit of the Funds may be in bearer form, or registered in the

name of a nominee or in other manner determined by the Committees administering the Funds and such money may be invested in an investment fund set up and maintained by a company governed by the *Canadian and British Insurance Companies Act*;

(d) certain expenses may be paid out of the Funds.

(2) That Council may pass by-laws to permit a person who receives or who on or before the day the proposed legislation comes into force, received payments under a disability plan of the City to accrue service credits under a pension plan for the whole or any part of the period during which disability payments are or were received, notwithstanding the termination of the person's employment with the City has terminated.

(3) That a plebiscite for the purposes of submitting one or more questions under section 26 of the *Liquor Licence Act* may be held in either one or both of the areas described in the proposed legislation as Area 1 and Area 2. The said Area 1 describes that portion of the former City of West Toronto which now lies in Ward 3 of the City of Toronto. PLANNING ACT, 1983

O. Reg. 58/87.

Zoning Areas—Town of Caledon in The Regional Municipality of Peel.

Made—January 29th, 1987.

Filed—February 4th, 1987.

ORDER MADE UNDER THE PLANNING ACT, 1983

ZONING AREAS—TOWN OF CALEDON IN THE REGIONAL MUNICIPALITY OF PEEL

1. In this Order,

“accessory”, when used to describe a use, building or structure, means a use, building or structure that is normally incidental or subordinate to the principal use, building or structure on the same lot;

“building separation” means the horizontal distance between the nearest main walls of buildings on a lot;

“corner lot” means a lot situated at the intersection of two streets;

“driveway” means an unobstructed passageway used to provide vehicular access from a street to a lot;

“dwelling unit” means habitable rooms occupied or capable of being occupied as an independent and separate housekeeping establishment in which separate kitchen and sanitary facilities are provided for the exclusive use of the unit;

“flank lot line” means a side lot line of a corner lot that abuts the street;

“front lot line” means the lot line that divides a lot from a street and, in the case of a corner lot, is the lot line over which access is provided to the lot;

“front yard” means a yard extending across the full width of the lot between the front lot line and the nearest main wall of the principal building on the lot;

“garage” means a fully enclosed accessory building that is detached or that structurally forms a part of a single dwelling and is used primarily for the sheltering of vehicles but does not include a carport or other open shelter;

“gross floor area” means the aggregate of the horizontal areas of each floor, whether above or below grade, measured between the exterior faces of the exterior walls of the building or structure;

“ground floor area” means the area of the lowest storey of a building or structure above grade, measured between the exterior faces of the exterior walls of the floor level of that storey;

“height” means the vertical distance between the finished grade of the ground at the front of the building on a lot and,

(a) the highest point of the roof surface of a flat roof,

(b) the deck line of a mansard roof, or

(c) the median level between eaves and ridge of a gable, gambrel or hip roof;

"home profession" means the offices of an accountant, architect, auditor, dentist, drugless practitioner, engineer, insurance agent, land surveyor, lawyer, medical practitioner, notary, realtor or town planner;

"lot" means a parcel of land described in a transfer or other document legally capable of conveying land or shown as a lot or block on a registered plan of subdivision;

"lot coverage" means the proportion of the lot area covered by the ground floor area of all buildings on a lot;

"lot frontage" means the horizontal distance between the side lot lines of a lot and, where such lot lines are not parallel, the lot frontage is the distance between the side lot lines measured on a line parallel to the front lot line and 7.5 metres distant therefrom;

"lot line" means a boundary of a lot;

"public utility" means a public water works or water supply system, sewage works, electrical power or energy generating transmission or distribution system, street lighting system, natural or artificial gas works or supply system, a telephone system or television transmission system and includes any land or equipment required for the operation of any such system;

"rear lot line" means the lot line opposite the front lot line;

"rear yard" means a yard extending across the full width of a lot between the rear lot line and the nearest wall of the principal building on the lot;

"side lot line" means a lot line other than a front or rear lot line;

"side yard" means a yard between the nearest main wall of the principal building and the side lot line that extends from the front lot line to the rear lot line;

"single dwelling" means a separate building containing only one dwelling unit that is occupied as a permanent residence or home and that is served by a public water system and a public sewer system;

"street" means a public highway;

"yard" means a space open from the ground to the sky, unoccupied except for such accessory buildings as are specifically permitted in the Order, on the lot on which a building is situated. O. Reg. 58/87, s. 1.

2. This Order applies to that part of the east half of Lot 11, Concession VII (Albion) and part of the road allowance between lots 10 and 11, Concession VII (Albion), formerly in the Township of Albion in the

County of Peel and now in the Town of Caledon, The Regional Municipality of Peel, designated as lots 1, 2 and 3 on a plan deposited in the Land Registry Office for the Land Titles Division of Peel (No. 4 Number 43R-14177 and entered in the Register of Land Section 43-Albion-7 as Parcel 11-1. O. Reg. 58/87, s. 2.

3. Not more than one single dwelling is permitted on a lot. O. Reg. 58/87, s. 3.

4. The height limitations of this Order do not apply to flag poles, television or radio antennae, skylights or solar collectors. O. Reg. 58/87, s. 4.

5. A tool shed, scaffold or other structure incidental to the construction of a building may be erected on a lot located and used until the construction is complete. O. Reg. 58/87, s. 5.

6.—(1) One parking space is required for each single dwelling located on the same lot as the single dwelling.

(2) For home profession uses, two parking spaces are required for each single dwelling. One parking space for each twenty square metres of floor area devoted to the professional use, whichever is greater, are required.

(3) No parking is permitted in the front yard of a lot except within a private garage or on a driveway. O. Reg. 58/87, s. 6.

7. Despite the yard and setback provisions of this Order, unenclosed porches, balconies, steps, platforms, main eaves, sills, cornices, gutters and chimneys may project into any yard a distance not exceeding one metre. O. Reg. 58/87, s. 7.

8.—(1) Every use of land and every erection, construction or use of buildings or structures is prohibited except single dwellings and public utilities and accessory buildings and structures accessory thereto.

(2) Accessory buildings shall not,

(a) be used for permanent human habitation;

(b) be located in any part of a front yard;

(c) be attached to any other building for the purpose of structural support or enclosure.

(3) Despite subsection (2), a garage that is structurally a part of a single dwelling may be located on a lot in a front yard. O. Reg. 58/87, s. 8.

9.—(1) Requirements for buildings and structures including accessory buildings and structures, permitted by section 8 are as follows:

1. Minimum lot area 465 square metres

2. Minimum lot frontage,

POWER CORPORATION ACT

O. Reg. 59/87.

Pension and Insurance Plan.

Made—November 21st, 1986.

Approved—February 5th, 1987.

Filed—February 5th, 1987.

REGULATION TO AMEND REGULATION 796 OF REVISED REGULATIONS OF ONTARIO, 1980 MADE UNDER THE POWER CORPORATION ACT

1.—(1) Section 22 of Regulation 796 of Revised Regulations of Ontario, 1980, as amended by section 9 of Ontario Regulation 173/83, section 5 of Ontario Regulation 768/83 and section 1 of Ontario Regulation 432/85, is further amended by adding thereto the following subsections:

(9a) Subsection (9b) applies to a member who retired before the 1st day of January, 1966, and to that member's spouse, to the person or agency having custody of that member's dependent children and to that member's dependent children, as the case may be.

(9b) In addition to any other pension, a pension is payable starting on the first day of the month following the day this subsection comes into force or on the first day of the month following the member's death, whichever is later,

(a) to the member's spouse if that person was the member's spouse before the member's retirement; or

(b) to a person, agency or child described in paragraph 2, 3 or 4 of subsection (2), as the case may be, on the same conditions as set out in paragraph 2, 3 or 4 of subsection (2), whichever is applicable.

(9c) Subject to subsections (9d) and (9e), the amount of the pension payable under subsection (9b) is 25 per cent of the annual pension to which the member was entitled or, in the absence of the exercise of an

election under subsection (8), (9) or 19 (1), would have been entitled at death, together with all increases that were granted in respect of the annual pension to the start of the additional pension.

(9d) Where a member has made an election provided for by subsection 19 (1) by naming his or her spouse as surviving contingent annuitant, the member, within three months after the date appearing on a notice from the Corporation requesting the member so to do, may elect that a portion of the additional pension under subsection (9c) that would otherwise have become payable pursuant to subsection (9b) be actuarially apportioned in such a manner as the Corporation may approve, so that a designated portion thereof is payable to the member for life, with the balance payable in accordance with subsection (9b), provided that the balance so payable together with the pension payable to the surviving contingent annuitant under subsection (7), (8) or (9) and under subsection 19 (1) shall be at least equivalent to 50 per cent of the pension that will be paid to the member and shall not exceed 100 per cent of that pension.

(9e) Where a member has made an election in accordance with subsection 19 (1) and the total pension payable to the surviving contingent annuitant under subsection (7), (8) or (9) and under subsection (9b) and 19 (1) is equivalent to at least 100 per cent of the pension payable to the member and the member does not make the election permitted by subsection (9d), the Corporation may on behalf of the member make the election that will assure that the member's spouse or dependent children will receive the maximum pension permitted by subsection (9d) and such election has the same effect as if made by the member. O. Reg. 59/87, s. 1 (1).

(2) Subsection 22 (14) of the said Regulation, as made by section 1 of Ontario Regulation 432/85, is revoked and the following substituted therefor:

(14) Subject to subsection (13), where a pension paid under this section was discontinued because the deceased member's spouse remarried, a pension in the amount that the deceased member's spouse would have been receiving but for the discontinuance shall be resumed on the first day of the month following the day that this subsection comes into force. O. Reg. 59/87, s. 1 (2).

2. The said Regulation is amended by inserting after section 24 the heading:

TRANSFERS TO OR FROM RECIPROCAL EMPLOYERS

3. Paragraph 1 of subsection 25 (3) of the said Regulation is revoked and the following substituted therefor:

1. The interval between the termination of the transferee's employment with the previous employer and assumption by the transferee of

employment with the subsequent employer does not exceed a period of three months, such longer period as the Corporation and the other employer may determine.

4. The said Regulation is amended by adding thereto the following section:

25a.—(1) A member who,

- (a) would otherwise be eligible under a reciprocal transfer agreement to require transfer to the Corporation of pension entitlements earned with another employer, except that the member does not meet the requirements set out in paragraph 2 of subsection 25 (3); and
- (b) provides satisfactory evidence of that pensionable service and proof of refund of moneys from the pension fund of the previous employer,

may reinstate all or part of the pensionable service from the earliest period of the service, subject to a minimum reinstatement of one year, upon payment of the fund of an amount determined by the Corporation in accordance with subsections (2) and (3).

(2) A member to whom subsection (1) applies who makes the election within one year after this section comes into force or within one year after becoming a member of the plan, whichever is later, shall pay to the fund an amount equivalent to the amount the member would have contributed to the fund for pension purposes during the selected service as if that service was with the Corporation and the member's earnings during that period had been the same as the base earnings on becoming a member, together with interest thereon at the same annual rate of interest prescribed by subsections 12 (1) and (2) compounded annually from the time of becoming a member to the time of election.

(3) A member to whom subsection (1) applies who does not make the election within the time period prescribed by subsection (2) may elect to reinstate selected service at any later time while contributing to the fund and the relevant provisions of subsection (1) apply with necessary modifications except that the base earnings for the selected service shall be the base earnings at the time the member makes the election.

(4) In this section, "selected service" means that portion of pensionable service earned with a previous employer that is being reinstated starting with the earliest period of such service.

(5) Selected service reinstated under this section shall be included in determining the period of service during which a member was contributing to the fund and shall be considered as continuous employment for the purposes of clause 1 (x), sections 6 and 22 and clause 23 (1) (d). Order in Council

O.C. 261/87

On the recommendation of the undersigned, the Lieutenant Governor, by and with the advice and concurrence of the Executive Council, orders that

- (a) the portion of highway in the Township of Sarnia, in the County of Lambton, being part of Lot 16, Concession 7, under the jurisdiction and control of the Ministry of Transportation and Communications and shown as PART 1 on a Plan of Survey P-2311-262 being a Reference Plan deposited in the Land Registry Office for the Registry Division of Lambton as Plan 25R-4548 be closed, pursuant to subsection 29 (2) of the *Public Transportation and Highway Improvement Act*, R.S.O. 1980, Chap. 421 and amendments thereto; and
- (b) the designation of the above-mentioned highway as Controlled-Access Highway by Schedule 5 of Reg. 392, R.R.O. 1970 to Order in Council numbered ROC-76/78 effective March 17, 1978 and added by O. Reg. 201/78 be amended so as to cease to apply to the por-

tion of highway shown as PART 1 on Minister's Plan P-2311-262.

Recommended EDWARD FULTON,
Minister of Transportation
and Communications.

Concurred MURRAY J. ELSTON,
Chairman.

Approved and Ordered, February 5, 1987.
LINCOLN M. ALEXANDER,
Lieutenant Governor.

Environmental Assessment Act

NOTICE OF ACCEPTANCE OF THE ENVIRONMENTAL ASSESSMENT AND NOTICE OF APPROVAL TO PROCEED WITH THE UNDERTAKING

RE: An Environmental Assessment for the construction, operation, and maintenance of a series of five weirs and ice boom flow control structures on the Moira River between the Town of Cannifton and the City of Belleville.

PROPOSER: Moira River Conservation Authority.

EA File No.: 1-84-1263-000

TAKE NOTICE that the date for receipt by me of submissions or requirements for a hearing on the above Environmental Assessment and/or its Review, provided for in the *Notice of Completion of Environmental Assessment Review*, dated September 30, 1986, expired on November 10, 1986. I received no submissions and no requirements for a hearing by that date. I do not consider it advisable to require a hearing.

ACCEPTANCE OF THE ENVIRONMENTAL ASSESSMENT

Having considered those matters set out in Section 8 of the *Environmental Assessment Act* (the "Act") and being of the opinion that the Environmental Assessment is satisfactory to enable a decision to be made with respect to approval, I accept the Environmental Assessment pursuant to Section 9 of the Act.

APPROVAL OF THE UNDERTAKING

Under Section 13 of the Act, before the decision on approval to proceed with the undertaking can be made, the proponent has the opportunity to require a hearing by the Environmental Assessment Board.

The proponent has waived this right.

Having considered the purpose of the Act, and the Environmental Assessment of the undertaking is accepted, I hereby give approval to proceed with the undertaking subject to the following terms and conditions:

1. The proponent shall comply with all of the provisions of the Environmental Assessment, as amended, which are herein incorporated by reference, except as they may be modified pursuant to the subsequent conditions.
2. The proponent shall study the results of the backwater effects of the proposed weirs on provincial highways and related facilities and shall submit design details for approval to the Director, Eastern Region, Ministry of Transportation and Communications, prior to construction.
3. The proponent shall comply with any terms or conditions imposed on the construction or operation of the undertaking by the approval required in Condition 2 above.
4. The proponent shall submit,
 - (a) a report detailing compliance with the above conditions (1) and (3), including mitigation requirements outlined in the approved environmental assessment, to the following:

1. Director, Environmental Assessment Branch, Ministry of the Environment;
2. Regional Director, Southeastern Region, Ministry of the Environment;
3. Regional Director, Eastern Region, Ministry of Natural Resources,

within 90 days of the end of each calendar year in which construction is carried out; and

- (b) a report detailing compliance with condition (2) above to the Director, Environmental Assessment Branch, Ministry of the Environment, prior to construction.

5. No construction shall take place unless construction is commenced within five years of the date of this approval, and no individual weir shall be constructed unless its construction is commenced within eleven years of the date of this approval.

REASONS

The reasons for giving approval are:

1. On the basis of the proponent's Environmental Assessment and the Review, the proponent's conclusion that on balance, the advantages of this undertaking outweigh its disadvantages, appears to be valid.
2. No other more beneficial alternative method of implementing the undertaking was identified.
3. On the basis of the proponent's Environmental Assessment, the Review and the conditions of approval the construction, operation and maintenance of the undertaking will be consistent with the purpose of the Act.
4. I received no submissions and no requests for a hearing after giving Notice of completion of Review dated September 30, 1986.
5. All government agencies who reviewed the Environmental Assessment are in agreement that no significant adverse environmental effects are anticipated from construction, operation or maintenance of the undertaking.

Dated at Toronto, this 22nd, day of January, 1987.

Approved by O.C. No. 125/87

JIM BRADLEY,
Minister of the Environment,
135 St. Clair Avenue West,

NOTICE OF APPLICATION BY THE CORPORATION OF THE CITY OF HAMILTON FOR PRIVATE LEGISLATION

NOTICE IS HEREBY GIVEN that The Corporation of the City of Hamilton will make application to the Legislative Assembly of the Province of Ontario at its next regular session commencing in 1987 for an Act amending the *City of Hamilton Act, 1985*.

The *City of Hamilton Act, 1985* established The Hamilton Entertainment and Convention Facilities Inc. to maintain, operate, manage, market and promote Hamilton Place, the Convention Centre and the Arena. The Act provides that the Board of Directors shall be composed of the Mayor and thirteen members appointed by Council of whom four members shall be members of Council and nine members shall not be members of Council.

The amending Act will change the composition of the Board of Directors so that it will be composed of the Mayor and thirteen members of whom seven members shall be members of Council and six members shall not be members of Council. The net effect is to increase the number of Council members by three members and to reduce the citizen members by three members.

The application will be considered by a Standing Committee of the Legislative Assembly. Any person who has an interest in the application and who wishes to make submissions, for or against the application, to the Standing Committee should notify, in writing, the Clerk of the Legislative Assembly, Queen's Park, Toronto, Ontario M7A 1A2.

1.2.1.1. Definitions of words and phrases that are not included in the list of definitions in this Part shall have the meanings which are commonly assigned to them in the context in which they are used in this Code, taking into account the specialized use of terms by the various trades and professions to which the terminology applies.

1.2.1.2. The words and terms used in this Code that are in lower case bold face shall have the following meanings:

Access to exit means that part of a **means of egress** within a **floor area** that provides access to an **exit** serving the **floor area**.

Air-supported structure means a structure that consists of a pliable membrane that achieves and maintains its shape and support by internal air pressure.

Appliance means a device to convert fuel into energy, and includes all components, controls, wiring and piping required to be part of the device by the applicable standard referred to in this Code.

Approved means approved by the **Chief Fire Official**.

Architect means a member or licensee of the Ontario Association of Architects under the **Architects Act**.

Assembly occupancy means the **occupancy** or the use of a **building**, or part thereof, by a gathering of persons for civic, political, travel, religious, social, educational, recreational or like purposes or for the consumption of food or drink.

Atmospheric storage tank means a **storage tank** that is designed to operate at pressures from atmospheric to 3.5 kPa (gauge).

Attic space means the space between the roof and the ceiling of the top **storey** or between a dwarf wall and a sloping roof.

Basement means any **storey** below the **first storey** measured from the top of each floor to the top of the floor next below.

Boiler means an **appliance** intended to supply hot water or steam for **space heating**, processing or power purposes.

Breeching means a **flue pipe** or chamber for receiving **flue** gases from 1 or more **flue** connections and for discharging these gases through a single **flue** connection.

Building means any structure used or intended for supporting or sheltering any use or **occupancy**.

Building area means the greatest horizontal area of a **storey** above **grade** within the outside surface of exterior walls or where there is a **firewall**, the outside surface of exterior walls and the centre line of the **firewall**.

Building Code means Ontario Regulation 419/86.

Building height (in **storeys**) means the number of **storeys** contained between the roof and the floor of the **first storey**.

Business and personal services occupancy means the occupancy or use of a building or part thereof for the transaction of business or the rendering or receiving of professional or personal services.

Cellar means a basement that is more than 50 per cent below grade.

Check means visual observation to ensure the device or system is in place and is not obviously damaged or obstructed.

Chief Fire Official means the Municipal Fire Chief or a member or members of the fire department designated by the Municipal Fire Chief or a person appointed by the Fire Marshal under Subsection 1.1.9.

Chimney means a primarily vertical shaft enclosing at least 1 flue for conducting flue gases to the outdoors.

Chimney liner means a conduit containing a chimney flue used as a lining of a masonry or concrete chimney.

Class A fire means a fire involving combustible materials such as wood, cloth and paper.

Class B fire means a fire involving a flammable or combustible liquid, fat or grease.

Class C fire means a fire involving energized electrical equipment.

Class D fire means a fire involving a combustible metal.

Closed container means a container so sealed by means of a lid or other device that neither liquid nor vapour will escape from it at ordinary temperatures.

Closure means a device or assembly for closing an opening through a fire separation such as a door, a shutter, wired glass or glass block and includes all components, such as hardware, closing devices, frames and anchors.

Combustible construction means that type of construction that does not meet the requirements for noncombustible construction.

Combustible dusts means dusts and particles ignitable and liable to explode from handling or processing of grain, malt and the manufacture of flour and feed.

Combustible fibres means finely divided combustible vegetable or animal fibres and thin sheets or flakes of such materials that in a loose, unbaled condition present a flash fire hazard, and includes cotton, wool, hemp, sisal, jute, kapok, paper and cloth.

Combustible liquid means any liquid having a flash point at or above 37.8°C and below 93.3°C.

Compressed gas means any contained mixture or material with either an absolute pressure exceeding 275.8 kPa at 21°C or an absolute pressure exceeding 717 kPa at 54°C, or both, or any liquid having an absolute vapour pressure exceeding 275.8 kPa at 37.8°C.

Constructor means a person who contracts with an owner, occupant or their authorized agent to undertake a project, and includes an owner, occupant or authorized agent who contracts with more than one person for the work on a project or undertakes the work on a project or any part thereof.

Corrosive liquid means a liquid that, when contacting living tissue causes damage to the tissue, or when contacting organic matter and chemicals that react with the liquid, causes fire.

Demolition means the doing of anything in the removal of a building or any material part thereof.

Dwelling unit means a room or suite of rooms operated as a housekeeping unit that is used or intended to be used as a domicile by 1 or more persons and that may contain cooking, eating, living, sleeping and sanitary facilities.

Existing means in existence on the day this Regulation comes into force.

Exit means that part of a **means of egress** that leads from the **floor area** it serves and includes any doorway leading directly from a **floor area**, to a public thoroughfare or to an **approved** open space.

Fire compartment means an enclosed space in a **building** that is separated from all other parts of the **building** by enclosing construction that provides a **fire separation** having a required **fire-resistance rating**.

Fire damper means a **closure** that consists of a damper installed in an air distribution system or in a wall or floor assembly that is normally held in the open position and that is designed to close automatically in the event of a fire in order to maintain the integrity of the **fire separation**.

Fire department means a fire department organized under the **Municipal Act** that provides fire protection for the municipality and that is equipped with one or more motorized fire pumpers meeting the requirements of Regulation 393 of the Revised Regulations of Ontario, 1980.

Fire-protection rating means the time in hours or fraction thereof that a **closure**, window assembly or glass block assembly will withstand the passage of flame when exposed to fire under specified conditions of **test** and performance criteria, or as otherwise prescribed in the **Building Code**.

Fire resistance means the property of a material or assembly in a **building** to withstand fire or give protection from it and is characterized by the ability of the material or assembly to confine a fire or to continue to perform a given structural function or both.

Fire-resistance rating means the time in hours or fraction thereof that a material or assembly of materials will withstand the passage of flame and the transmission of heat when exposed to fire under specified conditions of **test** and performance criteria, or as determined by extension or interpretation of information derived therefrom as prescribed in the **Building Code**.

Fire separation means a construction assembly that acts as a barrier against the spread of fire and may or may not have a **fire-resistance rating** or a **fire-protection rating**.

Fire stop means a draft-tight barrier within or between construction assemblies that acts to retard the passage of smoke and flame.

Fire-stop flap means a device intended for use in horizontal assemblies that are required to have a **fire-resistance rating** and incorporate protective ceiling membranes and that operates to close off a duct opening through the membrane in the event of a fire.

Firewall means a **fire separation** of **noncombustible construction** that subdivides a **building** or separates adjoining **buildings** to resist the spread of fire that has a **fire-resistance rating** as prescribed in the **Building Code** and that has structural stability to remain intact under fire conditions for the required fire-rated time.

First storey means the **storey** with its floor closest to grade and having its ceiling more than 1.8 m above **grade**.

Flame-spread rating means an index or classification indicating the extent of spread of flame on the surface of a material or an assembly of materials as determined in the **Building Code**.

Flammable liquid means any liquid having a **flash point** below 37.8⁰C and having an absolute **vapour pressure** not exceeding 275.8 kPa at 37.8⁰C.

Flash point means the minimum temperature at which a liquid within a container gives off vapour in sufficient concentration to form an ignitable mixture with air near the surface of the liquid.

Floor area means the space on any **storey** of a **building** between exterior walls and required **firewalls** and includes the space occupied by interior walls and **partitions**, but does not include **exits** and vertical service spaces that pierce the **storey**.

Flue means an enclosed passageway for conveying flue gases.

Flue pipe means the pipe connecting the **flue** collar of an **appliance** to a chimney.

Furnace means a **space-heating appliance** that uses warm air as the heating medium and that usually has provision for the attachment of ducts.

Grade (as applying to the determination of **building height**) means the average level of finished ground adjoining a **building** at all exterior walls.

Hazardous location means a location that is or may become subject to conditions conducive to the rapid development of fire or explosion.

Heavy timber construction means that type of **combustible construction** in which a degree of fire safety is attained by placing limitations on the sizes of wood structural members and on thickness and composition of wood floors and roofs, by avoidance of concealed spaces under floors and roofs and by use of **approved** fastenings, construction details and adhesives for structural members.

High hazard industrial occupancy (Group 'F' Division 1) means an **industrial occupancy** that contains sufficient quantities of highly combustible and flammable or explosive materials that, because of their inherent characteristics, constitute a special fire hazard.

Industrial occupancy means the **occupancy** or use of a **building** or part thereof for assembling, fabricating, manufacturing, processing, repairing or storing of goods and materials.

Inspect means physical examination to determine that the device or system will apparently perform in accordance with its intended function.

Institutional occupancy means the **occupancy** or use of a **building** or part thereof by persons harboured or detained to receive medical care or treatment, or by persons involuntarily detained.

Listed means equipment or materials included in a list published by a certification organization accredited by the Standards Council of Canada.

Lower explosive limit means the minimum concentration of vapour in air at which the propagation of flame occurs on contact with a source of ignition.

Low pressure storage tank means a **storage tank** designed to operate at pressures from 3.5 kPa (gauge) to 100 kPa (gauge).

Major occupancy means the principal **occupancy** for which a **building** or part thereof is used or intended to be used, and includes the subsidiary **occupancies** that are an integral part of the principal **occupancy**.

Means of egress means a continuous path of travel provided by a doorway, hallway, corridor, exterior passageway, balcony, lobby, stair, ramp or other egress facility or combination thereof, for the escape of persons from any point in a **building**, **floor area**, room or contained open space to a public thoroughfare or other **approved** open space and includes **exits** and access to **exits**.

Mercantile occupancy means the **occupancy** or use of a **building** or part thereof for the displaying or selling of retail goods, wares or merchandise.

Noncombustible construction means that type of construction in which a degree of fire safety is attained by the use of noncombustible materials for structural members and other **building** assemblies.

Occupancy means the use or intended use of a **building** or part thereof for the shelter or support of persons, animals or property.

Occupant load means the number of persons for which a **building** or part thereof is designed.

Order means an order made under clause 18 (2) (e) of the **Act**.

Owner means any person, firm or corporation having control over any portion of the **building** or property under consideration and includes the persons in the **building** or property.

Oxidizing material means a material, other than ordinary atmospheres, that by itself is not necessarily combustible, but that may, generally by yielding oxygen, cause or contribute to the combustion of another material.

Partition means an interior wall 1 **storey** or part of a **storey** in height that is not load-bearing.

Pressure vessel means a **storage tank** that is designed to operate at pressures greater than 100 kPa (gauge).

Professional Engineer means a member or licensee of the Association of Professional Engineers of the Province of Ontario under the **Professional Engineers Act**.

Public corridor means a corridor that provides **access to exit** from individually rented rooms, suites of rooms or **dwelling units**.

Residential occupancy means the **occupancy** of use of a **building** or part thereof by persons for whom sleeping accommodation is provided but who are not harboured or detained to receive medical care or treatment or are not involuntarily detained.

Retrofit means the minimum performance requirements for life safety for **existing buildings**.

Smoke alarm means a combined **smoke detector** and audible alarm device that is designed to sound an alarm within the room or suite in which it is located when there is smoke within the room or suite.

Smoke detector means a device that senses the presence of visible or invisible particles produced by combustion and that automatically initiates a signal indicating this condition.

Space heater means a **space-heating appliance** that heats the room or space within which it is located without the use of ducts.

Space-heating appliance means an **appliance** that supplies heat to a room or space directly or indirectly or to rooms or spaces of a **building** through a heating system.

Spraying area means the area that is within 6 m of a **spray booth** or spraying operation and that is not separated therefrom by a vapour-tight separation.

Spray booth means a power-ventilated structure that encloses or accommodates a spraying operation so that spray vapour and residue can be controlled and exhausted.

Spray room means a **spraying area** on a **floor area** or part thereof in which an open spraying operation is confined and that is separated from the remainder of the **building** in which it is located by a noncombustible vapour-tight separation.

Sprinklered (as applying to a **building** or part thereof) means that the **building** or part thereof is equipped with a system of automatic sprinklers.

Storage tank means a **closed container** installed in a fixed location and includes temporary arrangements on cradles or skids.

Storey means that portion of a **building** that is situated between the top of any floor and the top of the floor next above it, and where there is no floor above it, that portion between the top of the floor and the ceiling above it.

Street means any highway, road, boulevard, square or other improved thoroughfare 9 m or more in width, that has been dedicated or deeded for public use, and is accessible to **fire department** vehicles and equipment.

Supervisory staff means those occupants of a **building** who have some delegated responsibility for the fire safety of other occupants under the fire safety plan and may include the **fire department** where the **fire department** agrees to accept these responsibilities.

Tent means a shelter or structure with a covering that is made of pliable material.

Test means the operation of a device or system to ensure that it will perform in accordance with its intended operation or function.

Travel distance means the distance from any point in a **floor area** to an **exit** measured along the path of **exit** travel, except that when **floor areas** are subdivided into rooms used singly or into suites of rooms and served by **public corridors** or exterior passageways, the distance shall be measured from the door of the rooms or suites to the nearest **exit**.

Vapour pressure means the pressure exerted by a liquid as determined by ASTM D323-58(1968), "Vapour Pressure of Petroleum Products (Reid Method)".

Viscosity means the resistance that a liquid offers to flow.

SECTION 1.3 ABBREVIATIONS

Subsection 1.3.1. Abbreviations of Names of Associations

1.3.1.1. The abbreviations in this Code for the names of associations shall have the meanings assigned to them as follows. The addresses of the associations are shown in brackets following the name of each association.

ACNBC	Associate Committee on the National Building Code (National Research Council of Canada, Ottawa, Ontario K1A 0R6)
ANSI	American National Standards Institute (1430 Broadway, New York, New York 10018 U.S.A.)

SECTION 2.1 GENERAL

Subsection 2.1.1. Scope and Application

2.1.1.1. This Part provides for the safety of the occupants in existing **buildings**, through the elimination or control of fire hazards in and around **buildings**, the maintenance of certain life safety systems in **buildings** and for the establishing of a fire safety plan in those **buildings** where necessary.

Scope

2.1.1.2.(1) The provisions of Part 2 of this Code apply to all **buildings**.

Application

(2) The provisions of Part 2 do not apply to individual **dwelling units**.

2.1.1.3. Notwithstanding Sentence 2.1.1.2.(2), the provisions of Sections 2.2 Fire Separations, 2.6 Service Equipment and 2.11 Insulation and Re-Insulation, apply to individual **dwelling units**.

Subsection 2.1.2. Classification of Buildings or Parts of Buildings by Major Occupancy

2.1.2.1. For the purpose of applying this Code, a **building** or part thereof shall be classified according to its **major occupancy** by the **Chief Fire Official** in conformance with the **Building Code**.

Classification of buildings or parts thereof

2.1.2.2. Activities that create a hazard and that are not allowed for in the original design shall not be carried out in a **building** unless provisions are made to alleviate the hazard and the carrying on of the activities is **approved**.

Hazardous activities

2.1.2.3. No **major occupancy** of Group 'F' Division 1 shall be contained within a **building** with any **occupancy** classified as Group 'A', 'B' or 'C'.

Prohibited combinations of occupancies

SECTION 2.2 FIRE SEPARATIONS

Subsection 2.2.1. Major Occupancies

2.2.1.1. Where **fire separations** between **major occupancies** are damaged in a manner so as to affect the integrity of their **fire-resistance rating**, such damaged **fire separations** shall be repaired so that the integrity of the **fire separations** is maintained.

Damaged fire separations

Subsection 2.2.2. Rooms and Spaces

2.2.2.1. Where **fire separations** between rooms, corridors, shafts and other spaces are damaged so as to affect the integrity of their **fire-resistance rating**, the damaged **fire separations** shall be repaired so that the integrity of the **fire separations** is maintained.

Damaged fire separations

Subsection 2.2.3.

Closures

2.2.3.1. Where **closures** are damaged so as to affect the integrity of their **fire-protection rating**, the damaged **closures** shall be repaired so that the integrity of the **closures** is maintained.

Damaged
closures

2.2.3.2.(1) **Closures in fire separations** shall be maintained to ensure that they are operable at all times by

Maintenance
of closures

- (a) keeping fusible links and heat or smoke actuated devices undamaged and free of paint and dirt,
- (b) keeping guides, bearings and stay rolls clean and lubricated,
- (c) **inspecting** door hardware and other ancillary components and making necessary adjustments or repairs to ensure proper closing and latching, and
- (d) repairing or replacing inoperative parts of hold-open devices and automatic releasing devices.

2.2.3.3. **Closures in fire separations** shall not be blocked or wedged open.

2.2.3.4. Doors in **fire separations** shall be **inspected** monthly.

Inspection of
doors in fire
separations

2.2.3.5. Doors in **fire separations** in occupied **buildings** shall be **checked** as frequently as necessary to ensure that they remain closed, unless equipment is installed to close the doors automatically as required under the fire safety plan identified in Subsection 2.8.2.

2.2.3.6. RESERVED

2.2.3.7. **Fire dampers and fire-stop flaps** shall be **inspected** annually, or on an **approved** time schedule.

Inspection of
fire dampers
and fire-stop
flaps

2.2.3.8. Door openings and the surrounding areas shall be kept clear of everything that would be likely to obstruct or interfere with the free operation of the door.

SECTION 2.3 INTERIOR FINISHING, FURNISHING AND DECORATIVE MATERIALS

Subsection 2.3.1.

General

2.3.1.1.(1) Where a **building** is refurbished or redecorated, interior finish materials used shall be in conformance with the **Building Code**.

(2) Notwithstanding Sentence (1), other interior finish materials may be **approved**.

2.3.1.2. Moveable **partitions** or screens, including acoustical screens, shall have a **flame-spread rating** equal to that required for the interior finish of the area in which they are located as determined in the Building Code.

Moveable
partitions and
screens

Subsection 2.3.2. Textile Flammability

2.3.2.1.(1) Drapes, curtains and other decorative materials, including textiles and films used in **buildings**, shall meet the requirements for a high degree of **flame resistance**, as described in NOTE 4 of CAN 2-4.2 M77: "Textile Methods", Method 27.1, when such drapes, curtains and other decorative materials are used in

Flame
resistance
of textiles

- (a) Group 'B' **occupancy**,
- (b) any lobby or **exit**,
- (c) any **access to exit** in a Group 'A' **occupancy**, and **assembly occupancies** with an occupant load of more than 100 persons, or
- (d) any open **floor area** in any Group 'D', 'E' or 'F' **occupancy** exceeding 1500 m², except when the **floor area** is divided into **fire compartments** not exceeding 1500 m² in area and separated from the remainder of the **floor area** by a **fire separation** having a 1-hr **fire-resistance rating**.

2.3.2.2. Flameproofing treatments shall be renewed as often as required to ensure that the material will pass the match flame test in NFPA 701-1977, "Standard Methods of Fire Tests for Flame Resistant Textiles and Films."

Flameproofing
treatments

SECTION 2.4 FIRE HAZARDS

Subsection 2.4.1. Combustible Materials

2.4.1.1. Combustible waste materials in **buildings** shall not be permitted to accumulate in quantities or locations that may constitute a fire hazard.

Accumulation
of combustible
materials

2.4.1.2. Combustible materials shall not be permitted to accumulate in any part of an elevator shaft, ventilation shaft, stairway, fire escape or other **means of egress**.

2.4.1.3. Combustible materials shall not be used to absorb **flammable** or **combustible liquid** spills within **buildings**.

Liquid spill
absorption

2.4.1.4. Greasy or oily rags or materials subject to spontaneous heating shall be deposited in a receptacle conforming to Article 2.4.1.9. or be removed from the premises.

Precautions
against
spontaneous
combustion

2.4.1.5. Lint traps in laundry equipment shall be cleaned to prevent the excessive accumulation of lint.

Lint traps

2.4.1.6.(1) Combustible waste materials in a **building of an industrial occupancy** that constitute a fire hazard shall be baled or stored in receptacles conforming to Article 2.4.1.9.

Waste materials in industrial occupancies

(2) Sentence (1) does not apply to in-process packaging materials where the **building is sprinklered**.

2.4.1.7 Where rooms are provided for the storage of combustible waste materials, the rooms shall conform to the **Building Code**.

Storage of combustible waste

2.4.1.8. Ashes shall be stored in receptacles conforming to Article 2.4.1.9., and combustible materials shall not be stored with ashes in the same container.

Storage of ashes

2.4.1.9.(1) Safety containers shall be provided for the storage of combustible materials.

Receptacles for the storage of combustible materials

(2) Containers required in Sentence (1) shall be constructed of noncombustible materials having a melting point of not less than 650°C, designed without any openings in the sides and bottom, and provided with a self-closing, tightly fitted cover.

2.4.1.10. Receptacles as described in Article 2.4.1.9. shall not be placed closer than 1 m on the sides and top to combustible materials, and where placed on a combustible floor surface shall be equipped with a flanged bottom or legs not less than 50 mm in height.

Subsection 2.4.2. Exposure to Combustible Materials

2.4.2.1. Combustible materials shall not be stored on a roof or adjacent to any **building** so as to create a fire hazard to the **building** or its occupants.

Subsection 2.4.3. Smoking

2.4.3.1. Where conditions are such as to make smoking a fire or explosion hazard, smoking shall be permitted only in specifically **approved** smoking areas.

Smoking prohibited

2.4.3.2. The areas where smoking is not permitted shall be identified by signs having black lettering 50 mm high with a 12.5 mm stroke on a yellow background, except that symbols of 150 mm x 150 mm may be used in lieu of lettering, or covered by instructions established under a fire safety plan and available to all persons.

Signs

Subsection 2.4.4. Open Flames

2.4.4.1.(1) Open flames shall not be permitted in **buildings** used for public assemblies in such quantities and in such a manner as to create a fire hazard unless **approved**.

Open flames prohibited

(2) Open flames shall not be permitted in dining areas in Group 'B' Division 2 **occupancies**.

2.4.4.2.(1) Flaming meals or drinks shall not be served in Group 'B' Division 2 **occupancies**.

(2) Flaming meals or drinks shall be ignited only at the location of serving in places of public assembly.

(3) A 1A: 5BC or higher rated portable extinguisher, conforming to the requirements of Part 6, shall be available where refueling of **appliances** and containers used for flaming meals or drinks takes place.

Portable
extinguishers

(4) Refueling of **appliances** shall not be carried out in the dining area.

2.4.4.3. A 1A: 5BC or higher rated portable extinguisher, conforming to the requirements of Part 6, shall be located on the serving cart or table where flaming meals and drinks are being served.

Portable
extinguishers
for flaming
meals
and drinks

2.4.4.4. Devices having open flames shall be securely supported in noncombustible holders and located or protected so as to prevent accidental contact of the flame with combustible materials.

Devices
having open
flames

Subsection 2.4.5. Use of Hazardous Materials

2.4.5.1. **Flammable liquids** shall not be used for cleaning purposes except where the cleaning is an essential part of a process.

2.4.5.2. Flammable gases shall not be used to inflate balloons.

Subsection 2.4.6. Electrical Hazards

2.4.6.1. Temporary electrical wiring shall not be used where it presents a fire hazard.

Electrical
wiring

SECTION 2.5 FIRE DEPARTMENT ACCESS TO BUILDINGS

Subsection 2.5.1. General

2.5.1.1.(1) This Section applies to fire access routes

Application

- (a) required to be constructed under the **Building Code**,
- (b) provided under a municipal by-law, or
- (c) designated under Paragraph 45 of Section 210 of the **Municipal Act**.

2.5.1.2.(1) Fire access routes and access panels or windows provided to facilitate access for fire fighting operations shall not be obstructed by vehicles, gates, fences, building materials, vegetation, signs or any other form of obstruction.

Maintaining
access free of
obstructions

(2) **Fire department** sprinkler and standpipe connections shall be clearly identified and maintained free of obstructions for use at all times.

Fire
department
connections

2.5.1.3. Fire access routes shall be maintained so as to be immediately ready for use at all times by **fire department** vehicles.

Maintenance

2.5.1.4. **Approved** signs shall be displayed to indicate fire access routes.

Signs

SECTION 2.6 SERVICE EQUIPMENT

Subsection 2.6.1. Heating, Ventilating, and Air-Conditioning

2.6.1.1. Defective **appliances** in a **building** shall be removed, repaired or replaced when the defective **appliances** create a hazardous condition.

Defective equipment

2.6.1.2. **Chimneys** and **chimney liners** that constitute a fire hazard shall be repaired or replaced in accordance with the **Building Code**.

2.6.1.3. Coal and wood bins shall be located at least 1.2 m from the **appliance** served by the bins.

Coal and wood bins

2.6.1.4. Hoods, filters and ducts that are subject to accumulations of combustible deposits shall be **checked** weekly and be cleaned when the deposits create a fire hazard.

Inspection and maintenance

2.6.1.5. **Chimneys**, **flues** and **flue pipes** shall be **inspected** annually and cleaned as often as necessary to keep them free from accumulations of combustible deposits.

2.6.1.6. Where a **flue pipe** is removed, the **flue pipe** hole shall be closed with a tight fitting noncombustible cover compatible with the **chimney flue** construction.

Covers for flue pipe holes

2.6.1.7. **Chimneys**, **flue pipes** and **breechings** shall be maintained in a safe operating condition.

2.6.1.8.(1) Disconnect switches for mechanical air-conditioning and ventilating systems shall be **inspected** annually to establish that the system can be shut down.

Disconnect switches

(2) Sentence (1) does not apply to **dwelling units**.

2.6.1.9. Ventilation shafts shall be used only for ventilating purposes.

Ventilation shafts

2.6.1.10. Work on ducts involving the use of heat producing devices for cutting, welding or soldering shall not be undertaken before the system has been shut down, the duct cleaned of any accumulations of combustible deposits and any combustible lining and covering material that could be ignited by such work has been removed.

Precautions during repairs or renovations

2.6.1.11. Precautions shall be taken, where necessary, to ensure that there is no damage to fuel supply piping or equipment that would result in fuel leakage or a fire hazard during renovations or excavations.

2.6.1.12.(1) Commercial cooking equipment shall be provided with exhaust and fire protection systems in conformance with NFPA 96-1984, "Installation of Equipment for the Removal of Smoke and Grease-Laden Vapors from Commercial Cooking Equipment".

Commercial
cooking
equipment

(2) Notwithstanding Sentence (1), existing exhaust or fire protection systems may be **approved**.

2.6.1.13. Commercial cooking equipment exhaust and fire protection systems shall be maintained in conformance with NFPA 96-1984, "Installation of Equipment for the Removal of Smoke and Grease-Laden Vapors from Commercial Cooking Equipment".

2.6.1.14.(1) Instructions for manually operating the fire extinguishing systems required under Article 2.6.1.12. shall be posted conspicuously in the kitchen areas.

(2) The instructions required in Sentence (1) shall be included in the fire safety plan where such a plan is required.

Subsection 2.6.2. Solid Fuel Burning Appliances

2.6.2.1. The installation of solid fuel burning **appliances** and equipment shall be in accordance with CAN3-B365-M84, "Installation Code for Solid Fuel Burning Appliances and Equipment".

Solid fuel
burning
appliances

2.6.2.2. Solid fuel burning **appliances** and equipment shall be maintained in accordance with CAN3-B365-M84, "Installation Code for Solid Fuel Burning Appliances and Equipment".

Subsection 2.6.3. Incinerators

2.6.3.1. The installation and alteration of indoor incinerators shall conform to the requirements of the **Building Code**.

Indoor
incinerators

2.6.3.2. The design, construction, installation, alteration and maintenance of outdoor incinerators shall conform to NFPA 82-1983, "Incinerators, Waste and Linen Handling Systems and Equipment", except that the **flue** venting an incinerator shall not also serve as the chute conveying waste material to the incinerator.

Outdoor
incinerators

2.6.3.3.(1) Spark arresters shall be cleaned annually or more frequently where accumulations of debris will adversely affect operations.

Spark
arresters

(2) Burnt-out spark arresters shall be repaired or replaced.

2.6.3.4. Open air burning shall not be permitted unless **approved**, or unless such burning consists of a small, confined fire, supervised at all times, and used to cook food on a grill or a barbecue.

Open air
burning

Subsection 2.6.4.

Transformer Vaults

2.6.4.1. Transformer vaults shall not be used for storage purposes.

2.6.4.2. Transformer vaults shall be kept locked so that unauthorized persons will not have access to them.

SECTION 2.7

SAFETY TO LIFE

Subsection 2.7.1.

Means of Egress

2.7.1.1. Individual work areas in Group 'D' and 'E' **occupancies** shall be located adjacent to aisles described in Articles 2.7.1.2. and 2.7.1.3.

Group 'D', 'E'
occupancies

2.7.1.2. Where 2 **exits** are required from **floor areas** in **buildings** of Group 'D' and 'E' **occupancy** that are not subdivided into rooms or suites of rooms served by corridors giving **access to exits**, at least 1 aisle with access to the 2 **exits** and having a minimum clear width of 1100 mm shall be provided to serve the individual work areas where necessary.

2.7.1.3. Subsidiary aisles with a minimum clear width of 914 mm may branch off for a distance not exceeding 7.5 m from the aisles described in Article 2.7.1.2.

2.7.1.4. The number of people permitted in an **assembly occupancy** shall not exceed the **occupant load** as posted in conformance with Article 2.7.1.5.

Places of
assembly

2.7.1.5. When the **occupant load** as determined by the **Building Code** and limited by units of **exit** width available is more than 60 persons, the **occupant load** shall be posted in a conspicuous location near the main entrance.

Occupant
load

2.7.1.6.(1) Nonfixed row seating in an **assembly occupancy** shall be arranged as described in Sentences (2) to (6).

Nonfixed
seating

(2) Aisles leading to **exits** shall be provided so that there are not more than 7 seats between any seat and the nearest aisle.

(3) The minimum clear width of aisles shall be at least 1100 mm, but shall not be less than the required **exit** widths as determined by the **Building Code**.

(4) Aisles required in Sentence (3) may be reduced in width to 750 mm when serving 60 seats or less, or 914 mm when serving seats on one side only.

(5) Aisles shall terminate in a cross aisle, foyer or **exit** and the width of such cross aisle, foyer or **exit** shall be at least the required width of the widest aisle plus 50 per cent of the total required width of the remaining aisles that it serves.

(6) The distance of travel to an **exit** door by an aisle shall not be greater than 30 m.

(7) Where the **occupant load** exceeds 200 persons in an **assembly occupancy** containing nonfixed seating, the seats shall be fastened in units of not less than 4 nor more than 12 seats, or each end seat abutting an aisle shall be securely fastened to the floor.

(8) Seats may be arranged in a manner that does not meet the requirements of Sentence (7) where the aisle widths are increased by 50 per cent above the requirements set out in Sentences (2) to (6), and where the maximum **occupant load** is based on one person per 1.2 m² of total **floor area**.

2.7.1.7.(1) **Access to exits**, including corridors used by the public and **exits**, including outside areas, shall be maintained free of obstructions.

Obstructions

(2) Lighting provided for illumination in **exits** and **access to exits**, including corridors used by the public, shall be maintained.

Lighting

2.7.1.8.(1) Exterior passageways, exterior stairways and fire escapes in occupied **buildings** shall be maintained in good repair and kept free of snow and ice accumulations.

Fire escapes

(2) Where equipment is provided to melt snow or ice on exterior passageways, exterior stairways and fire escapes in an occupied **building**, the equipment shall be maintained in working order or alternative measures shall be taken as specified in Sentence (1).

2.7.1.9.(1) Except as provided in Sentences (2) and (3), turnstiles, checkout counters, railings or barriers shall not obstruct the **exits** or **access to exits** from any room, **floor area** or **storey**.

Turnstiles and checkout counters

(2) Checkout counters or control posts in retail outlets may be used within **access to exits** where an unobstructed width of 450 mm is maintained up to a height of 914 mm.

(3) Where the checkout counters or control posts exceed 914 mm in height, a clear width of 550 mm shall be retained.

(4) The locations described in Sentences (2) and (3) shall be deemed to provide 1 unit of **exit** width and the total number of units of **exit** width required must be provided from each area.

(5) Wheeled carts shall be stored after use so as not to obstruct **access to exits** in retail outlets where wheeled carts are used by customers.

Subsection 2.7.2.

Exit Door Hardware

2.7.2.1.(1) **Exit** doors shall be equipped with **approved** hardware that will release and allow the door to swing open when a force of not more than 90 N is applied to the hardware in the direction of **exit** travel, where required by the **Building Code**.

Panic
hardware

(2) Every **exit** door shall open in the direction of **exit** travel when the latch is released under a force of not more than 90 N applied at the knob or other latch releasing device.

(3) Sentence (2) does not apply where the existing **exit** doors are **approved** and do not endanger life safety or alternative measures to the requirements set out in Sentence (2) are taken to provide life safety.

2.7.2.2. Devices on any required **exit** door shall be such that the door may be readily opened from the inside without the use of keys and shall be designed to be opened in a conventional manner without the use of unusual devices or requiring a specialized knowledge of the door opening device, except that this requirement shall not apply to **exits** serving persons under legal restraint.

Subsection 2.7.3.

Exit Lighting and Emergency Lighting

2.7.3.1. Required **exit** signs shall be clearly visible and maintained in a clean and legible condition.

Exit
signs

2.7.3.2. Internally illuminated **exit** lights shall be kept clearly illuminated at all times, when the **building** is occupied.

2.7.3.3.(1) Pilot lights on emergency lighting unit equipment shall be **checked** monthly for operation.

Emergency
lighting

(2) Emergency lighting unit equipment shall be **inspected** monthly to ensure that

- (a) the terminal connections are clean, free of corrosion and lubricated when necessary,
- (b) the terminal clamps are clean and tight as per manufacturer's specifications,
- (c) the electrolyte level and specific gravity are maintained as per manufacturer's specifications, and
- (d) the battery surface is kept clean and dry.

(3) Emergency lighting unit equipment shall be **tested**

- (a) monthly to ensure that the emergency lights will function upon failure of the primary power supply, and
- (b) annually to ensure that the unit will provide emergency lighting for a duration equal to the design criteria under simulated power failure conditions.

(4) After completion of the **test** required in Clause (3)(b), the charging conditions for voltage and current and the recovery period shall be **tested** to ensure that the charging system is in accordance with the manufacturer's specifications.

SECTION 2.8 EMERGENCY PLANNING

Subsection 2.8.1. General

2.8.1.1.(1) The requirements of this Section shall apply to **buildings** containing a Application

- (a) Group 'A' or 'B' **occupancy**,
- (b) Group 'C' **occupancy** where the **occupant load** exceeds 10,
- (c) Group 'D' **occupancy** where the **occupant load** exceeds 300,
- (d) Group 'E' **occupancy** where the **occupant load** exceeds 300,
- (e) Group 'F' Division 1 **occupancy** where the **occupant load** exceeds 25,
- (f) Group 'F' Division 2 **occupancy** where the **occupant load** exceeds 100, or
- (g) Group 'F' Division 3 **occupancy** where the **occupant load** exceeds 300.

(2) Notwithstanding Sentence (1), the requirements of this Section shall apply to **buildings**

- (a) containing 4 **storeys** or more, including **storeys** below **grade**,
- (b) regulated by Section 9.3 Boarding, Lodging and Rooming Houses, or
- (c) used as a convalescent home or children's custodial home providing sleeping accommodation for more than 3 persons.

(3) Notwithstanding Sentence (1), the requirements of this Section apply to recreational camps regulated under the **Health Protection and Promotion Act**.

2.8.1.2.(1) **Supervisory staff** shall be instructed in the fire emergency procedures as described in the fire safety plan before they are given any responsibility for fire safety.

Instructions
in emergency
procedures

(2) **Supervisory staff** shall be available on notification of a fire emergency to fulfil their obligation as described in the fire safety plan.

(3) It is not necessary that **supervisory staff** be in the **building** on a continual basis.

Subsection 2.8.2.

Fire Safety Plan

2.8.2.1.(1) A fire safety plan shall include

Measures in
a fire safety
plan

- (a) the emergency procedures to be used in case of fire including sounding the fire alarm, notifying the **fire department**, provisions for access for fire fighting, instructing occupants on procedures to be followed when the fire alarm sounds, evacuating endangered occupants and confining, controlling and extinguishing the fire,
- (b) the appointment and organization of designated **supervisory staff** to carry out fire safety duties,
- (c) the instruction of **supervisory staff** and other occupants so that they are aware of their responsibilities for fire safety,
- (d) the holding of fire drills including the emergency procedures appropriate to the **building**,
- (e) the control of fire hazards in the **building**,
- (f) the maintenance of **building** facilities provided for the safety of occupants, and
- (g) the provisions of alternative measures for safety of occupants during any shutdown of fire protection equipment and systems or part thereof

and shall be prepared, **approved** and implemented in **buildings** regulated by Article 2.8.1.1.

2.8.2.2. There shall be sufficient **supervisory staff** available in **institutional occupancies** to carry out the duties as required in the fire safety plan.

Institutional
occupancies

2.8.2.3. Schematic diagrams shall be prepared, **approved** and maintained showing the type, location and operation of **building** fire emergency systems.

Schematic
diagrams

2.8.2.4.(1) The fire safety plan in **buildings** within the scope of Subsection 3.2.6. of the **Building Code** shall, in addition to the requirements of Sentence 2.8.2.1.(1), include

High
buildings

- (a) the instruction of **supervisory staff** on the use of the voice communication system,
- (b) the procedures for use of elevators and for evacuation of persons in need of assistance,
- (c) the action to be taken by **supervisory staff** in initiating any smoke control or other fire emergency systems installed in a **building** in the event of fire until the **fire department** arrives, and
- (d) the procedures established to facilitate **fire department** access to the **building** and fire location within the **building**.

2.8.2.5.(1) A record including schematic diagrams of the fire emergency systems installed in **buildings** within the scope of Subsection 3.2.6. of the **Building Code** shall be maintained at the central alarm and control facility.

(2) The records required in Sentence (1) shall include instructions for the **supervisory staff** and **fire department** for the operation of the systems.

2.8.2.6. A copy of the fire emergency procedures and other duties for **supervisory staff** as laid down in the fire safety plan shall be given to all **supervisory staff**.

2.8.2.7. At least one copy of the fire emergency procedures shall be prominently posted and maintained on each **floor area**.

Posting of
instructions

Subsection 2.8.3.

Fire Drills

2.8.3.1.(1) The procedure for conducting fire drills described in Clause 2.8.2.1.(1)(d) shall be included in the fire safety plan, taking into consideration

Procedures

- (a) the **building occupancy** and its fire hazards,
- (b) the safety features provided in the **building**,
- (c) the desirable degree of participation of occupants other than **supervisory staff**,
- (d) the number and degree of experience of participating **supervisory staff**, and
- (e) the **testing** and operation of the emergency systems installed in **buildings** within the scope of Subsection 3.2.6. of the **Building Code**.

(2) The fire drill procedures required in Sentence (1) shall be prepared in consultation with the **Chief Fire Official**.

2.8.3.2.(1) Fire drills as described in Sentence 2.8.3.1.(1) shall be held once during each 12-month period for the **supervisory staff**, except that

Frequency

- (a) in day-care centres and Group 'B' **occupancies**, fire drills shall be held monthly,
- (b) in schools attended by children, total evacuation fire drills shall be held 3 times in each of the fall and spring school terms, and
- (c) in **buildings** within the scope of Subsection 3.2.6. of the **Building Code**, fire drills shall be held every 3 months.

SECTION 2.9 TENTS AND AIR-SUPPORTED STRUCTURES

Subsection 2.9.1. General

2.9.1.1. **Tents and air-supported structures** shall be in conformance with the **Building Code**.

2.9.1.2. This Section does not apply to **tents** that are used for camping, personal or other non-commercial uses, each having an area of 30 m² or less.

Subsection 2.9.2. Materials

2.9.2.1. When required by the **Chief Fire Official**, **tests** shall be carried out on samples of materials taken in the field in conformance with NFPA 701-1977, "Standard Methods of Fire Tests for Flame Resistant Textiles and Films".

Tests

Subsection 2.9.3. Fire Hazards and Control

2.9.3.1. Hay, straw, shavings or similar combustible materials other than that necessary for the daily feeding and care of animals shall not be permitted within a **tent or air-supported structure** used for an **assembly occupancy**, except that sawdust and shavings may be used if kept damp.

Combustible materials

2.9.3.2. Smoking and open flame devices shall not be permitted in a **tent or air-supported structure** unless provisions have been made for such activities under the fire safety plan.

Smoking and open flames

2.9.3.3. Where a fire alarm system is not provided in conformance with Subsection 3.2.4. of the **Building Code**, a person shall be employed for firewatch duty in **tents and air-supported structures** occupied by the public.

Firewatch

2.9.3.4.(1) A person employed for firewatch duty in accordance with Article 2.9.3.3. shall

- (a) be familiarized with all fire safety features, including the fire safety plan as provided in conformance with Section 2.8 and the condition of **exits**, and
- (b) patrol the area to ensure that the **means of egress** are kept clear and that regulations are enforced.

2.9.3.5. When the conditions of Article 2.9.3.3. apply, an **approved** communications system shall be provided.

Communications systems

SECTION 2.10 DAY-CARE CENTRES

Subsection 2.10.1. Combustible Materials

2.10.1.1. Combustible artwork and teaching materials that are attached to walls shall not exceed 20 per cent of the area of the walls.

2.10.1.2. Waste receptacles shall be made of noncombustible materials.

Waste
receptacles

2.10.1.3. **Flammable and combustible liquids** shall be stored in an acceptable location and in areas inaccessible to children.

Flammable and
combustible
liquids

2.10.1.4. Where handicapped children are cared for, sufficient staff shall be present at all times during the period the children are in the centre to escort them to safety in the event of a fire emergency.

SECTION 2.11 INSULATION AND RE-INSULATION

Subsection 2.11.1. General

2.11.1.1. Insulation and re-insulation shall be carried out in accordance with the **Building Code** with respect to fire protection matters.

2.11.1.2. Unless otherwise **approved**, existing combustible insulation shall be protected as prescribed in the **Building Code**.

2.11.1.3. Insulation shall not be placed in **building** roof-ceiling or floor-ceiling assemblies as described in Part 3 of the **Building Code** where the assemblies are required to a **fire-resistance rating** unless it can be shown that the insulation does not affect the **fire-resistance rating** of the assemblies.

SECTION 2.12 COVERED MALLS

Subsection 2.12.1. General

2.12.1.1.(1) Covered malls designed for ornamental and pedestrian oriented uses only shall not be used for merchandising or public activities, except that such activities may be permitted on a temporary basis where they do not create a fire hazard.

(2) Where a covered mall described in Sentence (1) is used for merchandising or public activities, the fire safety plan described in Section 2.8 shall include additional provisions to offset any hazard that may be created by such activities.

2.12.1.2. Merchandising or public activities in a **sprinklered** covered mall described in Article 2.12.1.1. shall not be permitted where such activities will exceed the performance criteria for which the sprinkler system was designed.

2.12.1.3.(1) When a covered mall having a width of 9 m or more has been provided for the purpose of considering each portion of the **building** separated by the mall as a separate **building**, no merchandising or public activities or both shall be carried on within the 9 m width.

(2) Notwithstanding Sentence (1), merchandising or public activities or both may be carried on within the 9 m width where they are **approved** and they do not endanger life safety or alternative measures are taken to provide life safety.

2.12.1.4. **Access to exits** within a covered mall shall be provided and maintained in conformance with Subsection 2.7.1.

2.12.1.5. Where a covered mall is used for merchandising or public activities, the activities shall be arranged so that access to fire protection equipment, including sprinkler control valves, fire hose stations, portable extinguishers and fire alarm stations is not restricted.

2.12.1.6. Decorative materials used for merchandising or public activities in a covered mall shall conform to the **flame resistance** and flameproofing requirements in Subsection 2.3.2.

2.12.1.7. Where a covered mall is used for the display of fueled equipment, batteries shall be disconnected and caps for fuel tanks shall be locked or secured against tampering.

SECTION 3.1 GENERAL

Subsection 3.1.1. Scope

3.1.1.1. This Part provides for property protection by requiring that certain fire protection measures be applied in the case of specific **occupancies** where the use, storage and handling of hazardous materials or the stockpiling of combustible materials create a potentially serious fire hazard.

Scope

SECTION 3.2 WOOD PRODUCTS

Subsection 3.2.1. Woodworking Plants

3.2.1.1. The outdoor storage of lumber shall conform to Subsection 3.2.2.

Lumber
storage
outdoors

3.2.1.2. Every machine that produces wood dust, particles or shavings shall be provided with a blower and exhaust system installed in conformance with NFPA 91-1983, "Installation of Blower and Exhaust Systems for Dust, Stock and Vapor Removal or Conveying".

Exhaust
systems

3.2.1.3. Operations that generate sparks or combustible vapours shall not be served by woodworking exhaust systems.

3.2.1.4. Loose shavings and sawdust shall be swept up at frequent intervals and deposited in receptacles described in Articles 2.4.1.9. and 2.4.1.10.

Sawdust
disposal

3.2.1.5. A portable extinguisher of 2A rating or a garden-type hose station shall be provided within 7.5 m of any machine producing wood dust, particles or shavings.

Portable
extinguishers

3.2.1.6. Spray finishing operations using **flammable** or **combustible liquids** in woodworking plants shall conform to Part 5.

3.2.1.7. RESERVED

Subsection 3.2.2. Outdoor Storage of Lumber and Forest Products

3.2.2.1. This Subsection does not apply where the existing situation is **approved** and does not endanger life safety, or alternative measures to the requirements set out in this Subsection are taken to provide life safety.

Deviations
from
requirements

3.2.2.2.(1) Except as permitted in Sentence (2) and Article 3.2.2.3., storage sites for lumber and other forest products shall be level, solid ground, paved or surfaced with noncombustible material.

Surface of
ground

(2) Soft storage beds may be used for logs where embedment of stones or cinders may cause damage to cutting knives.

3.2.2.3.(1) Forest products shall not be piled on refuse filled or sawdust filled land except where the site is covered with a layer of compacted earth to a minimum depth of 150 mm.

Surface
under
piling

(2) Peat and humus are not acceptable materials for compacted earth cover in Sentence (1).

3.2.2.4.(1) Fire exposure to the yard areas from the mill operations and other structures shall be limited by providing clear space.

Clearance
for yard
storage areas

(2) The width of clear space shall be based upon the severity of exposure that will vary with the area, height, **occupancy**, construction and protection of the exposing structure and the type of piling and height of adjacent lumber piles.

(3) To provide for fire fighting operations, the clear space permanently available shall not be less than 4.5 m.

3.2.2.5.(1) Stickered lumber piles in lumber storage yards shall be located at least 15 m from property lines and buildings.

Clearance for
stickered
lumber piles

(2) Large size timbers and flat-piled stock may be stored or piled on the perimeter of the yard.

3.2.2.6. Storage yards shall be maintained free of combustible ground vegetation, including grass and weeds, for 4.5 m from the stored material and 30 m from brush and forested areas.

Clearance
from
vegetation

3.2.2.7. Sawdust, chips and other waste material shall not be allowed to accumulate in piling areas in lumber yards.

Wood waste
disposal

3.2.2.8. Lumber and timber treated with **combustible liquids** shall be stored in piles that are separated from other stored material so that the distance between piles is at least twice the height of the treated pile, but not less than 4.5 m.

Separation of
treated lumber
piles

3.2.2.9. Stickered lumber piles, and piles of lumber and timber treated with **combustible liquids** shall not be stored beneath electrical power lines having a voltage in excess of 750 volts or that supply power to fire emergency systems.

Storage
beneath power
lines

3.2.2.10. Pile heights for stickered lumber piles shall not exceed 6 m.

Pile heights

3.2.2.11. Pile heights for randomly stacked or unranked piles shall not exceed 6 m unless special extinguishing equipment, such as portable turrets, deluge sets and monitor towers, is installed.

3.2.2.12.(1) Unless otherwise **approved**, each lumber yard shall be provided with at least 2 fire access routes in conformance with Sentence (2).

Fire
department
access

(2) The fire access routes required in Sentence (1) shall

- (a) have a clear width of at least 6 m, unless it can be shown that lesser widths are satisfactory,

- (b) be designed to support the expected loads imposed by fire fighting equipment and be surfaced with concrete, asphalt or other material designed to permit accessibility under all climatic conditions,
- (c) be connected with a public thoroughfare, and
- (d) be located as remotely as is possible in the circumstances from each other.

3.2.2.13.(1) Where storage areas are fenced or otherwise enclosed, gateways having a clear width of 3.5 m shall be provided to permit entry of **fire department** vehicles.

(2) Gateways shall be kept clear of obstructions so that gates may be opened fully at all times.

3.2.2.14. Groups of lumber piles shall be arranged with a maximum width of 15 m and a maximum length of 45 m, with **fire department** access routes surrounding each group of piles.

3.2.2.15. No vehicles shall be permitted to be parked overnight or equipment stacked in a **fire department** access route that is less than 7.5 m in width unless the parking is on one side only and there is at least 4.5 m of clear width for **fire department** vehicles.

3.2.2.16. RESERVED

3.2.2.17. Shavings, sawdust and refuse materials shall be burned only in **boilers** or **furnaces**, or in incinerators or refuse burners conforming to Subsection 2.6.3.

Burning of
wood waste
materials

3.2.2.18. Refuse burners or incinerators required in Article 3.2.2.17, shall be located at least 15 m from **buildings** or piles of logs or lumber or property lines.

3.2.2.19. Where the size and design of the burner or spark arresting screen, the prevailing winds or the location and arrangement of yard storage creates a fire hazard by conforming to Article 3.2.2.18., an **approved** increase in clear space referred to in Article 3.2.2.18. shall be provided to alleviate the fire hazard.

3.2.2.20. A refuse bin conforming to Articles 2.4.1.9. and 2.4.1.10. shall be provided at each **boiler, furnace, incinerator** and refuse burner referred to in Article 3.2.2.17.

3.2.2.21. Salamanders, braziers or other open flames shall not be used in storage yards.

3.2.2.22. Smoking shall be prohibited in lumber yards, except as permitted in Subsection 2.4.3.

Smoking
prohibited

3.2.2.23. The telephone number of the **fire department** and location of the nearest telephones shall be posted conspicuously in working locations in the open yard and in each **building**.

3.2.2.24.(1) Outdoor lumber storage shall have fire protection provisions consisting of

Fire
extinguishing
provisions

- (a) 200 L vessels with lids, having an opening of 457 mm least dimensions, located so that no person will have to travel more than 25 m from any part of the storage yard to reach a vessel, and

- (b) three 12 L standard fire pails at each vessel.

(2) The water stored in the vessels and pump tanks shall be protected from freezing.

(3) The vessels, pails and pump tanks shall be painted red with the word "FIRE" in black painted thereon.

(4) Portable extinguishers having a 2A or higher rating conforming to the requirements of Part 6 may be provided in lieu of the requirements of Sentence (1).

3.2.2.25. Portable extinguishers shall be provided in conformance with Part 6 in each **building** located in a lumber yard.

3.2.2.26. The water supply available shall be adequate for hose streams and monitor towers, based on the provision of fire protection acceptable to the **Chief Fire Official**.

Hydrant
systems and
water supply

3.2.2.27. Where fire protection cannot be provided by municipal or private street hydrants or mobile pumping equipment to confine and control a fire within a lumber yard, the hydrant system shall be extended into the yard area so that all parts of lumber yards can be reached by using not more than 60 m of hose.

Subsection 3.2.3. Outdoor Storage of Wood Chips

3.2.3.1. This Subsection does not apply where the existing situation is **approved** and does not endanger life safety, or alternative measures to the requirements set out in this Subsection are taken to provide life safety.

Deviations
from
requirements

3.2.3.2. The storage site shall be well drained and be level, solid ground or paved with asphalt, concrete or other hard surface material.

Surface of
ground

3.2.3.3. The ground surface between piles shall be kept free of combustible materials.

3.2.3.4.(1) Weeds, grass and similar vegetation shall be removed from the yard.

Vegetation
removal

(2) Portable open-flame weed burners shall not be used in chip storage yards.

Burning of
weeds

3.2.3.5. Piles shall not exceed 18 m in height, 90 m in width and 150 m in length unless temporary water pipes with hose connections are laid on the top surface of the pile.

Pile
dimensions

3.2.3.6.(1) Space shall be maintained between chip piles and exposing structures, yard equipment or stock equal to

Fire
department
access

- (a) twice the pile height for combustible stock or buildings, or
- (b) the pile height for noncombustible buildings and equipment.

(2) Notwithstanding Sentence (1), space between chip piles and exposing structures, yard equipment or stock shall not be less than 9 m.

3.2.3.7. Where storage areas are fenced or otherwise enclosed, gates 3.5 m in width shall be provided to permit entry of **fire department** vehicles.

3.2.3.8. Access walkways 1.8 m wide shall be provided to the top of piles so that hose streams may be directed on any part of the piles.

3.2.3.9. Piles exceeding 150 m in length shall be provided with 2 access walkways on opposite sides of the pile and shall be surrounded by **fire department** access routes 9 m wide.

3.2.3.10. Smoking shall be prohibited in chip pile areas.

Smoking
prohibited

3.2.3.11. Portable extinguishers for **Class A fires** shall be provided on vehicles operating on chip piles in addition to the units for **Class B fires** normally required for the vehicles.

Fire
extinguishing
provisions

3.2.3.12.(1) Hose houses or cabinets shall be provided around the perimeter of chip piles at intervals not exceeding 120 m.

(2) One 75 m length of 65 mm hose and 2 portable extinguishers having a 2A or higher rating and conforming to Part 6 shall be installed in each hose house or cabinet.

(3) Each hose required in Sentence (2) shall be connected to a water supply capable of supplying 1140 L/min of water to it at a pressure that will allow the hose stream to reach the top of the chip pile.

3.2.3.13. Portable extinguishers in conformance with Part 6 shall be provided in transfer houses.

SECTION 3.3 STORAGE

Subsection 3.3.1. Indoor Tire Storage

3.3.1.1. This Subsection applies to buildings used for the storage of tires in which the bulk volume of tires stored in one **fire compartment** exceeds 425 m³.

Application

3.3.1.2. A single pile of tires in a tire storage location shall occupy an area not greater than 500 m² with a maximum length of 30 m.

Tire pile
dimensions

3.3.1.3.(1) The maximum piling height of tires shall not exceed the height used for the design of the fixed extinguishing system installed as required in Article 3.3.1.8.

(2) The maximum piling height allowed in Sentence (1) shall be posted in conspicuous locations.

3.3.1.4. A clearance of at least 914 mm shall be maintained between the tops of piles and sprinkler head deflectors.

Pile
clearance

3.3.1.5. Aisles between individual piles shall be 1.8 m wide.

3.3.1.6. A clearance of 600 mm shall be maintained between piles of tires and columns and enclosing walls.

3.3.1.7. A tire storage location shall be classified as a Group 'F' Division 2 occupancy.

3.3.1.8.(1) Where the floor area of a tire storage location exceeds 250 m², the floor area shall be provided with an approved automatic fire extinguishing system installed in conformance with NFPA 231D-1980, "Storage of Rubber Tires".

Warehouse
fire
extinguishing
systems

(2) The design of the automatic fire extinguishing system required in Sentence (1) shall be based on the maximum piling height available.

3.3.1.9. A standpipe and hose system shall be installed in conformance with NFPA 231D-1980, "Storage of Rubber Tires".

3.3.1.10. Portable extinguishers conforming to Part 6 shall be provided in tire storage locations so that there is one extinguisher with a 2A:10BC or higher rating, for every 250 m² of floor area.

Portable
extinguishers

Subsection 3.3.2. Indoor General Storage

3.3.2.1. This Subsection applies to the indoor general storage of combustible or noncombustible solids with combustible packaging or storage aids to a height of 6.4 m, except that this Subsection does not apply to the bulk storage of unpackaged grain, coal or similar commodities, or special hazard commodities covered elsewhere in this Code.

Application

3.3.2.2.(1) The area of individual storage piles shall not exceed 500 m² in buildings that are not sprinklered.

Storage
pile
dimensions

(2) The area of individual storage piles shall not exceed 1000 m² in sprinklered buildings.

(3) Heights of storage piles in buildings that are not sprinklered shall not exceed 4.5 m.

3.3.2.3.(1) The clearance between sprinkler head deflectors and the tops of piles shall not be less than 457 mm.

Pile
clearance

(2) Where the storage piles are above the lower chords of floor or roof structural framing members, a horizontal clear space of 300 mm shall be maintained between the storage and the structural members.

3.3.2.4. At least one main aisle having a width equal to 1/2 the height of the highest adjacent pile and extending the length of the structure shall be provided but in no case less than 2.4 m.

Fire
access
aisles

3.3.2.5. Aisles separating piles described in Article 3.3.2.2. shall be 2.4 m wide.

3.3.2.6. Access aisles 1.2 m wide shall be provided to the sides of the **building**, to **exits**, to **fire department** access panels and to fire protection equipment, including sprinkler control valves, fire hose stations, portable extinguishers and fire alarm stations.

3.3.2.7. Wall clearances of 600 mm shall be maintained where stored commodities may swell or expand with the absorption of water.

Pile
clearance
at walls

3.3.2.8. Palletized storage shall be arranged so that unobstructed horizontal channels formed by the top and bottom of pallets shall not exceed 15 m.

Palletized
storage
arrangements

3.3.2.9. Except as permitted in Article 3.3.2.10., pallets and dunnage not in use shall be stored outdoors and be located so as to avoid an exposure hazard.

3.3.2.10.(1) Indoor storage of combustible pallets and dunnage may be permitted in **buildings** that are not **sprinklered** provided the area of storage does not exceed 100 m², the pile size does not exceed 1.2 m in height and 7.5 m in width, and the separating aisles are 2.4 m wide.

Pallet
storage

(2) Combustible pallets shall not be stored indoors to a height greater than 1.2 m except in areas **sprinklered** in conformance with Sentence (3).

(3) **Buildings** or compartments used for the storage of pallets shall be classified as Group 'F' Division 2 and shall be **sprinklered** in conformance with NFPA 231-1979, "Standard for Indoor General Storage".

SECTION 3.4 INDUSTRIAL TRUCKS

Subsection 3.4.1. General

3.4.1.1. Industrial trucks, including fork lifts, tractors and motorized hand trucks shall be permitted only in those areas for which they are **approved**.

Subsection 3.4.2. Fuel-Fired Industrial Trucks

3.4.2.1. Fuel-fired industrial trucks shall be stored in detached **buildings**, or in areas separated from the remainder of the storage **building** by a **fire separation** having a 1-hr **fire-resistance rating**, or in areas where the vehicles do not create a hazard to the storage area.

Truck
storage

3.4.2.2. Except as provided in Article 3.4.2.3., industrial trucks shall be refueled only at designated locations outside buildings.

Fueling
of trucks

3.4.2.3. Industrial trucks that are fueled by replaceable propane containers may have the containers exchanged indoors at a safe location at least 7.5 m from ignition sources, open pits and underground entrances.

3.4.2.4.(1) Where replaceable propane containers are exchanged, valves at the containers shall be closed.

(2) Where an **approved** automatic quick-closing coupling that closes in both directions when uncoupled is not provided, the engine shall be allowed to operate until the fuel in the system is consumed.

3.4.2.5. Propane cylinders shall be stored in conformance with Ontario Regulation 825/82 (**Propane Storage, Handling and Utilization Code**).

3.4.2.6. Each fuel-fired industrial truck shall be equipped with a 5BC or higher rated portable extinguisher conforming to the requirements of Part 6.

Portable
extinguishers

Subsection 3.4.3. Battery-Powered Industrial Trucks

3.4.3.1.(1) Charging installations for battery-powered industrial trucks shall be located at least 1.5 m from combustible materials.

Battery
charging
installations

(2) Battery charging installations serving more than 2 trucks shall be located in well ventilated areas.

3.4.3.2. Battery charging equipment shall not be located in **occupancies** where **combustible dusts, fibres**, vapours or gases are present in hazardous quantities.

3.4.3.3. Facilities shall be provided at battery charging installations for flushing and neutralizing spilled electrolyte and for protecting charging apparatus from mechanical damage.

3.4.3.4. Charging installations for battery-powered industrial trucks shall be equipped with a 10BC or higher rated portable extinguisher conforming to the requirements of Part 6.

Portable
extinguishers

3.4.3.5. Only trained and authorized personnel shall be permitted to change or charge batteries.

Personnel
restrictions

3.4.3.6. Precautions shall be taken to prevent open flames, sparks or electric arcs in battery charging areas.

Fire
precautions

**SECTION 3.5 SALVAGE SHOPS AND SALVAGE YARDS
INCLUDING AUTOMOBILE WRECKING YARDS**

Subsection 3.5.1. General

3.5.1.1. The roof of a **building** located in a salvage yard shall not be used for storage purposes. **Roof storage prohibited**

3.5.1.2. Fires shall not be permitted in a salvage yard except when used for heating purposes or for operating machinery or welding or cutting equipment. **Fires prohibited**

3.5.1.3. Gas tanks on vehicles to be salvaged shall be drained and ventilated prior to salvage operations.

3.5.1.4. Where storage areas are fenced or otherwise enclosed, gates having a clear width of 3.5 m shall be provided to permit the entry of **fire department** vehicles. **Fire access gates**

3.5.1.5. Except where all salvage and scrap material is noncombustible and free of combustibles, water barrels of 200 L capacity with three 12 L pails or portable extinguishers having a 2A or higher rating conforming to the requirements of Part 6 shall be provided, so that the maximum travel distance from any part of the yard to a barrel or extinguisher is 25 m. **Fire extinguishing provisions**

3.5.1.6. Portable extinguishers in conformance with Part 6 shall be provided in each **building** located in a salvage yard.

3.5.1.7. Except as required in Article 3.5.1.8., where a municipal hydrant system exists and is adjacent to the yard, the hydrant system shall be extended into the yard area so that all parts of the salvage yard can be reached by using not more than 60 m of hose. **Hydrant systems and water supply**

3.5.1.8. Article 3.5.1.7. does not apply where the fire protection that is provided by the municipal street hydrants and mobile pumping equipment is **approved** as being adequate in the circumstances.

3.5.1.9. Smoking shall be prohibited in salvage yards, except as permitted in Subsection 2.4.3. **Smoking prohibited**

3.5.1.10. The telephone number of the **fire department** and location of the nearest telephones shall be posted conspicuously in working locations in the open yard and in each **building**.

Subsection 3.5.2. Piling

3.5.2.1. Piles that include combustible salvage shall be 3 m from property lines, and not more than 3 m in height and 100 m² in area. **Pile clearance and dimensions**

3.5.2.2. Piles of salvage material shall be separated by a clear space of 3 m that is kept clear of grass and weeds.

3.5.2.3. Tanks or drums shall be stored in piles separate from piles of other materials.

Piles of
tanks or drums

3.5.2.4.(1) Piles or containers with metal shavings, turnings and dusts shall be stored in an area separate from other salvage materials and identified with warning signs.

Combustible
metals

(2) Warning signs required in Sentence (1) shall

- (a) be visible from all directions of approach, and
- (b) have the name of the metal and the words "COMBUSTIBLE METAL - DO NOT USE WATER" displayed in plain legible letters as described in Sentence (3).

(3) Lettering on warning signs shall be red or white letters on a contrasting background 114 mm high with 19 mm stroke.

SECTION 3.6 CLEANING AND DYEING PLANTS

Subsection 3.6.1. Flammable and Combustible Liquids

3.6.1.1. **Flammable liquids** shall not be used for any purpose in dry cleaning and dry dyeing plants.

Flammable
liquids
prohibited

3.6.1.2. **Combustible liquid** solvents used in dry cleaning and dry dyeing plants shall be of an **approved** type.

Use of
combustible
liquids

3.6.1.3. **Combustible liquids** shall be stored and handled in conformance with Part 4.

3.6.1.4. Where **combustible liquids** are used as cleaning solvents, foreign materials shall be removed from the pockets and exterior of clothing in the receiving room.

3.6.1.5. **Combustible liquids** shall not be located where the public has access and may use dry cleaning equipment.

3.6.1.6. **Combustible liquids** used as a local application to remove spots and stains shall not exceed 4.6 L and shall be dispensed from **listed** and labelled plunger-type safety cans.

Subsection 3.6.2. Ventilation

3.6.2.1. Where **combustible liquids** are used in a dry cleaning or dry dyeing process, ventilating equipment shall be provided to maintain an average solvent concentration of not more than 100 ppm within 3 m horizontally of a cleaning or dyeing unit and not more than 40 ppm elsewhere in the plant.

Maximum
solvent
concentrations
in atmosphere

3.6.2.2. Ventilation systems shall shut down automatically when manual fire alarm boxes or automatic fire detectors are operated.

Automatic shutdown of systems

3.6.2.3.(1) Where fire alarm systems are not installed, signs shall be posted to instruct employees to shut down the ventilation system in the event of fire.

Manual shutdown of systems

(2) Emergency switches for this purpose shall be provided and placed in a conspicuous location in exit ways.

3.6.2.4. Exhaust ventilation outlets shall be located at least 7.5 m from any opening in a building.

Exhaust outlet location

Subsection 3.6.3. Fire Hazards

3.6.3.1. Appliances with open flames or with exposed electrical heating elements shall not be placed within 6 m of dry cleaning or dry dyeing equipment in which combustible liquids are used unless such appliances are located in a separate enclosed room or cabinet which is independently ventilated.

Clearances of equipment from appliances

3.6.3.2. Combustion air for gas or oil-fired equipment shall be conveyed through ducts from a source outside the building when such equipment is located in a dry cleaning or dry dyeing room.

Ducts for combustion air

3.6.3.3.(1) Lint and refuse shall be removed from traps in dry cleaning and dry dyeing systems after each day's work.

Lint and refuse disposal

(2) The lint and refuse shall be disposed of in a receptacle conforming to Articles 2.4.1.9. and 2.4.1.10. or be removed from the premises.

SECTION 3.7 BOWLING ALLEYS

Subsection 3.7.1. Resurfacing

3.7.1.1. The Chief Fire Official shall be notified when bowling alleys are to be resurfaced.

Notification

3.7.1.2. Bowling alleys shall not be open to the public during the resurfacing of alleys.

Closure to public

3.7.1.3.(1) During the application of the floor finishes and for one hour after such application, the provisions of Sentences (2) to (4) apply.

(2) Mechanical exhaust systems, electric motors and other equipment, including lights, that might be a source of ignition shall be shut down.

(3) Smoking shall not be permitted and open flames shall not be used.

(4) Waste materials shall be disposed of in conformance with Article 3.7.3.2. in bowling alleys.

3.7.1.4. Maximum natural ventilation shall be maintained during the resurfacing operations.

Subsection 3.7.2. Pin Refinishing

3.7.2.1.(1) Pin refinishing shall be carried out in a **building** provided for this purpose, or in a room at or above **grade** separated by walls, floor and ceiling assemblies having a 1-hr **fire-resistance rating**.

(2) Smoking shall not be permitted in a pin refinishing room.

(3) Signs in conformance with Article 2.4.3.2. shall be posted in pin refinishing rooms.

Subsection 3.7.3. Flammable and Combustible Liquids

3.7.3.1. RESERVED

Storage

3.7.3.2.(1) During the resurfacing or refinishing process, a receptacle conforming to Articles 2.4.1.9. and 2.4.1.10. shall be provided for waste rags and materials used in operations involving flammable finishes or solvents.

Waste
receptacles

(2) The contents of the receptacles in Sentence (1) shall be removed daily and disposed of in a manner that is approved.

SECTION 5.1 GENERAL

Subsection 5.1.1. Application

5.1.1.1. This Part applies to materials, processes and operations that involve a risk from explosion or high flammability, or otherwise create a hazard to life safety or health.

Application

Subsection 5.1.2. Means of Egress

5.1.2.1. Hazardous materials, processes and operations shall be located and the premises maintained so that the **means of egress** will not be obstructed in any manner that would interfere with evacuation of the **floor area** in the event of a fire.

Subsection 5.1.3. Electrical Installations

5.1.3.1. Electrical installations shall conform to Ontario Regulation 183/84 (**Electrical Safety Code**).

Electrical
installations

Subsection 5.1.4. Ventilation

5.1.4.1. Ventilation shall be provided for **hazardous locations** and processes in conformance with the **Building Code** and the requirements of this Part.

SECTION 5.2 EXPLOSIVES AND FIREWORKS

Subsection 5.2.1. Explosives

5.2.1.1. The storage, handling and use of explosives, blasting agents, detonators, propellant explosives, pyrotechnics and ammunition shall be in conformance with the **Explosives Act (Canada)** and the **Explosives Regulations** made thereunder.

Storage,
handling and
use

5.2.1.2.(1) Any person using, storing or handling explosives shall establish fire emergency procedures in conformance with Section 2.8 and that shall specify

Fire
emergency
procedures

- (a) the location and identification of storage and use areas,
- (b) methods to control a fire emergency safely and efficiently, and
- (c) the names, addresses and telephone numbers of persons to be contacted in case of fire during nonoperating hours.

Subsection 5.2.2. Fireworks

5.2.2.1. The manufacture, storage, transportation and sale of fireworks shall be in conformance with the **Explosives Act (Canada)** and the **Explosives Regulations** made thereunder.

Manufacture,
storage,
transportation
and sale

5.2.2.2. The handling and discharge of fireworks shall conform to the Fireworks Manual, as published by the Explosives Division, Department of Energy, Mines and Resources of the Government of Canada.

Handling and
discharge

SECTION 5.3 MATCHES

Subsection 5.3.1. Storage

5.3.1.1. Matches shall be labelled and packed by the manufacturer in conformance with Sections 73.176 and 73.176a of the **Regulations for the Transportation of Dangerous Commodities by Rail**, as prepared by the Canadian Transport Commission.

Labelling
and
packing

5.3.1.2. Where the aggregate volume of piles of stored matches exceeds 3 m³, storage compartments shall be constructed in conformance with the requirements of the **Building Code** for Group 'F' Division 1 **occupancies**.

Storage
compartment.

5.3.1.3. In storage areas regulated by Article 5.3.1.2., shipping cartons containing matches shall be arranged in piles not exceeding 3 m in height or 40 m³ in volume, and separated by aisles 2.4 m wide.

Carton
pile
arrangements

5.3.1.4. In mixed storage areas, matches shall be stored in a specific area separated from the remainder of the storage by a clear space of 2.4 m.

Mixed
storage

5.3.1.5. Matches shall not be stored within 3 m of any elevator shaft opening, stairway or other vertical opening.

Storage
restrictions

SECTION 5.4 CELLULOSE NITRATE PLASTICS

Subsection 5.4.1. Displays

5.4.1.1. Displays of cellulose nitrate plastic articles in stores that are not in showcases or show windows shall be displayed only when placed on tables or counters not more than 1 m wide and 3 m long, and the spaces underneath the tables or counters shall be kept free of combustible materials.

Advertising
displays

5.4.1.2. Lighting fixtures shall not be located adjacent to any cellulose nitrate plastic material so as to create a possible ignition hazard.

Lighting
fixtures

Subsection 5.4.2. Manufacture

5.4.2.1. Raw materials used in the manufacture of cellulose nitrate plastics shall be stored only in areas reserved for that purpose.

Storage
of raw
materials

5.4.2.2. Not more than 450 kg of raw material used for the manufacture of finished cellulose nitrate plastic goods shall be stored in cabinets in any one workroom, not more than 225 kg stored in any one cabinet and not more than 112 kg in any one compartment of the cabinet.

5.4.2.3. Raw material in excess of that permitted in Article 5.4.2.2. shall be kept in vented vaults not exceeding 40 m³ capacity and protected with an automatic sprinkler system installed in conformance with NFPA 13-1983, "Standard for the Installation of Sprinkler Systems".

5.4.2.4. In factories manufacturing articles of cellulose nitrate plastics, **sprinklered** and vented cabinets, vaults or storage rooms shall be provided to prevent the accumulation of excessive quantities of such material in workrooms.

5.4.2.5. In the workrooms of factories where cellulose nitrate plastics are being processed, operators shall be stationed not closer than 1 m apart.

Stationing
of
operators

5.4.2.6. Material for the manufacture of cellulose nitrate plastic articles that is not kept in containers may be placed on tables, workbenches or at machines provided the quantity does not exceed a 1/2 day's supply.

Storage
in work
areas

5.4.2.7. The total amount of cellulose nitrate plastic materials, including the material in containers and on tables, in any one workroom shall not exceed 70 kg.

5.4.2.8. Waste cellulose nitrate plastic materials such as shavings, chips, turnings, sawdust edgings and trimmings shall be kept under water in metal receptacles until removed from the premises.

Waste
material
storage

Subsection 5.4.3. Storage of Finished Products

5.4.3.1. Areas where cellulose nitrate plastic finished products are stored shall be ventilated so that any decomposition gases produced by the plastics will be vented outdoors to an area where they will not reenter the building.

Ventilation

5.4.3.2.(1) Cellulose nitrate plastics shall not be stored

Heating
appliance
restrictions

- (a) in rooms containing fuel burning **appliances** or electrical heating elements, or
- (b) within 600 mm of any steam pipe, radiator or **chimney**.

5.4.3.3.(1) Where cellulose nitrate plastics in excess of 11 kg are stored in any **fire compartment** in a building, a vented cabinet or vault constructed in conformance with NFPA 40E-1980, "Code for the Storage of Pyroxylin Plastic", and Articles 5.4.3.4. and 5.4.3.5. shall be provided for its storage.

Storage
vaults

(2) Not more than 9000 kg of cellulose nitrate plastics shall be stored in any vault.

5.4.3.4.(1) Where quantities do not exceed 3400 kg, cellulose nitrate plastics shall be stored in a vault that

- (a) has a **fire-resistance rating** of 1-1/2 hr,
- (b) is designed to resist an internal pressure of 3.5 kPa,
- (c) is not greater than 40 m³ in volume,

- (d) has explosion venting of 0.1 m² of venting area to the exterior for every cubic metre of vault volume, and
- (e) is ventilated to the exterior to provide 200 cm² of ventilating area for each cubic metre of vault volume.

5.4.3.5.(1) Where quantities exceed 3400 kg but do not exceed 9000 kg, cellulose nitrate plastics shall be stored in a vault that

- (a) has a 4-hr **fire-resistance rating**,
- (b) is designed to resist an internal pressure of 28 kPa,
- (c) has explosion venting of 650 cm² of venting area to the exterior for every cubic metre of vault volume, and
- (d) is ventilated to the exterior to provide 200 cm² of ventilating area for each cubic metre of vault volume.

Subsection 5.4.4. Cellulose Nitrate Motion Picture Film

5.4.4.1. Cellulose nitrate motion picture film shall not be used, stored or handled in a place of public assembly. Restricted use

5.4.4.2. Cellulose nitrate motion picture film shall be stored and handled in conformance with NFPA 40-1974, "Storage and Handling of Cellulose Nitrate Motion Picture Film". Storage and handling

5.4.4.3. When not in use, cellulose nitrate motion picture film shall be kept in closed, single-roll containers.

Subsection 5.4.5. Fire Protection

5.4.5.1. The manufacture and storage of articles of cellulose nitrate plastic in quantities exceeding 45 kg shall be only in buildings equipped with a system of automatic sprinklers installed in conformance with NFPA 13-1983, "Standard for the Installation of Sprinkler Systems". Sprinkler systems

SECTION 5.5 AMMONIUM NITRATE

Subsection 5.5.1. Application

5.5.1.1. This Section applies to the storage of ammonium nitrate in quantities exceeding 900 kg in the the form of crystals, flakes, grains or prills, including fertilizer grade or other mixtures containing 60 per cent or more ammonium nitrate by weight, but does not apply to blasting agents or fertilizer storage on railways regulated by the Canadian Transport Commission or on privately operated farms. Application

Subsection 5.5.2.

Exposure

5.5.2.1.(1) Except as provided in Sentences (2) and (3), the distance between an ammonium nitrate storage facility and the property line of another property shall be not less than 90 m, except that the distance may be reduced to

Clearances
from
storage
facilities

- (a) 30 m where the other property contains a **building** classified as a Group 'F' **occupancy, flammable liquid storage tanks, flammable gas storage tanks** or other tanks containing a hazardous substance, or
- (b) 15 m where the other property contains a warehouse for **flammable liquids** storage or a facility for loading or unloading **flammable liquids**.

(2) Storage facilities for up to 200 t of ammonium nitrate shall be located not closer than 15 m from a property containing a **building** classified as a Group 'F' Division 2 or 3 **occupancy**, except that this distance may be reduced to 7.5 m when a 2-hr **firewall** is provided between the storage facility and the **building** it exposes.

(3) Storage facilities for more than 200 t of ammonium nitrate shall be located not closer than 15 m from a property containing a **building** classified as a Group 'F' Division 2 or 3 **occupancy** when a 2-hr **firewall** is installed between the storage facility and the **building** it exposes.

(4) The use of existing **buildings** or structures that do not conform with the provisions of Subsection 5.5.2. may be **approved** where existing **buildings** or structures do not constitute a hazard to life or property from fire or explosion.

Subsection 5.5.3.

Storage Buildings

5.5.3.1.(1) Ammonium nitrate shall not be stored in **buildings** which are more than 1 **storey** in **building height**.

Restrictions
on buildings

(2) The walls of the exposed side of a storage **building** within 15 m of a combustible **building, forest, pile of combustible materials** and similar combustible materials shall be noncombustible, except that other forms of exposure protection may be used where acceptable to the **Chief Fire Official**.

5.5.3.2.(1) Ammonium nitrate shall not be stored in **buildings** having **cellars, basements, open floor drains, tunnels** or other pockets that might trap molten ammonium nitrate in the event of fire.

(2) Elevator pits and similar pits may be installed in the floor of a storage facility where vented to the exterior.

5.5.3.3. Ammonium nitrate shall not be stored in **buildings** having less than 70 cm² of openable vent area for each square metre of storage area unless mechanical ventilation is provided by equipment protected from the storage room by a **fire separation** having a 1-hr **fire-resistance rating**.

Ventilation

Subsection 5.5.4. Storage

5.5.4.1. The height and width of piles of bagged ammonium nitrate in warehouses shall not exceed 6 m.

Pile dimensions

5.5.4.2. Bags of ammonium nitrate in warehouses shall not be stacked closer than 914 mm from the roof, overhead supporting beams or sprinkler head deflectors.

Pile locations

5.5.4.3. Where there is palletized storage of bagged ammonium nitrate in warehouses, pallet channels shall be at right angles to aisles.

Pallet channels

5.5.4.4.(1) Aisles of a minimum of 1 m in width shall be provided in warehouses to separate piles of ammonium nitrate.

Aisles

(2) At least 1 aisle not less than 1.2 m in width shall be provided along the entire length of the storage area.

5.5.4.5. Unless constructed of noncombustible material or unless adequate facilities for fighting a roof fire are available, bulk storage structures shall not exceed a height of 12 m.

5.5.4.6. Bulk storage of ammonium nitrate shall be located in warehouses, except that separate bin-type structures conforming to Article 5.5.4.7. may be used.

Bulk storage

5.5.4.7. Bins described in Article 5.5.4.6. shall not contain galvanized iron, copper, lead or zinc, or other materials that may contaminate or be corroded by ammonium nitrate.

Bins

5.5.4.8. Ammonium nitrate storage bins or piles shall be identified by signs of contrasting colours indicating the contents with letters 50 mm high.

Identifying signs

Subsection 5.5.5. Fire Hazards

5.5.5.1.(1) Smoking and the use of open flames shall be prohibited in **buildings** used for the storage of ammonium nitrate.

Smoking and open flames prohibited

(2) Signs with letters 50 mm high indicating that ammonium nitrate is being stored and that smoking is not permitted shall be prominently displayed near each entrance on the exterior of **buildings** identified in Sentence (1).

5.5.5.2. Heating equipment shall be separated from any storage area in conformance with the requirements of the **Building Code**.

Heating equipment

5.5.5.3. Mobile internal-combustion equipment may be used in storage **buildings** in conformance with Section 3.4.

Restricted use
of mobile
equipment

5.5.5.4. Bags and containers used for ammonium nitrate shall be in conformance with Part 73 of the **Regulations for the Transport of Dangerous Commodities by Rail**, as prepared by the Canadian Transport Commission.

Bags and
containers

5.5.5.5.(1) Ammonium nitrate shall be stored at a storage facility where the ambient air temperature does not exceed 54°C.

Storage
temperature

(2) Ammonium nitrate having a temperature higher than 54°C shall not be transferred to the storage area.

5.5.5.6.(1) Spilled ammonium nitrate material shall be disposed of in conformance with Sentences (2) to (5).

Disposal

(2) Uncontaminated material may be rebagged in suitable slip over bags and sealed to prevent spillage.

(3) Unsavable material shall be removed by sweeping and burial.

(4) After flushing and scrubbing contaminated areas very thoroughly to dissolve all material, the residue shall be washed away with hoses.

(5) Empty bags shall be disposed of by burning out of doors where permitted in a safe area or buried.

5.5.5.7. Explosives shall not be used to break up caked ammonium nitrate.

Explosives
prohibited

Subsection 5.5.6. Fire Protection

5.5.6.1.(1) Ammonium nitrate shall be stored only in **buildings** equipped with an automatic sprinkler system installed in conformance with NFPA 13-1983, "Standard for the Installation of Sprinkler Systems".

Sprinkler
installations

(2) Sentence (1) does not apply where the existing situation is **approved** and does not endanger life safety or alternative measures to the requirements set out in Sentence (1) are taken to provide life safety.

5.5.6.2. Portable extinguishers shall be installed in conformance with Part 6.

Portable
extinguishers

SECTION 5.6 COMPRESSED GAS CYLINDERS

Subsection 5.6.1. General

5.6.1.1. RESERVED

5.6.1.2. Cylinders containing **compressed gas** shall be protected against mechanical damage and stored on racks or by using other devices designed to hold them in place.

5.6.1.3. Except when being transported, acetylene cylinders shall be kept in an upright position.

Acetylene cylinders

5.6.1.4. Cylinders containing **compressed gas** which are in storage shall be equipped with valve caps.

Valve caps

5.6.1.5. Cylinders containing **compressed gas** shall be stored in areas where the ambient air temperature does not exceed 52°C.

Temperature limitations

5.6.1.6. Where cylinders containing **compressed gas** are stored indoors, storage areas or rooms shall be dry and ventilated.

Ventilation

5.6.1.7. Oil or grease shall not be used for the lubrication of valves or fittings on oxygen cylinders.

Oxygen cylinders

Subsection 5.6.2. Storage

5.6.2.1. Where cylinders containing **compressed gas** are stored outdoors, they shall be supported on raised concrete or other noncombustible platforms protected from the weather by a noncombustible canopy in an enclosure surrounded by a firmly anchored fence and used for the sole purpose of such storage.

Outdoor platforms

5.6.2.2.(1) The fence required in Article 5.6.2.1. shall

Fencing

- (a) be designed to discourage climbing,
- (b) be substantially constructed with a minimum height of 1.8 m, and
- (c) be equipped with a gate to be kept locked when the enclosure is not manned.

5.6.2.3.(1) Cylinders containing **compressed gas** and located outdoors shall be,

Clearances from building openings

- (a) if not more than 170 m³ aggregate capacity, 1.5 m from any **building** opening;
- (b) if over 170 m³ but under 500 m³ aggregate capacity, 7.5 m from any **building** opening; or
- (c) if over 500 m³ aggregate capacity, 15 m from any **building** opening.

5.6.2.4.(1) Except as provided in Sentences (2) and (3), cylinders containing flammable **compressed gas** stored indoors shall be located in a room that

Indoor storage of flammable compressed gases

- (a) is separated from the remainder of the **building** by a **fire separation** having a 2-hr **fire-resistance rating**,
- (b) is located on an exterior wall of the **building**,

- (c) can be entered only from the exterior,
- (d) is constructed so that an exterior wall provides explosion venting
 - (i) in the ratio of 0.2 m² for each cubic metre of room volume, or
 - (ii) in the ratio computed in accordance with NFPA 68-1978, "Guide for Explosion Venting", except in no case less than 650 cm² of vent area for each cubic metre of room volume,
- (e) is provided with natural ventilation with non-closeable louvered openings at the floor and ceiling in an outside wall,
- (f) does not contain fuel fired equipment or high temperature heating elements, and
- (g) is used for no purpose other than the storage of **compressed gas**.

(2) Cylinders of flammable, lighter than air **compressed gas** may be stored in rooms other than those described in Sentence (1),

Flammable
compressed
gases lighter
than air

- (a) in a **building of combustible construction** that is not **sprinklered** where the aggregate capacity of expanded gas is not more than 60 m³,
- (b) in a **sprinklered building of combustible construction** where the aggregate capacity of expanded gas is not more than 170 m³, or
- (c) in a **building of noncombustible construction** where the aggregate capacity of expanded gas is not more than 170 m³.

(3) Where flammable **compressed gas** is heavier than air, only 1 cylinder of gas may be located in any 1 room of a **building**, and cylinders shall not be located in **basements** or other areas below **grade**, but does not include cylinders on industrial trucks described in Section 3.4.

Flammable

5.6.2.5. RESERVED

5.6.2.6. Cylinders containing poisonous **compressed gas** shall not be stored in a room containing combustible or flammable material.

5.6.2.7. Cylinders of gases that may react with one another shall not be stored in the same area.

Restricted
storage

5.6.2.8. Cylinders of flammable gases shall not be stored with **oxidizing materials** or with cylinders containing gases that support combustion.

5.6.2.9. Storage rooms shall have exterior signs with minimum 50 mm high letters indicating the nature of the **compressed gases**.

SECTION 5.10 COMBUSTIBLE DUST PRODUCING PROCESSES

Subsection 5.10.1. Dust Collection

5.10.1.1. Machinery that produces, agitates or conveys **combustible dusts** shall have or be connected to a mechanical exhaust system to the outside atmosphere and dust-tight casings or enclosures. Mechanical exhaust systems

5.10.1.2.(1) **Building** and machinery surfaces shall be kept clean by a vacuum apparatus **listed** and labelled for use in atmospheres containing **combustible dusts**. Vacuum cleaning equipment

(2) The vacuum cleaning machine required in Sentence (1) and ancillary piping, suction hose and tools shall be electrically conductive and grounded.

(3) Compressed air or other **compressed gases** shall not be used to blow dust from surfaces inside **buildings**.

5.10.1.3. Dust-collecting equipment shall be installed where necessary to keep the accumulation of dust at a safe concentration in the interior of the **building**. Dust-collecting equipment

5.10.1.4.(1) Dust-collecting systems shall be made of noncombustible material.

(2) Dust-collecting systems shall be of a design which will prevent sparks due to physical contact in the fan assembly.

5.10.1.5.(1) Except where specifically designed and manufactured for internal use, dust-collectors shall

(a) be located outside **buildings**, or

(b) be equipped with exhaust stacks or ducts leading to the outside.

5.10.1.6. Electrically conducting parts of duct systems, dust-collectors and the machines they serve shall be grounded. Grounding

5.10.1.7. Except as provided in Article 5.10.1.11., manufacturing activities that produce, agitate, or convey **combustible dusts** shall be located only in **buildings** which have explosion venting to the outdoors.

Explosion venting

5.10.1.8. Dust-collectors within **buildings** shall be designed with explosion venting to the exterior.

5.10.1.9. Equipment required to have a dust exhaust system shall not be capable of operating until the dust exhaust system is in operation.

Interlocks

5.10.1.10. Dust-collector systems shall be designed for an air velocity in the ducts of at least 1068 m/min.

Air velocity

5.10.1.11.(1) Permanently open vent stacks may be used to ventilate storage containers where mechanical dust-collector systems are not practical, provided that the vent stacks

Vent stacks

- (a) have a cross-sectional area not less than twice that of spouts discharging into the container,
- (b) are installed not more than 30 degrees from the vertical,
- (c) extend from the top of the container to a point not less than 1.2 m above the roof, and
- (d) are designed to prevent the entry of snow and rain.

5.10.1.12. Magnetic or pneumatic separators shall be installed to prevent the entrance of foreign materials that may cause sparks in equipment such as shellers, crackers, crushers, grinding machines, pulverizers or similar machines that produce **combustible dusts**.

Separators

5.10.1.13. Machinery and metal parts of the equipment in Article 5.10.1.12. and related conveying systems shall be electrically grounded.

Grounding

5.10.1.14. Smoking, open flame and spark-producing equipment shall not be allowed in areas containing **combustible dust** producing operations.

Ignition sources prohibited

SECTION 5.11

COMBUSTIBLE FIBRES

Subsection 5.11.1.

Storage

5.11.1.1. **Buildings** used for the storage and handling of baled **combustible fibres** shall comply with the height and area limitations of the **Building Code** for Group 'F' Division 2 **occupancies**.

Building sizes

5.11.1.2.(1) Up to 3 m³ of loose **combustible fibres** may be kept in any **building** provided storage is in a container complying with Articles 2.4.1.9. and 2.4.1.10.

Loose fibre storage

(2) Quantities of loose **combustible fibres** exceeding 3 m^3 but not exceeding 15 m^3 shall be stored in rooms separated from the remainder of the building by a **fire separation** having a 1-hr **fire-resistance rating**.

(3) Quantities of loose **combustible fibres** exceeding 15 m^3 but not exceeding 30 m^3 shall be stored in rooms separated from the remainder of the building by a **fire separation** having a 2-hr **fire-resistance rating**.

(4) Quantities of more than 30 m^3 of loose **combustible fibres** shall not be stored in an individual room unless the room is **sprinklered** and separated from the remainder of the building by a **fire separation** having a 2-hr **fire-resistance rating**.

5.11.1.3.(1) Baled **combustible fibres** shall be stored so that

Baled fibre storage

- (a) a single pile will not contain more than 700 m^3 ,
- (b) the maximum height of any single pile will not exceed 4.5 m,
- (c) piles are separated by aisles not less than 1.5 m wide, and
- (d) the clearance between piles and building walls is not less than 1 m.

5.11.1.4. The sides of baled storage piles shall be inclined back from the base of the pile with a slope of not less than 1 m for each 10 m of height.

Baled storage piles

5.11.1.5.(1) The clearance between sprinkler head deflectors and the tops of piles shall not be less than 457 mm.

(2) Where the storage piles are above the lower chords of floor or roof structural framing members, a horizontal clear space of 300 mm shall be maintained between the storage and the structural members.

5.11.1.6.(1) Storage areas for **combustible fibres** shall not contain fuel fired appliances or electrical heating elements.

Heating equipment

(2) Shields shall be provided that will prevent stored material from coming within 300 mm of any part of the heating system.

Subsection 5.11.2. Fire Protection

5.11.2.1. **Combustible fibres** shall be stored only in warehouses which are protected by standpipe and hose systems installed in conformance with the **Building Code**.

Standpipe and hose system installations

5.11.2.2. Portable extinguishers shall be provided in conformance with Part 6.

Portable
extinguishers

5.11.2.3. Where **combustible fibres** are stored in **buildings**, automatic smoke venting hatches manually operable from remote locations and having a combined opening area of 64 cm^2 for each square metre of **floor area** shall be provided.

SECTION 5.12 SPRAY APPLICATIONS USING FLAMMABLE AND COMBUSTIBLE MATERIALS

Subsection 5.12.1. Location

5.12.1.1. Spray operations shall be separated from the remainder of the **building** in conformance with the **Building Code**, where applicable.

Subsection 5.12.2. Construction

5.12.2.1.(1) A **spray booth** shall consist of a steel frame covered with sheet steel having a minimum thickness of 1.14 mm, or be of equivalent **noncombustible construction**.

General

(2) The interior surfaces of a **spray booth** shall be smooth and continuous.

(3) The floor of a **spray booth** and the operator's working area shall be noncombustible, non-sparking material.

5.12.2.2.(1) **Spray booth** baffle plates shall be of noncombustible material and be removeable or arranged to facilitate cleaning.

Baffle plates

(2) **Spray booth** baffle plates shall not be located in exhaust ducts.

5.12.2.3. Filters in ducts used to ventilate **spraying areas** shall be made from noncombustible material or have a rate of combustibility no greater than Class 2 filters conforming to CAN4-S111-M80, "Standard Method of Fire Tests for Air Filter Units".

Filters
in ducts

5.12.2.4. Fan blades and casings in exhaust blowers for **spray booths** shall be nonferrous.

Fan blades
and casings

Subsection 5.12.3. Ventilation

5.12.3.1. Mechanical ventilation shall be provided in all **spraying areas** with sufficient air movement to prevent dangerous flammable vapour or powder concentrations.

Mechanical
ventilation

5.12.3.2. Except as provided in Article 5.12.3.3., the exhaust air velocity at the face of the **spray booth** shall be 30 m/min.

Air velocity

5.12.3.3. Electrostatic spraying shall have an exhaust air velocity of 18 m/min at the face of the **spray booth**.

5.12.3.4. A separate exhaust duct shall be provided for each **spray booth**, except that a common duct may be used if it serves **spray booths** having a combined open frontal area of not more than 1.8 m².

Combined
ducting

5.12.3.5. Air exhausted from spray operations shall not be recirculated, except where recirculation is acceptable, as described in NFPA 33-1982, "Standard for Spray Application Using Flammable and Combustible Materials".

Exhaust air

5.12.3.6. Gauges or audible alarms that will ensure that the required air velocity will be maintained shall be installed at **spray booths**.

Maintenance
of air
velocity

Subsection 5.12.4. Exhaust Ducts

5.12.4.1. Exhaust ducts for **spray booths** shall be securely supported and constructed of sheet steel in conformance with Table 5.12.4.A.

5.12.4.2. Except as provided in Article 5.12.4.3., a clearance of 457 mm shall be maintained between ducts venting **spray booths** and unprotected combustible material.

Clearances

5.12.4.3.(1) Where exhaust ducts pass through combustible roofs or **partitions**, metal collars shall provide not less than a 100 mm clearance between the duct and combustible material.

Collars

(2) The space between the duct and combustible material shall be sealed with noncombustible insulating material.

5.12.4.4. Exhaust ducts for **spray booths** shall be provided with access doors for cleaning purposes.

Access
doors

5.12.4.5.(1) Except for water-wash types, the exhaust outlet to atmosphere from **spray booths** shall

Exhaust outlet locations

- (a) be 1.8 m from any combustible exterior wall or roof, and
- (b) be located so that the air does not discharge toward any combustible surface or unprotected opening within 7.5 m.

Subsection 5.12.5. Electrical Equipment

5.12.5.1. Electrical equipment within the **spraying area** including lighting fixtures shall conform to Part 1, Sections 18 and 20 of Ontario Regulation 183/84 (**Electrical Safety Code**).

Hazardous locations

5.12.5.2. Electric motors for exhaust fans shall not be placed inside **spray booths** or ducts.

Motors for exhaust fans

5.12.5.3. Metal parts of **spray booths**, exhaust ducts and piping systems conveying **flammable** or **combustible liquids** shall be electrically grounded.

Grounding

Subsection 5.12.6. Flammable and Combustible Liquids

5.12.6.1.(1) **Flammable** and **combustible liquids** for use in **spraying areas** shall be stored and handled in an **approved** manner.

Storage and handling

(2) The amount of **flammable** and **combustible liquids** in the **spraying areas** shall not exceed 1 day's supply.

5.12.6.2. Paint shall be kept in **closed containers** when not in use.

Paint storage

5.12.6.3. Thinners and solvents shall be dispensed only from **listed** and labelled safety cans.

Thinners and solvents

5.12.6.4. Where **flammable liquids** are supplied to spray nozzles by positive displacement pumps, the pump discharge line shall be provided with a suitable relief valve discharging to the pump suction or to a safe remote location.

Pump discharge relief valves

Subsection 5.12.7. Control of Fire Hazards

5.12.7.1. The spraying equipment for a **spray booth** shall be interlocked to shut down in the event of failure of the ventilation system, failure of the circulating water pump of a water-wash system or failure of the filter roll-down mechanism of a dry **spray booth**.

Interlocks

5.12.7.2.(1) The inner surface of **spray booths** shall be kept clean by removing the deposits of combustible residue.

Cleaning and residue disposal

(2) Combustible residue from cleaning operations shall be removed from the **spraying area** and put in **approved** safety cans for daily disposal.

5.12.7.3. Discarded filter pads and filter rolls shall be removed to a safe location or placed in a water-filled metal container and disposed of after each day's operation.

Filter pads
and rolls

5.12.7.4. A water-wash **spray booth** shall be used when applying spray material that is susceptible to spontaneous heating.

Filters
prohibited

5.12.7.5. **Space-heating appliances**, steam pipes and other hot surfaces shall not be located in an area where deposits of combustible residue may accumulate.

Heating
equipment

5.12.7.6. Open flame or spark producing devices shall not be used within a **spraying area**, unless separated therefrom by a vapour-tight **fire separation** with a 1-hr **fire-resistance rating**.

Ignition
sources

Subsection 5.12.8. Fire Protection Equipment

5.12.8.1. Portable extinguishers shall be installed near **spraying areas** in conformance with Part 6.

Portable
extinguishers

5.12.8.2.(1) Except as permitted in Sentences (2) and (3), automatic sprinkler protection shall be provided in each **spraying area**, **spray booth** and **spray room** in conformance with NFPA 13-1983, "Standard for the Installation of Sprinkler Systems".

Sprinkler
installations

(2) Where spraying operations are confined within a **spray booth**, fire protection may be provided for the **spray booth** only, in conformance with NFPA 33-1982, "Standard for Spray Application Using Flammable and Combustible Materials".

(3) This Article does not apply where the existing situation is **approved** and does not endanger life safety, or alternative measures to the requirements set out in this Article are taken to provide life safety.

5.12.8.3.(1) Sprinkler heads in **spray booths** shall be protected with lightweight paper or thin polyethylene bags.

Sprinkler
head
protection

(2) Bags protecting sprinkler heads shall be replaced before they have accumulated excessive deposits.

Subsection 5.12.9. Drying Operations

5.12.9.1. **Spray booths**, **spray rooms** or other enclosures used for spraying operations shall not be used for drying by any arrangement that could cause an increase in the surface temperatures of the **spray booths**, **spray rooms** or other enclosures.

Spray booths
used for
drying

5.12.9.2. Except as provided in Articles 5.12.9.3. and 5.12.9.4., drying or curing equipment that utilizes open flames or that produces sparks shall not be installed in or near a **spraying area**.

Location of
equipment

5.12.9.3.(1) Equipment described in Article 5.12.9.2. may be installed in an area adjacent to the **spraying area** provided the adjacent area is equipped with a ventilating system arranged to

- (a) purge the drying space before the heating system can be started,
- (b) maintain a safe atmosphere at any source of ignition, and
- (c) automatically shut down the heating system in the event of failure of the ventilating system.

5.12.9.4.(1) Automobile **spray booths** may be used for drying operations with portable electric infrared drying apparatus provided

Automobile
spray booths
used for drying

- (a) the interior of the enclosure is kept reasonably free of over-spray deposits,
- (b) the drying apparatus, wiring and connections are removed from the enclosure during spraying operations, and
- (c) interlocks are installed to
 - (i) prevent the use of spraying apparatus while the drying apparatus is in the enclosure,
 - (ii) provide for the purging of the enclosure of spray vapours for a minimum of 3 minutes before the drying apparatus can be energized,
 - (iii) ensure that the ventilating system maintains a safe atmosphere within the enclosure during the drying process, and
 - (iv) ensure that the drying apparatus will automatically shut off in the event of failure of the ventilating system.

SECTION 5.13 DIP TANKS

Subsection 5.13.1. Location

5.13.1.1. Dip tank operations involving **flammable or combustible liquids** shall be conducted only in a room designed for the purpose and separated from other areas by a **fire separation** having a 2-hr **fire-resistance rating**.

5.13.1.2. Dip tanks shall not be located in **cellars or basements**.

Subsection 5.13.2. Construction

5.13.2.1. The floor of any room where dip tanks are located shall be waterproofed, provided with permanent curbs and drained to a place of safe discharge.

Floors

5.13.2.2.(1) Dip tanks and drain boards shall be constructed of noncombustible material with steel, reinforced concrete or masonry supports.

Materials

(2) Drain boards shall be arranged to drain back to the dip tank.

5.13.2.3. The top of a dip tank shall not be less than 150 mm above the floor of the room in which it is located.

Height above floor

5.13.2.4. Dip tank covers as required in in Articles 5.13.6.2. and 5.13.6.3. shall be of noncombustible materials.

Covers

5.13.2.5. Dip tank covers shall overlap the sides of the tank by 25 mm and shall have a recess or flange extending down around the tank.

5.13.2.6. Dip tank covers shall be maintained in good operating condition.

Subsection 5.13.3. Overflow and Drain Pipes

5.13.3.1. The liquid level in a dip tank shall be kept not less than 150 mm below the top of the tank.

Liquid levels

5.13.3.2. Dip tanks having a capacity in excess of 550 L or having a liquid surface area in excess of 1 m² shall be equipped with a properly trapped overflow pipe that leads to a safe location outside the building or to a closed, vented salvage tank conforming to Subsection 5.13.4.

Overflow pipes

5.13.3.3. The centre line of the overflow connection to a dip tank shall be 150 mm below the top of the tank.

5.13.3.4. Overflow pipe sizes for dip tanks shall conform to Table 5.13.3.A.

TABLE 5.13.3.A.

5.13.3.5. Overflow pipes shall be connected to dip tanks by a flared outlet.

5.13.3.6. Piping connections for drains and overflow lines shall be designed so as to allow for easy access to their interiors for cleaning purposes.

Piping
connections

5.13.3.7. Dip tanks of over 2300 L liquid capacity shall be equipped with bottom drains capable of being operated both automatically and manually to drain the tank quickly in the event of fire.

Bottom
drains

5.13.3.8. Bottom drains from dip tanks shall be trapped and shall discharge to a closed, vented salvage tank.

5.13.3.9. Bottom drain sizes for dip tanks shall conform to Table 5.13.3.B.

5.13.3.10. Manual operation of bottom drains shall be from an accessible location not affected by a fire in or around the dip tank.

Manual
operation of
bottom drains

5.13.3.11. Where gravity flow is not practicable, automatic pumps shall be installed on drain lines from dip tanks.

Automatic
pumps

5.13.3.12. Where salvage tanks are used, pumping arrangements shall be provided for the transfer of their contents for disposal.

Subsection 5.13.4. Salvage Tanks

5.13.4.1. Salvage tanks shall be used only for temporary storage purposes.

Use

5.13.4.2. The capacity of a salvage tank shall be 20 per cent greater than the capacity of the dip tank or tanks to which it is connected.

Capacity

5.13.4.3. Salvage tanks shall be located underground in the yard or inside a **building** in an enclosure separated from the remainder of the **building** by a **fire separation** having a 2-hr **fire-resistance rating**.

Location

Subsection 5.13.5. Control of Fire Hazards

5.13.5.1. Ventilation shall be provided to confine all flammable vapour concentrations exceeding 25 per cent of the **lower explosive limit** to within 600 mm of the dip tank, drain board and freshly coated work.

Ventilation

5.13.5.2. Ventilating systems shall be arranged so that the failure of any ventilation fan as sensed by air flow will automatically stop the dipping conveyor systems and sound an alarm.

Interlocks

5.13.5.3. The heating system used in drying operations shall be interlocked so that it cannot be started until the associated ventilation system is in operation.

5.13.5.4. Conveyor systems utilized in conjunction with dip tanks shall be designed to stop automatically with the actuation of an automatic fixed extinguishing system or a manual fire alarm.

Conveyor systems

5.13.5.5. Where there is a possible source of ignition in a drying operation, interlocks shall be installed to provide for purging before the heating system can be started and for automatic shutdown if the ventilation system should fail.

Purging interlocks

5.13.5.6. Where **flammable** and **combustible liquids** contained in dip tanks are heated or have a **flash point** below 43°C, the electrical installation shall conform to Ontario Regulation 183/84 (**Electrical Safety Code**).

Electrical installations

5.13.5.7.(1) RESERVED

(2) The total number of containers for **flammable** and **combustible liquids** in a dip tank area shall not exceed that required for 1 day's operations.

Flammable and combustible liquids

5.13.5.8. Smoking, open flames, spark-producing devices and heated surfaces having a temperature sufficient to ignite vapours shall not be permitted in the vapour area of a dip tank.

Ignition sources

5.13.5.9. Signs that prohibit smoking and that conform to Article 2.4.3.2. shall be posted conspicuously in the vicinity of dip tanks.

Signs prohibiting smoking

Subsection 5.13.6. Fire Protection

5.13.6.1. Dip tanks shall be located only in rooms protected by an automatic sprinkler system installed in conformance with NFPA 13-1983, "Standard for the Installation of Sprinkler Systems".

Automatic sprinklers

5.13.6.2.(1) Dip tanks with a capacity of over 550 L or over 1 m² liquid surface area shall be protected by

Tank covers and extinguishing systems

- (a) an automatic closing cover actuated by a device that also permits manual operations, or
- (b) an **approved** automatic extinguishing system of a water spray, foam, carbon dioxide or dry chemical type.

5.13.6.3. Dip tanks containing either a **flammable** or **combustible liquid** with a **flash point** less than 43⁰C or a heated **combustible liquid** giving off flammable vapours shall conform to Article 5.13.6.2. when the capacity exceeds 45 L or when the liquid surface area exceeds 0.4 m².

5.13.6.4. Areas in the vicinity of dip tanks shall be provided with portable extinguishers in conformance with Part 6.

Portable extinguishers

SECTION 5.14 SPECIAL PROCESSES INVOLVING FLAMMABLE AND COMBUSTIBLE LIQUIDS

Subsection 5.14.1. Quench Tanks

5.14.1.1.(1) Quench tanks shall be located as far as practicable from annealing, hardening and tempering furnaces.

Location

(2) Quench tanks shall not be located on or near combustible floors.

5.14.1.2. Quench tanks shall be provided with a noncombustible hood and vent exhausting to the outside of the building.

Hoods and vents

5.14.1.3. Vents for quench tanks shall conform to the requirements for **flue pipes** in Section 2.6.

5.14.1.4.(1) A high temperature limit switch shall be provided to sound an alarm, shut off heat and stop conveyors when a **flammable** or **combustible liquid** reaches 28⁰C below its **flash point** in a quench tank.

High temperature limit switches

(2) The temperature-sensing element for the high temperature limit switch in Sentence (1) shall be located close to the surface of the liquid and be protected from damage.

5.14.1.5. Electrical installations conforming to the requirements for dip tanks in Article 5.13.5.6. shall be provided for quench tanks of over 1900 L capacity whose liquid surface area exceeds 2.5 m².

Electrical installations

5.14.1.6. Air under pressure shall not be used to fill or agitate oil in quench tanks.

Air pressure

5.14.1.7. A quench tank shall be designed so that the maximum workload is incapable of raising the working temperature of the cooling medium to within 28°C of its **flash point**.

Working
temperatures

Subsection 5.14.2. Flow-Coating Operations

5.14.2.1.(1) The requirements in Section 5.13 for dip tanks shall also apply to flow-coating operations.

Application of
dip tank
requirements

(2) The sump area and any area on which paint flows shall be considered as the dip tank area for the purposes of these provisions.

5.14.2.2. Mechanical ventilation shall be provided at the rate of 63 m³ of fresh air per litre of solvent used.

Mechanical
ventilation

5.14.2.3. Ventilation shall be arranged so that the flammable vapour concentration exceeding 25 per cent of the **lower explosive limit** will be confined to within 600 mm of the paint stream and drain area, freshly coated work and the drip tunnel bottom.

5.14.2.4. The ventilation system shall be interlocked to shut down the paint supply whenever fans are stopped as sensed by the air flow.

Interlocks

5.14.2.5.(1) Paint shall be supplied by

Paint supply

- (a) direct low pressure pumping arranged to to shut down automatically by means of **listed** and labelled heat-actuated devices in the event of fire, or
- (b) a gravity tank not exceeding 45 L in capacity.

Subsection 5.14.3. Roll-Coating Processes

5.14.3.1. The requirements in Section 5.13 for dip tanks shall also apply to roll-coating processes.

Application
of dip tank
requirements

5.14.3.2.(1) Rotating parts shall be grounded.

Grounding

(2) Static collectors shall be installed where the material being coated leaves each rotating part.

5.14.3.3. Operations involving materials that have been freshly coated with a liquid containing solvents having a **flash point** less than 43°C shall be located in **sprinklered** rooms that are separated from other **occupancies** by **fire separations** having a 2-hr **fire-resistance rating**.

Location

Subsection 5.14.4.	Electrostatic Spraying and Detearing Equipment	
5.14.4.1.(1) Electrical components including transformers, power packs and control equipment for electrostatic spray applications or for the electrostatic removal of excess coating material (detearing) shall be located in an area where the vapour concentration of flammable or combustible liquids cannot exceed 25 per cent of the lower explosive limit .		Equipment location
(2) Sentence (1) does not apply to high voltage grids and their connections.		
5.14.4.2.(1) Electrostatic spraying and detearing equipment shall be provided with automatic controls that will operate without a time delay to disconnect power to high voltage transformers and to signal the operator when		Interlocks
(a) stoppage of the air supply, ventilating fan or conveyor system occurs,		
(b) there is a ground at any point on the high voltage system, or		
(c) clearances are reduced below those specified in Article 5.14.4.4.		
5.14.4.3. Insulators shall be kept clean and dry.		Insulators
5.14.4.4.(1) A space equivalent to twice the sparking distance shall be maintained between articles being painted or deteared and electrodes or conductors.		Clearances
(2) A sign shall be conspicuously posted near an electrical assembly stating the maximum sparking distance.		
5.14.4.5. Drip plates and screens subject to paint deposits shall be removeable for cleaning.		Drip plates and screens
5.14.4.6. High voltage components, including atomizing heads, shall be insulated and protected against mechanical damage and accidental contact or grounding.		Insulating and grounding
5.14.4.7. An automatic means shall be provided for grounding the electrode system when it is de-energized.		
5.14.4.8. Items being electrostatically sprayed shall not be held by hand nor suspended in such a manner as to reduce the proper operating distance from the atomizing heads.		Operating distances
5.14.4.9. Electrostatic spraying equipment shall be located 1.5 m from processing equipment and isolated from other areas by grounded guards and fences of conducting material.		
5.14.4.10. The surface temperature of equipment in a spraying area shall not exceed 66°C.		Surface temperatures
5.14.4.11. High voltage circuits shall be designed so that any discharge occurring will not ignite vapour-air mixtures or create a shock hazard.		Precautions against shock

5.14.4.12. The energy supply to hand spray guns shall be controlled by a switch that also controls the coating material supply.

Spray guns

5.14.4.13. Spray gun handles shall be grounded and have a metallic connection that is in direct contact with the operator's hand during spraying.

5.14.4.14.(1) Electrically conductive objects in the **spraying area**, including paint containers, wash cans and other objects, shall be grounded.

Grounding

(2) A sign shall be posted in the **spraying area** indicating the need for the grounding of electrically conductive objects.

5.14.4.15. Hooks and other supports for sprayed items shall be kept clean and free of paint.

5.14.4.16. Signs designating the **spraying area** as dangerous shall be conspicuously posted.

Warning signs

5.14.4.17. **Spraying areas** shall be located in rooms protected by **listed** and labelled automatic fixed extinguishing equipment.

Fixed extinguishing equipment

Subsection 5.14.5. Automobile Undercoating

5.14.5.1. Automobile undercoating spray operations shall conform to the requirements of Section 5.12 or to the requirements in this Subsection.

5.14.5.2.(1) Automobile undercoating materials shall have a **flash point** of not less than 37.8°C .

Undercoating materials

(2) Where the **flash point** of an automobile undercoating is less than 60°C , it shall be applied in a work area where

- (a) there are no work pits,
- (b) there is a fan with nonferrous blades that provides mechanical ventilation during the application, cleaning and drying cycles at the rate of $72\text{ m}^3/\text{min}$ per work station,
- (c) air movement from the air intake and exhaust system is along the length of the vehicle being undercoated, and
- (d) air is exhausted at a level approximately 1 m above the floor.

5.14.5.3.(1) Work stations in Article 5.14.5.2. shall have no source of ignition located within 6 m horizontally of the work area or in the area above it.

Ignition sources

(2) Signs prohibiting smoking that conform to Article 2.4.3.2. shall be posted at the outer limits of the work area.

5.14.5.4. Except for overhead lighting that is totally enclosed and sealed with gaskets, electrical wiring and equipment within the area of hazard described in Article 5.14.5.3. shall conform to Article 5.1.3.1.

Electrical
installations

5.14.5.5. RESERVED

5.14.5.6. Portable extinguishers shall be located so that there is one portable extinguisher having a 20BC rating immediately accessible to each work station described in Article 5.14.5.2.

Portable
extinguishers

5.14.5.7.(1) Areas where automobile undercoating is used shall be kept clean of undercoating deposits and refuse.

Refuse
disposal

(2) The deposits and refuse shall be placed in covered metal containers.

Subsection 5.14.6. Dry Powder Finishing

5.14.6.1.(1) Processes involving protective finishing material applied in dry powder form by powder spray guns, by electrostatic powder spray guns, by fluidized beds or by electrostatic fluidized beds shall be performed in rooms of **noncombustible construction**, in ventilated, enclosed, powder-coating facilities, or in **spray booths** conforming to Article 5.12.2.1.

Location of
operations

(2) Electrostatic fluidized beds and associated equipment shall be installed in conformance with good engineering practice.

Installation

5.14.6.2.(1) Transformers, power packs, control apparatus and other electrical components shall be located outside the powder-coating area.

Location of
electrical
equipment

(2) Sentence (1) does not apply to charging electrodes and their components.

5.14.6.3.(1) Where a part to be coated is preheated prior to the application of the powder, the temperature of the part shall not exceed the ignition temperature of the powder being used.

Working
temperatures

(2) The surface temperature of electrostatic fluidized bed coating areas shall not exceed 66°C.

5.14.6.4.(1) Powder transport, application and recovery equipment shall be grounded.

Grounding

(2) Electrically conductive objects within the charging influence of the electrodes of electrostatic fluidized beds shall be grounded.

(3) A sign shall be posted indicating the necessity of grounding equipment and objects identified in Sentences (1) and (2).

5.14.6.5. High voltage circuits in electrostatic fluidized beds shall be designed so that any discharge produced when the charging electrodes of the bed are approached or contacted by a grounded object will not be of sufficient intensity to ignite any powder-air mixture likely to be encountered or result in any appreciable shock hazard.

Electrical
discharges

5.14.6.6. Separators shall be used to prevent tramp iron or other spark-producing materials from being introduced into the powders being applied.

Separators

5.14.6.7.(1) Waste air-suspended powders shall be safely removed by exhaust ducts to a powder recovery system.

Recovery
systems

(2) Waste air-suspended powders shall not be released to the outside atmosphere.

5.14.6.8. Accumulations of waste dust from dry powder finishes shall be removed by vacuum cleaning equipment.

Vacuum
cleaning

5.14.6.9. Objects being coated shall be maintained in contact with the conveyor or other support.

Contact
points

5.14.6.10. Hangers for objects being coated shall be kept clean and have sharp points or edges at areas of contact.

5.14.6.11.(1) Smoking shall not be permitted at powder-coating areas and in powder storage rooms.

Smoking
prohibited

(2) Signs prohibiting smoking that conform to Article 2.4.3.2. shall be conspicuously posted at all powder-coating areas and powder storage rooms.

Subsection 5.14.7. Organic Peroxides and Dual Component Coatings

5.14.7.1. Spraying operations involving the use of organic peroxides and other dual component coatings shall be conducted in **sprinklered spray booths** as described in Section 5.12.

Location of
spraying
operations

5.14.7.2. Organic peroxide initiators shall be stored so that they will be kept away from contact with other stored materials.

Initiator
storage

5.14.7.3. Handling equipment, including spray guns, that are specifically designed for use with organic peroxides shall be used to apply dual component coatings.

Handling
equipment

5.14.7.4. Separate containers shall be used exclusively for the storage of resin and organic peroxide.

Containers

5.14.7.5. Organic peroxide pressure tank inserts shall be constructed of stainless steel, polyethylene or a material that is equally inert to organic peroxide.

Pressure
tank
inserts

5.14.7.6. Precautions shall be taken to prevent any mixing of foreign materials with dusts or overspray residues resulting from the sanding or spraying of finishing materials containing organic peroxides.

Elimination of
foreign
materials

SECTION 5.15 RADIOACTIVE MATERIALS

Subsection 5.15.1. Application

5.15.1.1. This Section applies to the storage and handling of radioactive material that emits ionizing radiation and that is present in quantities in excess of the scheduled quantity as defined in Schedule I of the **Atomic Energy Control Regulations** made under the **Atomic Energy Control Act (Canada)**.

Application

Subsection 5.15.2. Storage

5.15.2.1. Radioactive materials and equipment shall be returned to storage after use.

5.15.2.2. Radioactive materials shall be stored in accordance with the licence requirements and regulations of the Atomic Energy Control Board.

Storage

5.15.2.3. Radioactive materials and equipment shall not be stored with flammable or corrosive materials.

Subsection 5.15.3. Emergency Procedures

5.15.3.1.(1) Persons using or storing radioactive materials shall establish fire emergency procedures in consultation with the **fire department** including

- (a) the location and identification of storage and use areas,
- (b) methods to control a fire emergency and to recover radioactive materials and equipment containing radioactive materials safely and efficiently,
- (c) the names, addresses and telephone numbers of primary and alternative sources of expert radiation safety advice and assistance, and
- (d) the location of primary and alternative sources of radiation survey instruments.

SECTION 5.16 FUMIGATION AND THERMAL
INSECTICIDAL FOGGING

Subsection 5.16.1. Application

5.16.1.1.(1) This Section applies to the fumigation or thermal fogging of **buildings** where this activity creates a fire or explosion hazard, including the fumigation of equipment or commodities within structures, tanks, bins or under tarpaulins.

Application

(2) Articles 5.16.2.1. and 5.16.2.2. do not apply to industries that conduct frequent fumigation operations on a routine basis where **approved** prior to the conducting of the operations.

Exceptions

Subsection 5.16.2. Safety Precautions

5.16.2.1.(1) Except as permitted in Sentence 5.16.1.1.(2), the **fire department** shall

Notification
of fire
department

- (a) be notified in writing at least 24 hours before any **building** is to be closed for fumigation, and
- (b) be advised of the chemicals to be used, the proposed date and time of use, types of respiratory protective devices required and the degree of flammability of the fumigant or fog being used.

5.16.2.2. Except as permitted in Sentence 5.16.1.1.(2), prior notice shall be given to the occupants of any premises adjacent to that in which fumigation or thermal insecticidal fogging is to take place.

Notification
of neighbours

5.16.2.3. Flames and other sources of ignition shall be eliminated in a **building** undergoing fumigation or thermal insecticidal fogging.

Ignition
sources

5.16.2.4. Electric power supply shall be shut off to the premises undergoing fumigation or thermal insecticidal fogging.

Power supply

5.16.2.5. The air temperature in a **building** undergoing fumigation or thermal insecticidal fogging shall be kept sufficiently low to prevent the actuation of any sprinkler system.

Air
temperature

5.16.2.6. Protective breathing apparatus shall be made available at the premises undergoing fumigation or thermal insecticidal fogging for all persons in case of emergency.

Breathing
apparatus

5.16.2.7.(1) No person shall be permitted to enter a premises undergoing fumigation or thermal insecticidal fogging until the premises has been ventilated and is safe for human occupancy.

Restricted
entrance

(2) Warning signs shall be posted in a conspicuous location near every entrance to the premises being fumigated.

SECTION 5.17 WELDING AND CUTTING

Subsection 5.17.1. General

5.17.1.1. The protection of persons and property from injury or damage by fire or other causes arising from electric and gas welding and cutting equipment, its installation, operation and maintenance, shall conform to CSA W117.2-1974, "Code for Safety in Welding and Cutting", and to the requirements in this Section.

Application

Subsection 5.17.2. Use and Maintenance of Equipment

5.17.2.1. The operation of acetylene generating systems and the storage and generation of welding fuel gases shall conform to NFPA 51-1977, "Oxygen-Fuel Gas Systems for Welding and Cutting", Chapter 6.

Fuel
gases

5.17.2.2. Acetylene gas shall not be piped through copper or high copper content alloy, tubing, piping or fittings.

Piping

5.17.2.3. Cylinders stored inside buildings shall conform to the requirements in Section 5.6.

Cylinder
storage

5.17.2.4. Gas fuel cylinders, whether full or empty, whose valves are not in a recessed or protected location shall have their caps in place and their valves tightly closed when not in actual use.

5.17.2.5. Torches, regulators, hoses and other oxyacetylene welding and cutting equipment which have been damaged shall not be used.

Damaged
equipment

5.17.2.6.(1) Welding equipment shall be **inspected** daily or prior to use for defects by personnel in charge of the equipment.

(2) Welding and cutting equipment shall be **tested** monthly for leaks with a leak test solution.

(3) Defects in equipment shall be made good before reusing.

5.17.2.7. Valves shall be closed and lines bled when equipment is not in actual use.

Equipment
not in use

5.17.2.8. Oil or grease shall not be used for lubrication of welding and cutting equipment.

Subsection 5.17.3. Prevention of Fires

5.17.3.1.(1) Welding and cutting operations in buildings shall be carried out in areas that are free of combustible and flammable contents, and that have walls, ceilings and floors of **noncombustible construction** or that are lined with noncombustible materials.

Location of
operations

(2) When it is not practicable to undertake welding and cutting operations in areas described in Sentence (1), combustible and flammable materials shall either be removed 11 m from the work area or otherwise protected against ignition by sheet metal, asbestos blankets or other noncombustible material.

5.17.3.2. When welding or cutting is to be carried out near piping containing flammable gas, the section of the piping located within 1 m of the torch shall be covered with wet noncombustible insulating material 6 mm thick.

Work
adjacent
to piping

5.17.3.3.(1) Welding or cutting of metal containers shall not be undertaken until the containers and compartments within such containers have been cleaned of flammable and combustible materials and checked with an explosion meter.

Work on
containers

(2) Welding or cutting operations shall not be undertaken on a totally enclosed container.

(3) Suitable portable extinguishers shall be provided in conformance with Section 6.2 where welding or cutting operations take place.

Portable
extinguishers

SECTION 5.18 INDUSTRIAL OVENS FOR BAKING AND DRYING PROCESSES

Subsection 5.18.1. Application

5.18.1.1. This Section applies to industrial baking and drying ovens which during operation contain flammable vapours given off by the products being baked or dried.

Application

Subsection 5.18.2. Location

5.18.2.1. Ovens shall not be located in any **storey** of a **building** below **grade**.

Subsection 5.18.3. Construction

5.18.3.1. Industrial ovens shall be constructed of noncombustible materials with smooth interior surfaces to permit cleaning.

Oven
materials

5.18.3.2. The roof and floor of ovens and heaters and associated ductwork shall have sufficient clearance or be insulated where necessary to prevent the temperature from exceeding 90°C at any combustible part of the **building** assembly.

Limiting
temperature
on combustible
construction

5.18.3.3.(1) Explosion vents shall be provided for ovens where fuel or vapour hazards are present.

Explosion
vents

(2) Explosion vents shall be designed in conformance with NFPA 91-1973, "Blower and Exhaust Systems" and shall have a venting ratio

- (a) of 0,2 m² of vent area for each cubic metre of oven volume, or

- (b) computed in accordance with NFPA 68-1978, "Guide for Explosion Venting", except in no case less than 650 cm² of vent area for each cubic metre of oven volume.

(3) Openings or access doors equipped with explosion release hardware shall be acceptable as explosion vents.

5.18.3.4.(1) Ducts, stacks and associated insulation in systems for the removal of flammable vapours shall

Duct and stack restrictions

- (a) be constructed of noncombustible materials,
(b) not pass through **firewalls**, and
(c) not discharge within 1.5 m of windows or within 6 m of other air intake openings.

Subsection 5.18.4. Ventilation

5.18.4.1. Ovens in which flammable vapours may be present or through which products of combustion are circulated shall be ventilated in accordance with NFPA 86A-1978, "Ovens and Furnaces".

Oven ventilation

5.18.4.2. Where flammable vapours may be present in ovens, interlocks shall be provided to ensure that energy sources and ignition devices are de-activated when the ventilating fans stop or the excess temperature controls are activated.

Fan interlocks

5.18.4.3. Where flammable vapours may be present in continuous process ovens, interlocks shall be provided to ensure that ventilating fans are operating before conveyors can be started and that the stopping of ventilating fans or activation of the excess temperature controls will stop the conveyors.

Subsection 5.18.5. Maintenance

5.18.5.1.(1) Ovens and associated ductwork shall be **inspected**, cleaned and maintained at intervals sufficient to prevent the accumulation of combustible deposits.

Cleaning of ovens and ductwork

(2) Access doors or panels shall be provided to permit **inspection**, cleaning and maintenance of ovens and associated ductwork.

(3) Fixed noncombustible ladders, steps or grab rails shall be provided to permit access to the doors or panels required in Sentence (2).

Subsection 5.18.6. Fire Protection

5.18.6.1. Portable extinguishers shall be provided in conformance with Part 6.

Portable extinguishers

5.18.6.2. A standpipe and hose system shall be installed in conformance with the **Building Code** and equipped with shutoff spray nozzles so that all parts of an oven structure can be reached by a hose stream.

Standpipe and
hose systems

5.18.6.3. Doors or other means of access shall be provided in ovens and associated ductwork so that portable extinguishers or hose streams may be used in all parts of the equipment.

Fire access
doors

5.18.6.4. Ovens containing or processing sufficient combustible materials to sustain a continuously burning fire shall be equipped with automatic sprinklers or other fixed fire extinguishing systems.

SECTION 6.2 PORTABLE EXTINGUISHERS

Subsection 6.2.1. General

6.2.1.1. Only ULC labelled portable extinguishers shall be installed when replacing or adding new extinguishers.

6.2.1.2. Portable extinguishers shall be kept operable and fully charged.

Maintenance

6.2.1.3.(1) Portable extinguishers shall be located so that they are easily seen and shall be accessible at all times.

Location

(2) A lockable, break-front glazed cabinet may be used for security purposes to store portable extinguishers and where portable extinguishers are located in a fire hose cabinet, an **approved** lockable, scored glass break-front cabinet may be used.

6.2.1.4. Portable extinguishers shall be located in or adjacent to corridors or aisles that provide **access to exits**.

6.2.1.5. The location of portable extinguishers shall be prominently indicated by signs or markings in large **floor areas** and in locations where visual obstructions cannot be avoided.

Signs

6.2.1.6. Portable extinguishers in proximity to a fire hazard shall be located in a position so as to be accessible without exposing the operator to undue risk.

6.2.1.7. Portable extinguishers that are subject to damage in a corrosive atmosphere shall not be installed where a corrosive atmosphere exists unless supplementary corrosion protection that will protect the portable extinguishers is provided.

Corrosive
atmospheres

6.2.1.8.(1) Where a portable extinguisher is to be located in an area subject to temperatures outside the range 4°C to 49°C it shall be

Temperature
range
requirements

- (a) placed in an enclosure where the temperature is maintained within this range, or
- (b) of a type labelled for the temperatures to which it will be exposed.

6.2.1.9. When portable extinguishers are located on vehicles or in areas where they are subject to jarring or vibration, brackets designed to accommodate these effects shall be used.

Mounting
brackets

Subsection 6.2.2. Classification

6.2.2.1. Portable extinguishers shall be rated and identified in conformance with National Standard of Canada CAN 4-S508-76 (ULC-S508-1975), "Rating and Fire Testing of Fire Extinguishers".

Rating of
extinguishers

Subsection 6.2.3. Selection Requirements

6.2.3.1. Where portable extinguishers have been **tested** and are rated as being acceptable for fighting more than one class of fire, each class of fire for which they are acceptable shall be designated on each extinguisher.

Multiple
ratings

Subsection 6.2.4. Installation Requirements

6.2.4.1.(1) Portable extinguishers shall be installed in every **building**.

Where
required

(2) The requirements of Sentence (1) do not apply to **dwelling units**.

6.2.4.2. Portable extinguishers with a gross weight greater than 18 kg shall be installed so that the top of the extinguisher is not more than 1.1 m above the floor when the extinguisher is not equipped with wheels.

Distance
above floor

6.2.4.3. Portable extinguishers having a gross weight of 18 kg or less shall be installed so that the top of the extinguisher is not more than 1.5 m above the floor.

6.2.4.4. The operating instructions of portable extinguishers shall face outward when the extinguishers are located in cabinets, in wall recesses or on shelves.

Operating
instructions

Subsection 6.2.5. Grading of Hazards

6.2.5.1. Where the quantity of combustible material present is such that fires of small size may be expected, such as in offices, schoolrooms, churches, assembly halls and telephone exchanges, the **occupancy** shall be graded as light hazard.

Light hazard
occupancy

6.2.5.2. Where the quantity of combustible material present is such that fires of moderate size may be expected, such as in **mercantile occupancies**, display rooms, auto showrooms, parking garages, light manufacturing, warehouses not classified as extra hazard and school shop areas, the **occupancy** shall be graded as ordinary hazard.

Ordinary
hazard
occupancy

6.2.5.3. Where the quantity of combustible material present is such that fires of severe magnitude may be expected, such as in woodworking, auto repair, aircraft servicing, mercantile storage areas, warehouses with high-piled combustibles and processes incorporating **flammable liquids**, the **occupancy** shall be graded as extra hazard.

Extra hazard
occupancy

Subsection 6.2.6. Distribution

6.2.6.1.(1) Portable extinguishers shall be provided to protect the **building** and each hazardous **occupancy** in the **building** in conformance with this Subsection.

(2) Notwithstanding Sentence (1), in an unoccupied warehouse equipped with a fixed fire protection system, provision shall be made for portable extinguishers to be available for use by responding personnel.

(3) The location and number of portable extinguishers required under Sentence (2) shall be **approved**.

6.2.6.2. Portable extinguishers that are provided to protect a **building** shall be suitable for fighting **Class A fires** and be available for use at all times.

Building
protection

6.2.6.3. Portable extinguishers that are provided to protect a hazardous **occupancy** shall be those required in this Section for fighting **Class A, B, C or D fires**.

Occupancy
protection

6.2.6.4. Except as required in Article 6.2.6.5., portable extinguishers for **Class A fires** shall be provided in conformance with Table 6.2.6.A.

Extinguishers
for Class A
fires

6.2.6.5. Where a **floor area** is less than that shown in Table 6.2.6.A., one portable extinguisher not less than the minimum size permitted shall be provided.

extinguishers

6.2.6.7. Except as provided in Article 6.2.6.8., portable extinguishers for **Class B fires** shall be provided as required in Table 6.2.6.B.

Extinguishers
for Class B
fires

6.2.6.8.(1) Where up to 3 portable extinguishers rated for **Class B fires** are used to satisfy the extinguisher rating specified in Table 6.2.6.B., the sum of the basic extinguisher ratings shall satisfy the requirements in Table 6.2.6.B.

(2) No more than 3 portable extinguishers shall be used to satisfy the requirements of Table 6.2.6.B.

6.2.6.10.(1) Where up to 3 foam-type portable extinguishers rated for **Class B fires** are used to satisfy the requirements of Article 6.2.6.9., the sum of the basic extinguisher ratings shall satisfy the requirements in Table 6.2.6.B.

(2) No more than 3 portable extinguishers shall be used to satisfy the requirements of Table 6.2.6.B.

6.2.6.11. Portable extinguishers shall supplement fixed fire protection in Part 5 in accordance with Article 6.2.6.9. where a **flammable or combustible liquid** is stored in an open container and where the liquid surface area exceeds 0.4 m².

Supplementary protection

6.2.6.12. Alkali base, dry chemical portable extinguishers shall be provided to protect commercial cooking equipment.

Extinguishers for commercial cooking equipment

6.2.6.13. Portable extinguishers suitable for **Class C fires** shall be provided in or near service rooms containing electrical equipment.

Extinguishers for Class C fires

6.2.6.14. Distribution of portable extinguishers for **Class C fires** shall conform to the applicable provisions for the distribution of extinguishers for **Class A** or **Class B fires** in the vicinity of the electrical equipment.

Distribution

6.2.6.15. Reference shall be made to Parts 2, 3, 4 and 5 for requirements of portable extinguishers for **flammable and combustible liquids**, hazardous materials, processes and operations.

Subsection 6.2.7. Inspection, Testing and Maintenance

6.2.7.1.(1) Except as set out in Sentence (2), maintenance and **testing** of portable extinguishers shall be in conformance with NFPA 10-1978, "Portable Fire Extinguishers".

(2) The requirements in Article 5-1.4. and in Note 1 to Table 5-3 of NFPA 10-1978 do not apply.

6.2.7.2. Portable extinguishers shall be **inspected** monthly.

Examination

6.2.7.3. Portable extinguishers having defects shall be repaired or recharged where necessary.

Defective extinguishers

6.2.7.4. Each portable extinguisher shall have a tag securely attached to it showing the maintenance or recharge date, the servicing agency and the signature of the person who performed the service.

Tags

6.2.7.5. A permanent record containing the maintenance date, the examiner's name and a description of any maintenance work or hydrostatic **testing** carried out shall be prepared and maintained for each portable extinguisher.

Maintenance records

6.2.7.6. Portable extinguishers shall be replaced and recharged after use in conformance with instructions given on the extinguisher nameplate.

Maintenance after use

6.2.7.7. Extinguisher shells, cartridges or cylinders that show leakage or permanent distortion in excess of specified limits or that rupture shall be removed from service.

6.2.7.8. Hydrostatic pressure **tests** shall be conducted at the original test pressure as stated on the nameplate.

6.2.7.9.(1) Where a portable extinguisher is **tested**, a label shall be fixed to the extinguisher after **testing** that indicates the month and year the hydrostatic pressure **test** was performed, the test pressure used and the name of the person or agency performing the **test**.

Test labels

(2) Sentence (1) does not apply where a permanent record of the **test** is kept and is available to the **fire department**.

SECTION 6.3

FIRE ALARM AND VOICE COMMUNICATION SYSTEMS FOR LIFE SAFETY

Subsection 6.3.1.

General

6.3.1.1. Access to fire alarm and voice communication system components requiring **inspection** or servicing shall be kept unobstructed.

Access

6.3.1.2. Proprietary signalling systems shall be maintained in accordance with NFPA 72D-1975, "Installation, Maintenance and Use of Proprietary Protective Signalling Systems for Guard, Fire Alarm and Supervisory Service".

6.3.1.3. When a fire alarm or voice communication system or any part thereof is shut down, the **supervisory staff** shall be notified in accordance with Section 2.8.

6.3.1.4. Fire alarm and voice communication systems shall be maintained in operating condition.

6.3.1.5.(1) Once activated, a fire alarm system shall not be manually silenced unless it has been confirmed by **supervisory staff**, in accordance with **approved** procedures as detailed in the fire safety plan, that no fire emergency exists.

Signal
silencing

(2) Sentence (1) does not apply where a silencing switch is part of an **approved** integrated voice communication system and signal silencing takes place to allow fire emergency instructions to be heard.

Subsection 6.3.2.

Check, Inspect and Test

6.3.2.1. Fire alarm systems shall be subject to the requirements of Section 4: "Periodic Testing of Fire Alarm Systems", of ULC-S536-1979, "Standard for the Testing, Inspection and Maintenance of Existing Fire Alarm Systems".

Intervals
between
tests

6.3.2.2. The central alarm and control facility shall be **checked** daily to ensure that no trouble is indicated in the system.

Central alarm and control facilities

6.3.2.3.(1) Voice communication to and from floor areas to the central alarm and control facility shall be **tested** monthly and yearly as required for fire alarm initiating devices, as prescribed in Article 6.3.2.1.

Voice communication systems

(2) Loudspeakers operated from the central alarm and control facility shall be **tested** monthly and yearly as required for fire alarm audible signalling devices, as prescribed in Article 6.3.2.1.

(3) A voice communication system is not required to be **tested** in conformance with Sentences (1) and (2) where the system is used as part of a paging system.

SECTION 6.4

STANDPIPE AND HOSE SYSTEMS

Subsection 6.4.1.

General

6.4.1.1. During alteration of a building required to have a standpipe and hose system, the system shall be installed or dismantled progressively so as to provide protection to all **floor areas**.

6.4.1.2. Standpipe and hose systems shall be maintained in operating condition.

6.4.1.3.(1) **Fire department** connections shall be equipped with plugs or caps secured wrench tight.

Fire department connections

(2) Plugs or caps shall be removed annually and the threads **inspected** for wear, rust or obstruction.

6.4.1.4. When the standpipe and hose system or any part thereof is shut down, the **supervisory staff** shall be notified in accordance with Section 2.8.

Out of service requirements

Subsection 6.4.2.

Maintenance and Inspection of Hose Stations and Equipment

6.4.2.1. Hose stations shall be **inspected** monthly to ensure that the hose is in proper position and that all of the equipment is in place and in operable condition.

Hose stations

6.4.2.2. Standpipe and hose system equipment shall be used for fire protection only.

6.4.2.3. Standpipe hose stations shall be conspicuously identified and unobstructed.

6.4.2.4. Hose valves shall be **inspected** annually to ensure that they are tight so that there is no water leakage into the hose.

Hose valves

6.4.2.5.(1) Standpipe hose shall be **inspected** and re-racked annually and after use, and any worn hose or gaskets in the couplings at the hose valves and at the nozzle replaced.

Hose

(2) When hose is re-racked as required in Sentence (1), it shall be done so that any folds will not occur at the same places.

6.4.2.6. Each hose connection in a dry standpipe system shall be provided with a legible weatherproof sign reading: "DRY STANDPIPE FOR FIRE DEPARTMENT USE ONLY".

Dry
standpipe
identification

Subsection 6.4.3.

Testing

6.4.3.1.(1) Standpipe systems that have been modified, extended or are being restored to service after a period of disuse exceeding 1 year shall be **tested** in conformance with Articles 6.4.3.2. to 6.4.3.5.

Standpipe
systems

(2) Where standpipe connections are built in walls or **partitions**, the **tests** shall be made before the standpipes are concealed.

6.4.3.2. Standpipe system piping shall be hydrostatically **tested** at a pressure of not less than 1400 kPa (gauge) for 2 hr, or at 350 kPa (gauge) in excess of the normal hydrostatic pressure when the normal hydrostatic pressure is in excess of 1050 kPa (gauge).

6.4.3.3. Piping between the **fire department** connection and the check valve in the inlet pipe to the standpipe shall be **tested** in the same manner as the remainder of the system.

Fire
department
connections

6.4.3.4.(1) Underground mains and connections shall be **tested** for 2 hr at a hydrostatic pressure of 350 kPa (gauge) in excess of the maximum hydrostatic pressure in service but not less than 1400 kPa (gauge).

Underground
mains

(2) Leakage during the **test** shall not exceed 2 L per hour per 100 joints for pipe laid with rubber gasketed joints, and 30 mL per hour per 25 mm of pipe diameter per joint for pipe laid with caulked lead or lead substitute joints.

6.4.3.5. Flow and pressure **tests** shall be conducted at the highest and most remote hose valve or hose connection to ensure that the water supply for standpipes is provided as originally designed.

Flow and
pressure
tests

6.4.3.6. Standpipe system piping which normally remains dry shall be **tested** in conformance with Article 6.4.3.2. at intervals of not more than 5 years.

Dry
standpipes

SECTION 6.5

SPRINKLER SYSTEMS

Subsection 6.5.1.

General

6.5.1.1. Repair, replacement and alterations of sprinkler system components shall be in accordance with NFPA 13-1983, "Standard for Installation of Sprinkler Systems".

6.5.1.2. Sprinkler systems shall be maintained in operating condition.

6.5.1.3. Sprinkler control valves shall not be closed in the event of a fire until the fire is extinguished or is considered to be under control by other means, as determined by the **fire department** or by an industrial fire brigade established by the owner in consultation with the **fire department**.

Closing
sprinkler
control
valves

6.5.1.4. Changes in equipment or **occupancy**, that might result in temperatures at sprinklers being more than 38°C or less than 4°C with wet pipe systems, shall not be made without previously making provisions to alter the sprinkler system to prevent premature operation or freezing.

Changes
in
equipment or
occupancy

6.5.1.5.(1) No obstructions shall be placed so as to interfere with the effectiveness of water discharge from sprinklers.

Obstructions

(2) Sprinkler systems shall not be used to support anything that will interfere with effective sprinkler system performance.

6.5.1.6.(1) Where alterations or repairs are made to feed mains, cross mains, or risers in existing systems, sprinkler systems shall be **tested** in conformance with Sentences (2) to (8).

(2) Except as permitted in Sentence (4), the sprinkler system shall be subjected to a hydrostatic pressure **test** of a minimum of 1400 kPa (gauge), or 350 kPa (gauge) in excess of the maximum static pressure to which the system may be subjected, for a period of 2 hr without loss of pressure.

(3) For dry-pipe systems, the clapper of the differential type dry-pipe valve shall be held off its seat, and the ball drip in the intermediate chamber shall be replaced by a plug during the **test**.

Dry-pipe
system
testing

(4) At seasons of the year that will not permit hydrostatic pressure **testing**, the sprinkler system shall be pressure **tested** with air at 350 kPa (gauge) for 2 hr without loss of pressure, and the **tests** described in Sentence (2) performed when hydrostatic pressure **testing** can be performed without danger of freezing.

Air
testing

(5) Sprinkler system water pressure shall be **tested** with the main drain valve fully open.

(6) Drainage facilities shall be **tested** to ensure that the drains are capable of taking the full flow from the main drain pipe without overflowing.

(7) Dry-pipe valves shall be **tested** to ensure that they are in operative condition.

Dry-pipe
valve testing

(8) Mechanical and electrical alarms shall be **tested** to ensure that they are in operative condition.

Alarm testing

6.5.1.7.(1) When alterations or additions are made to underground mains and lead-in connections of an existing sprinkler system, the mains and lead-in connections shall be **tested** by

- (a) flushing for sufficient time to remove foreign material at a minimum water flow as specified in Table 6.5.1.A., and
- (b) a 2 hr hydrostatic pressure **test** of 350 kPa (gauge) in excess of the maximum static pressure, but not less than 1400 kPa (gauge) and leakage shall not exceed 2 L per hour per 100 joints for pipe laid with rubber gasketed joints, and 30 mL per hour per 25 mm of pipe diameter per joint for pipe laid with caulked lead or lead substitute joints.

(2) At seasons of the year that will not permit hydrostatic pressure **testing**, the procedure outlined in Sentence 6.5.1.6.(4) may be followed.

6.5.1.8.(1) An **approved** record shall be kept of **inspections** of each system.

Records

(2) The record required in Sentence (1) shall be available for examination by the **Chief Fire Official**.

6.5.1.9. If any device in a sprinkler system does not operate or appear to operate properly when **checked, inspected or tested**, it shall be repaired or replaced.

Subsection 6.5.2. Sprinkler System Shutdowns

6.5.2.1. When any alterations, additions or repairs are to be made involving interruption to a sprinkler system or part thereof, the **Chief Fire Official** shall be notified.

Notification

6.5.2.2. Sprinkler control valves and sprinkler water supplies shall not be shut down, disconnected or otherwise impaired for more than 24 hours without notifying the **Chief Fire Official**.

6.5.2.3. Where it is required to temporarily shut down a sprinkler system or part thereof, the work shall be programmed by the contractor working on the system to enable the sprinkler system to be operational as quickly as possible in the circumstances.

6.5.2.4. When a sprinkler system or part thereof is shut down, the **supervisory staff** shall be notified in accordance with Section 2.8.

Programmed repairs

6.5.2.5. Full sprinkler protection shall be restored or the provisions of Article 6.5.2.6. maintained when work on the system is discontinued.

Additional protection during shutdowns

6.5.2.6. Closed sprinkler control valves shall be tagged or identified in an **approved** manner.

Identification of closed valves

Subsection 6.5.3. Checking

6.5.3.1. Valves, except for electrically supervised valves, controlling water supplies to sprinklers and alarm connections shall be **checked** weekly to ensure that they are in the open position.

Sprinkler control valves

6.5.3.2. Exposed sprinkler piping hangers shall be **checked** yearly to ensure that they are kept in good repair.

6.5.3.3. Air pressure in dry-pipe systems shall be **checked** weekly by using gauges to ensure that the system is maintained at the required operating pressure.

Dry-pipe system maintenance

6.5.3.4. Dry-pipe valve rooms or enclosures in unheated **buildings** shall be **checked** as often as necessary when the outside temperature falls below 0°C to ensure that the system does not freeze.

6.5.3.5.(1) Sprinkler heads shall be **checked** at least once per year to ensure that they are free from damage, corrosion, grease, dust, paint or whitewash.

Sprinkler inspection

(2) Sprinkler heads that are identified as inoperable in Sentence (1) shall be replaced where necessary as a result of such conditions.

Subsection 6.5.4. Inspection

6.5.4.1. Auxiliary drains shall be **inspected** to prevent freezing.

Winter
damage

6.5.4.2. Dry-pipe systems shall be **inspected** every 15 years for obstructions in the sprinkler piping and, if necessary, the entire system flushed of foreign material.

Test
flushing

6.5.4.3. The priming water for dry-pipe systems shall be **inspected** annually to ensure that the proper level above the dry-pipe valve is maintained.

Priming
water
level

6.5.4.4.(1) **Fire department** connections shall be equipped with plugs or caps secured wrench tight.

(2) Plugs or caps shall be removed annually and the threads **inspected** for wear, rust or obstruction.

Subsection 6.5.5. Testing

6.5.5.1. Prior notification of waterflow or other **tests** to be made to a sprinkler system shall be given to parties who could be affected by an alarm.

Notification

6.5.5.2. An alarm **test** using the alarm test connection located at the sprinkler valve shall be performed monthly on sprinkler systems.

6.5.5.3. Waterflow alarm **tests** using the most hydraulically remote test connection shall be performed annually on wet sprinkler systems.

Waterflow
alarm
tests

6.5.5.4. Dry-pipe valves shall be trip **tested** annually by means of the system test pipe to ensure that they operate satisfactorily and that the sprinkler alarms are in operating condition.

Trip
testing
of valves

6.5.5.5. Sprinkler system water pressure shall be **tested** annually with the main drain valve fully open to ensure that there are no obstructions or deterioration of the main water supply.

Water
supply

6.5.5.6. The **test** prescribed in Article 6.5.5.5. shall be conducted after any sprinkler system control valve has been operated.

6.5.5.7.(1) Where an electrical supervisory signal service is provided for a sprinkler system, it shall be **tested** in conformance with Sentences (2) and (3).

Electrical
supervision
signal testing

(2) Transmitters and waterflow actuated devices shall be **tested** every 2 months.

(3) Valve supervisory switches, tank water level devices, **building** and tank water temperature supervisory devices and other sprinkler system supervisory devices shall be **tested** at least every 6 months.

Subsection 6.5.6.

Maintenance

6.5.6.1. Sprinklers shall be protected by sprinkler guards where there is the possibility of mechanical damage.

Sprinkler
guards

6.5.6.2. Sprinkler control valves shall be accessible and maintained in operable condition at all times.

6.5.6.3. Pits containing sprinkler control valves shall be kept free of water and protected against freezing.

6.5.6.4.(1) Except as permitted in Sentence (2), sections of sprinkler systems subject to freezing shall be converted to a dry-pipe or antifreeze system with a separate control valve for that part of the system.

Precautions
against
freezing

(2) Alternative methods to prevent freezing of sprinkler piping may be used where **approved**.

6.5.6.5.(1) Where sprinkler systems are installed, a supply of spare sprinkler heads and equipment shall be maintained in conformance with Sentences (2) to (5).

Spare
sprinkler
heads

(2) Spare sprinkler heads shall be kept in a cabinet where the temperature does not exceed 38°C.

(3) The minimum stock of spare sprinkler heads to be kept on hand shall be

- (a) 6 sprinkler heads for installations containing not more than 300 sprinklers,
- (b) 12 sprinkler heads for installations containing from 301 to 1000 sprinklers, and
- (c) 24 sprinkler heads for installations containing more than 1000 sprinklers.

(4) Spare sprinkler heads shall correspond to the types and temperature ratings of the sprinklers installed on the system.

(5) A wrench suitable for replacing sprinkler heads shall be kept in the cabinet where the spare sprinkler heads are stored.

Sprinkler
wrench

SECTION 6.6

WATER SUPPLIES FOR FIRE PROTECTION

Subsection 6.6.1.

General

6.6.1.1. Private and public water supplies for fire protection installations shall be maintained to provide the required flow under fire conditions.

6.6.1.2. Valves controlling water supplies used exclusively for fire protection systems shall be **inspected** weekly to ensure that they are wide open and are sealed or locked in that position.

Valve
inspections

6.6.1.3. Water supply systems used for fire protection shall be kept free of ice accumulations that may interfere with flow.

Ice
accumulations

6.6.1.4. Where antifreeze solutions are used to maintain pumping systems operable under freezing conditions, the specific gravity shall be such that the solution will remain unfrozen at a temperature of 8°C below the expected minimum temperature of the surrounding atmosphere.

Antifreeze
pumping
systems

Subsection 6.6.2. Tanks

6.6.2.1. An annual **inspection** shall be made of tanks for fire protection, tank supporting structures and water supply systems including piping, control valves, check valves, heating systems, mercury gauges and expansion joints to ensure that they are in operating condition.

Tank
inspections

6.6.2.2. Tank heating equipment and accessories shall be **checked** daily during freezing weather to ensure that they are in operating condition and that heater valves are open.

Tank
heating
equipment

6.6.2.3. A daily **check** of the temperature of the water contained in tanks shall be carried out during freezing weather to ensure that it does not fall below the freezing temperature.

Water
temperature
checks

6.6.2.4. A daily **check** of the temperature of the tank enclosure for tanks in **buildings** shall be carried out during freezing weather to ensure that the temperature of the tank enclosure does not fall below 0°C.

Tank
enclosure
temperature
checks

6.6.2.5. Steel and iron work including the inside and outside of steel tanks and hoops and grillages for wooden tanks shall be **checked** for corrosion at intervals of at least 2 years and scraped and repainted as required.

Check for
corrosion

6.6.2.6.(1) Tanks, other than tanks supplied by a potable water supply, shall be **inspected** for accumulations of sediment at least every 2 years and cleaned as required.

Inspection
for
sediment

(2) Tanks supplied by a potable water supply shall be **inspected** every 5 years and scraped and repainted as required.

6.6.2.7. Where cathodic protection equipment is installed to prevent corrosion of steel tanks, the equipment shall be **inspected** annually.

Inspection
of
cathodic
protection

6.6.2.8. The water level in gravity tanks shall be **inspected** monthly.

Water level
in gravity tanks

6.6.2.9. Gravity tanks shall be **inspected** annually to ensure that the tank roof is tight and in good repair, that hatches or doors are kept closed and properly secured and that the frostproof casing of the tank riser makes a tight joint with the bottom of the tank.

Gravity tanks

6.6.2.10. The space between overflow pipes and the tops of gravity tanks, the valve pits at the bottoms of the risers and the entire area around the bases of the columns of tanks shall be kept free of rubbish and waste materials.

6.6.2.11. Gravity tank expansion joints shall be repacked and adjusted if binding or leaks develop.

6.6.2.12. The water level and air pressure for pressure tanks shall be **checked** weekly.

Pressure tanks

6.6.2.13. Relief valves on the air and water supply lines of pressure tanks shall be **inspected** weekly.

Subsection 6.6.3. Fire Pumps and Reservoirs

6.6.3.1. The water level in the fire pump reservoir shall be **checked** weekly.

Fire pump reservoirs

6.6.3.2. The temperature of pump rooms shall be **checked** daily during freezing weather.

Pump room temperature

6.6.3.3.(1) Fire pumps shall be operated at least once per week at rated speed.

Inspection of fire pumps

(2) The fire pump discharge pressure, suction pressure, lubricating oil level, operative condition of relief valves, priming water level and general operating conditions shall be **inspected** during the weekly operation of fire pumps.

6.6.3.4.(1) Internal combustion engine fire pumps shall be operated once a week for a sufficient time to bring the engine up to normal operating temperature.

Internal combustion engine inspection

(2) The storage batteries, lubrication systems, oil and fuel supplies shall be **inspected** once a week.

6.6.3.5. Fire pumps shall be **tested** annually at full rated capacity to ensure that they are capable of delivering the rated flow.

Fire pump flow tests

6.6.3.6.(1) Records shall be kept of fire pump flow **tests**.

(2) The records required in Sentence (1) shall be available for inspection by the **Chief Fire Official**.

Subsection 6.6.4. Hydrants

6.6.4.1. Municipal and private hydrants shall be maintained in operating condition.

Hydrants

6.6.4.2. Hydrants shall be maintained free of snow and ice accumulations.

6.6.4.3. Hydrants shall be readily available and unobstructed for use at all times.

Subsection 6.6.5. Inspection of Hydrants

6.6.5.1. Hydrants shall be **inspected** annually and after each use in accordance with Articles 6.6.5.2. to 6.6.5.5.

6.6.5.2. The port caps on hydrants shall be removed and the threads **inspected** for wear, rust or other obstructions and resecured at the end of the inspection.

6.6.5.3. The hydrant barrel shall be **inspected** to ensure that no water has accumulated within the barrel when the main valve is in the closed position.

6.6.5.4. Where the hydrant barrel is found to contain water under Article 6.6.5.3., the drain valve shall be **inspected** for operation.

6.6.5.5. Where the hydrant barrel is found to contain water because of poor drainage that cannot be corrected, provisions shall be made to prevent freezing during winter conditions.

6.6.5.6. Hydrant water flow shall be **inspected** annually in accordance with Article 6.6.5.7.

Hydrant
water
flow

6.6.5.7. The main valve of the hydrant shall be fully opened and the hydrant operated with one port open and the water flow **checked**.

6.6.5.8. A record of the hydrant operation as described in Article 6.6.5.7. shall be kept in conformance with Article 1.1.2.1.

Subsection 6.6.6. Uniform Marking of Hydrants

6.6.6.1. Hydrants shall be colour-coded in accordance with NFPA 291-1977, "Fire Flow Testing and Marking of Hydrants".

Hydrant
marking

SECTION 6.7 EMERGENCY POWER SYSTEMS

Subsection 6.7.1. General

6.7.1.1.(1) Except as provided in Articles 6.7.1.2. to 6.7.1.5., emergency power systems shall be **inspected, tested** and maintained in conformance with CSA C282-1977, "Emergency Electrical Power Supply for Buildings".

(2) When an emergency power system or any part thereof is shut down, the **supervisory staff** shall be notified in accordance with Section 2.8.

6.7.1.2. Where an emergency power system is installed, instructions shall be provided for switching on essential loads and for starting the generator when this is not done automatically.

Instructions
for switching
and starting

6.7.1.3. Notwithstanding the requirements of Article 1.1.2.1., written records shall be maintained as required in CSA C282-1977, "Emergency Electrical Power Supply for Buildings".

Inspection
and testing

6.7.1.4. The amount of fuel stored and connected to the emergency power system shall be sufficient to operate the engine for 8 hr.

Fuel supply

6.7.1.5.(1) Liquid fuel **storage tanks** shall be drained and refilled with a fresh supply at least once a year.

(2) The requirements of Sentence (1) may be achieved by replenishment as the result of the normal weekly **test** program required in Article 6.7.1.1.

SECTION 6.8 SPECIAL EXTINGUISHING SYSTEMS

Subsection 6.8.1. General

6.8.1.1.(1) Except as otherwise provided in this Section, where special extinguishing systems have been installed, **inspection** and maintenance shall be provided in conformance with the appropriate Standards listed in Clauses (a) to (i):

Inspection
and
maintenance

- (a) NFPA 11-1983, "Low Expansion Foam and Combined Agent Systems",
- (b) NFPA 11A-1976, "High Expansion Foam Systems",
- (c) NFPA 12-1980, "Carbon Dioxide Extinguishing Systems",
- (d) NFPA 12A-1980, "Halon 1301 Fire Extinguishing Systems",
- (e) NFPA 12B-1980, "Halon 1211 Fire Extinguishing Systems",
- (f) NFPA 15-1979, "Water Spray Fixed Systems for Fire Protection",
- (g) NFPA 16-1980, "Deluge Foam-Water Sprinkler Systems and Foam-Water Spray Systems",
- (h) NFPA 17-1980, "Dry Chemical Extinguishing Systems", or
- (i) NFPA 18-1979, "Wetting Agents".

(2) When a special extinguishing system or any part thereof is shut down, the **supervisory staff** shall be notified in accordance with Section 2.8.

6.8.1.2. Written records shall be kept of **inspections**, maintenance and **testing** in conformance with Article 1.1.2.1.

Test
records

6.8.1.3. Operating and maintenance instructions shall be posted in proximity to the equipment and located near manual controls when the controls are provided.

Operating
and maintenance
instructions

6.8.1.4. Valves and controls shall be marked to clearly indicate their function and be accessible at all times.

Valves and
controls

6.8.1.5. Extinguishing agent containers provided for special extinguishing systems shall be fully charged with the proper quantity of extinguishing agent and the necessary operating pressure maintained.

Container
maintenance

6.8.1.6. Discharge outlets for special extinguishing systems shall be kept free of dirt and residue.

Discharge
outlets

6.8.1.7. Piping and equipment shall be mechanically secure and accessible for cleaning and maintenance.

Piping

6.8.1.8. No replacement equipment and devices provided for special extinguishing systems shall be used unless suitable for the installation in which they are to be placed.

Replacement
equipment

SECTION 7.1 GENERAL

Subsection 7.1.1. General

7.1.1.1. This Part provides for the **checking, inspection, testing** and maintenance of fire emergency systems installed in high buildings as defined in Subsection 3.2.6. of the **Building Code**.

Application

7.1.1.2. A fire safety plan as described in Section 2.8 shall be maintained for every building subject to the provisions of this Section.

Fire safety plan

7.1.1.3. RESERVED

7.1.1.4. Fire emergency systems required by Subsection 3.2.6. of the **Building Code** shall be **tested** in conformance with the provisions of Sections 7.2 and 7.3.

Testing fire emergency systems

7.1.1.5. RESERVED

7.1.1.6.(1) In addition to the requirements of Part 6, components of fire emergency systems shall be maintained in conformance with Sentences (2) to (6).

Maintenance of fire emergency systems

(2) The keys required to recall elevators and to permit independent operation of each elevator shall be kept in the location required by Subsection 3.2.6. of the **Building Code**.

(3) The firefighters' elevator identification required in Subsection 3.2.6. of the **Building Code** shall be maintained in identifiable condition.

(4) Access to windows and panels required to vent **floor areas** and vents to vestibules permitted to be manually openable shall be kept free of obstructions.

(5) Windows and panels provided for venting **floor areas** shall be maintained so as to be openable without the use of keys.

(6) Vents to vestibules permitted to be manually openable shall be maintained in an operable condition.

SECTION 7.2 INSPECTION, TESTING AND MAINTENANCE

Subsection 7.2.1. Intervals Between Tests

7.2.1.1. Unless otherwise specifically prescribed in this Part, **tests** shall be carried out at intervals of not more than 3 months.

7.2.1.2. Firefighters' elevators required in Subsection 3.2.6. of the **Building Code** and elevators required by Clause 2.8.2.4.(1)(b) of this Code shall be maintained in operable condition.

Subsection 7.2.2.

Elevators

Testing

7.2.2.1.(1) Elevator door-opening devices operated by means of photo-electric cells shall be **tested** to ensure that the devices become inoperative after the door has been held open for more than 10 s with the photo-electric cell covered.

(2) Key-operated switches located outside an elevator shaft shall be **tested** to ensure that actuation of the switch will render the emergency stop switch in each car inoperative and bring all cars to the **street** floor or transfer lobby by cancelling all other calls after the car has stopped at the next floor at which it can make a normal stop.

(3) Key-operated switches in each elevator car shall be **tested** to ensure that actuation of the switch will

- (a) enable the elevator to operate independently of other elevators,
- (b) allow operation of the elevator without interference from floor call buttons,
- (c) render door protective devices inoperative, and
- (d) control the opening of power-operated doors only by continuous pressure on the door opening buttons or switches, to ensure that if the "open" button or switch is released while the door is opening, the doors will automatically close.

Subsection 7.2.3.

Venting to Aid Fire Fighting

Inspection

7.2.3.1.(1) **Closures** in vent openings into smoke shafts from each **floor area** shall be **inspected** sequentially over a period not to exceed 5 years.

(2) Every **closure** in an opening to the outdoors at the top of a smoke shaft shall be **inspected** annually to ensure that it will open

- (a) manually from outside the **building**,
- (b) on a signal from the smoke or heat actuated device in the smoke shaft, and
- (c) when a **closure** in an opening between a **floor area** and the smoke shaft opens.

(3) In addition to the procedures described in Sentences (1) and (2), elevators in an elevator shaft that is intended for use as a smoke shaft shall be **inspected** semi-annually to ensure that on activation of the fire alarm system they will return to the **street** floor and remain inoperative.

(4) Controls for air-handling systems used for venting in the event of a fire shall be **inspected** annually to ensure that air is exhausted from each **floor area** to the outdoors as required in Sentence 3.2.6.5.(2) of the **Building Code**.

Subsection 7.2.4. Central Alarm and Control Facilities and Voice Communication Systems for Life Safety

7.2.4.1. The **checking, inspecting and testing** of central alarm and control facilities and voice communication systems for life safety shall be carried out in accordance with the requirements of Section 6.3.

SECTION 7.3 INSPECTIONS AND TESTS FOR SMOKE CONTROL EQUIPMENT

Subsection 7.3.1. General

7.3.1.1. Smoke control equipment provided in **buildings** under provisions of the **Building Code** shall be maintained in a manner to ensure that they are fully operational.

7.3.1.2. Where smoke control measures contained in the Supplement to the National Building Code of Canada 1985, Chapter 3 "Measures for Fire Safety in High Buildings" are used, the **inspections and tests** shall be carried out as outlined in Section 7.3 of the National Fire Code of Canada 1985.

7.3.1.3. Where a smoke control system is designed to meet the requirements of Sentences 3.2.6.2.(2), (3) and (4) of the **Building Code**, the **inspections and tests** for equipment shall be carried out in accordance with procedures established by the designer of the system.

Subsection 8.1.1.

Subsection 8.1.2.

GENERAL

Application

Requirements

SECTION 8.1

GENERAL

Subsection 8.1.1.

Application

8.1.1.1. This Part applies to the prevention or control of fire during any **demolition** and the protection from fire of adjacent occupied spaces and adjoining properties.

Application

Subsection 8.1.2.

Requirements

8.1.2.1. Existing **building** services that may be affected by **demolition** so as to cause a fire hazard shall be protected or be shut off and capped.

Building
services

8.1.2.2.(1) During periods when **demolition** operations will create a fire hazard to neighbouring properties or partially occupied spaces, a firewatch shall be provided.

Firewatch

(2) Where a firewatch is required, the **demolition** site shall be toured at least once each hour.

(3) The firewatch personnel shall be provided with a means of communication with the **fire department**, and be equipped with portable illumination and protective equipment.

8.1.2.3. Combustible salvage, combustible waste material and rubbish shall not be permitted to accumulate on site in such quantity or such location as to cause a fire hazard.

Storage of
combustible
salvage

8.1.2.4. Rubbish shall not be burned on the premises unless permitted in accordance with Article 2.6.3.4.

Removal of
combustible
waste

8.1.2.5. Electric or gas welding and cutting equipment and the installation, operation and maintenance of electric or gas welding and cutting equipment shall be carried out in conformance with the requirements of Section 5.17.

Welding and
cutting

8.1.2.6.(1) During the **demolition** of any **building** with a standpipe system, the standpipe system complete with **fire department** connections, valves, couplings and hose, shall be maintained two floors below the level of the floor being demolished.

Standpipe
systems

(2) Where no fire department standpipe connections exist in **buildings 4 storeys** or more in **building height** in **buildings** under **demolition**, a temporary connection shall be provided.

(3) In **buildings** not equipped with a standpipe system and over **8 storeys** in **building height**, a temporary standpipe shall be provided.

(4) Standpipe systems shall be kept in such condition that they may be connected near street level, to a **fire department** pump, so as to supply water to every outlet on each floor.

(5) In buildings over 84 m in building height, standpipe systems provided in buildings under demolition shall be connected to street watermains.

8.1.2.7.(1) Fire fighting access routes shall be maintained in conformance with Section 2.5.

(2) Elevating devices shall be accessible for the use of firefighters for buildings more than 36 m in building height, measured between grade and the floor level of the top storey.

8.1.2.8.(1) Portable extinguishers shall be provided in buildings under demolition in conformance with Subsection 6.2.6, as if the building were graded for ordinary hazard under Subsection 6.2.5.

Portable
extinguishers

(2) Portable extinguishers required under Sentence (1) shall be maintained in conformance with Section 6.2.

SECTION 9.1 GENERAL

Subsection 9.1.1. Scope

9.1.1.1. This Part provides for the upgrading of **existing buildings**. Scope

Subsection 9.1.2. Application

9.1.2.1. The requirements for **buildings** that are covered by this Part shall be determined by their **occupancies** as regulated in the appropriate Sections herein. Application

9.1.2.2. This Part does not apply to **buildings** or parts thereof that satisfy the requirements of the **Building Code**.

9.1.2.3.(1) The requirements of this Part shall be satisfied

- (a) under Subsection 9.1.3., or
- (b) by implementing a Life Safety Study that has been **approved** under Subsection 9.1.4.

Subsection 9.1.3. Schedule of Compliance

9.1.3.1.(1) It is the responsibility of the **owner** to comply with the requirements of Compliance time

- (a) Section 9.2 and Section 9.3, and
- (b) Section 9.4 within one year after this Regulation comes into force.

(2) Sections 9.2 and 9.3 of this Regulation do not apply to **buildings** with respect to which the **Chief Fire Official** has granted an exemption under a predecessor to this Regulation for so long as the exemption is valid.

9.1.3.2.(1) The **owner** or the **owner's** agent may apply to the **Chief Fire Official** for an extension of time within which to comply Extension of time

- (a) not to exceed two additional years from the date of compliance referred to in Clause 9.1.3.1.(1)(b) for occupancies regulated in Section 9.4, or
- (b) not to extend beyond the 30th day of April, 1987, for **assembly occupancies** referred to in Clause 9.2.1.1.(1)(k).

(2) A proposed schedule for completion of the work shall be submitted with the application for extension of time. Schedule for completion

(3) Upon receipt of the application referred to in Sentence (1) the **Chief Fire Official** shall, within ten days, review the application and either grant or refuse an extension of the time for compliance. Review

(4) The **Chief Fire Official** shall notify the **owner** or the **owner's** agent of the **Chief Fire Official's** decision in writing.

(5) Notification shall be served either personally or by ordinary mail. Notification

(6) Where notification is by mail, it shall be deemed to have been served on the fifth day after the date of mailing.

(7) The **owner** or the **owner's** agent, within **five days** of being notified of a refusal to grant an **extension** of the time for compliance, may request the reasons therefor in writing.

Written reasons

(8) The **Chief Fire Official** shall comply with the request within ten days after receipt thereof.

(9) An **owner** or the **owner's** agent who feels aggrieved by the decision to refuse an extension of time for compliance may, within thirty days of the refusal, appeal the refusal in the same manner as though it were an **Order**.

Appeal

Subsection 9.1.4. Life Safety Study

9.1.4.1.(1) A Life Safety Study is a proposal to the **Chief Fire Official** that consists of

Life Safety Study

- (a) a detailed assessment of the life safety performance requirements, clearly identifying items not meeting the requirements of this Part,
- (b) a detailed description of how an acceptable level of life safety can be achieved, and
- (c) a detailed time schedule to implement the provisions of Clause (b).

9.1.4.2.(1) A Life Safety Study shall deal with but is not limited to the following:

Contents

- (a) containment;
 - (i) **fire separations**
 - (ii) **firewalls**
 - (iii) construction assemblies
 - (iv) **occupancy separations**
 - (v) interior finishes
- (b) detection;
 - (i) alarm and detection systems
 - (ii) voice communication systems
- (c) suppression;
 - (i) **fire department access**
 - (ii) standpipe and hose systems
 - (iii) sprinkler or special extinguishing systems
 - (iv) firefighters' elevators

- (d) egress;
 - (i) **exits** (type, **access to**, direction to, lighting for, identification of, number from rooms, etc.)
 - (ii) fire escapes
 - (iii) **occupant load**
 - (iv) emergency lighting.

9.1.4.3. A Life Safety Study shall bear the signature and seal of a **Professional Engineer** or **Architect**, or both.

Signature and seal

9.1.4.4. Notwithstanding Sentence 9.1.3.2.(1) the time schedule referred to in Clause 9.1.4.1.(1)(c) may exceed two additional years from the date of compliance.

Time schedule

9.1.4.5. An **owner** or the **owner's** agent may apply to the **Chief Fire Official** for an extension of the compliance date to permit time for a Life Safety Study to be submitted.

Extension

9.1.4.6.(1) Where an **owner** or the **owner's** agent has received an **Order** that requires compliance with this Part, the **owner** or the **owner's** agent may apply within five days of receipt of the **Order** to the **Chief Fire Official** to extend the time for compliance pending submission of a Life Safety Study.

Extension following Order

(2) Upon receipt of the application referred to in Sentence (1), the **Chief Fire Official** shall, within ten days, review the application and either grant or refuse an extension of the time for compliance to permit submission of a Life Safety Study.

Review

(3) The **Chief Fire Official** shall notify the **owner** or the **owner's** agent of the **Chief Fire Official's** decision in writing.

(4) Notification shall be served either personally or by ordinary mail.

Notification

(5) Where notification is by mail, it shall be deemed to have been served on the fifth day after the date of mailing.

(6) The **owner** or the **owner's** agent, within five days of being notified of a refusal to grant an extension of the time to submit a Life Safety Study, may request the reasons therefor in writing.

Written reasons

(7) The **Chief Fire Official** shall comply with the request within ten days after receipt thereof.

(8) An **owner** or the **owner's** agent who feels aggrieved by a decision to refuse an extension of time to submit a Life Safety Study may, within thirty days of the refusal, appeal the refusal in the same manner as though it were an **Order**.

Appeal

9.1.4.7.(1) Notwithstanding any other **Order** that requires compliance with this Part, the **Chief Fire Official** shall, within thirty days after receiving a Life Safety Study, review the Life Safety Study for implementation.

Review

(2) Where a Life Safety Study is **approved** for implementation, the **Chief Fire Official** shall notify the **owner** or the **owner's** agent of the decision in writing.

Notification

(3) Where a Life Safety Study is not **approved**, the **Chief Fire Official** shall advise the **owner** or the **owner's** agent of the decision and the reasons therefor in writing.

Rejection

(4) Notification shall be served either personally or by ordinary mail.

(5) Where notification is by mail, it shall be deemed to have been served on the fifth day after the date of mailing.

(6) An **owner** or the **owner's** agent who feels aggrieved by a decision not to **approve** a Life Safety Study may, within thirty days of the refusal, appeal the decision in the same manner as though it were an **Order**.

Appeal

(7) Notwithstanding any other provision of this Part, a Life Safety Study that has been **approved** and implemented shall be deemed to satisfy an **Order** requiring compliance with this Part and made with respect to the same premises before the Life Safety Study was accepted.

9.1.4.8. A copy of an **approved** Life Safety Study shall be kept on the premises to which it relates and be made available to the **Chief Fire Official** upon request.

Record

SECTION 9.2 ASSEMBLY OCCUPANCIES

Subsection 9.2.1. Application

9.2.1.1.(1) This Section applies to

Assembly
occupancies

- (a) art galleries,
- (b) auditoria,
- (c) beverage establishments,
- (d) bingo halls,
- (e) clubs,
- (f) community halls,
- (g) dance halls,
- (h) enclosed arenas,
- (i) exhibition halls,
- (j) gymnasia,

- (k) halls in religious establishments
(excluding areas of worship),
- (l) lecture halls,
- (m) lodge rooms,
- (n) motion picture theatres,
- (o) museums,
- (p) opera houses,
- (q) restaurants,
- (r) television studios, and
- (s) theatres.

9.2.1.2. This Section does not apply to **assembly occupancies** in buildings that are regulated by or under the **Education Act** or the **Ministry of Colleges and Universities Act**.

Exceptions

Subsection 9.2.2. Containment

9.2.2.1.(1) **Fire separations** shall be provided between **assembly occupancies** described in Subsection 9.2.1. and other **major occupancies** in compliance with Article 3.1.3.2. of the **Building Code**.

Fire separations between major occupancies

(2) Where a building is **sprinklered** and the sprinkler system complies with Article 9.2.5.2., or where a detection system is provided and connected to the building fire alarm system, and Sentence (1) requires

- (a) a 2-hr **fire separation**, a 1-hr **fire separation** shall be deemed to be in compliance, or
- (b) a 1-hr **fire separation**, a 1/2-hr **fire separation** shall be deemed to be in compliance.

9.2.2.2.(1) **Closures** that are in compliance with Sentences 3.1.6.4.(2) and 3.1.6.7.(1) of the **Building Code** shall be provided in **fire separations**.

Protection of openings in fire separations

(2) Where Sentence (1) requires

- (a) a 1-hr or a 3/4-hr **fire-protection rating**, **existing** hollow metal or kalamein doors, with or without wired glass, equipped with self-closing devices and **existing** hollow metal frames shall be deemed to be in compliance,
- (b) a 1-hr or a 3/4-hr **fire-protection rating**, **existing** wired glass screens set in fixed steel frames shall be deemed to be in compliance, or
- (c) a 20-min **fire-protection rating**, **existing** 45 mm solid core wood doors and **existing** solid wood frames shall be deemed to be in compliance.

(3) Notwithstanding the requirements referred to in Sentence (1), **fire dampers** and **fire-stop flaps** are not required to be installed in ducts at penetrations of a **fire separation**.

9.2.2.3.(1) In high buildings classified in the **Building Code** under Subsection 3.2.6., **fire separations** that are in compliance with Subsection 3.5.2. of the **Building Code** shall be provided between service rooms and **assembly occupancies**.

Fire
separations
of hazardous
areas

(2) In buildings not referred to in Sentence (1), **fire separations** that are in compliance with Subsection 3.5.2. of the **Building Code** shall be provided between service rooms and **assembly occupancies**.

(3) A 1/2 hr **fire separation** shall be deemed to be in compliance with Sentence (2) where

- (a) the service room is **sprinklered**, or
- (b) a detection system is provided and connected to the **building fire alarm system**.

(4) **Fire separations** shall be provided between theatrical stages and **assembly occupancies** in compliance with Sentences 3.3.2.14. (3) to (5) of the **Building Code**.

(5) Notwithstanding Sentence (4), **existing fire separations** may be **approved**.

9.2.2.4.(1) Interior finishes shall comply with the **flame-spread rating** requirements under Clauses 3.1.4.5.(3)(g) and (h) and Subsection 3.1.11. of the **Building Code**.

Interior
finishes

(2) Where

- (a) the finish is not an exposed expanded plastic, the assembly area is **sprinklered** and the sprinkler system complies with Article 9.2.5.2., the **existing** interior finish shall be deemed to be in compliance with Sentence (1), or
- (b) the finish is treated with a fire retardant surface coating **listed** by a recognized testing laboratory and applied in accordance with the listing conditions, the finish shall be deemed to be in compliance with Sentence (1).

(3) Notwithstanding Sentence (1), **existing interior finishes** may be **approved**.

Subsection 9.2.3. Means of Egress

9.2.3.1. The **occupant load** for calculation of number and width of **exits** referred to in Articles 9.2.3.6., 9.2.3.7. and 9.2.3.8. shall be in accordance with Table 3.1.14.A. of the **Building Code**.

Occupant
load
determination

9.2.3.2.(1) Where the **occupant load** of a room exceeds 60 persons, at least two egress doorways shall be provided in such a manner that one doorway can provide egress if the other doorway becomes inaccessible to the occupants.

Access to exits; number and location

(2) An **existing** room with one doorway shall be deemed to be in compliance with Sentence (1) where

- (a) the **occupant load** does not exceed 100 persons,
- (b) the **floor area** is **sprinklered** and the sprinkler system complies with Article 9.2.5.2., and
- (c) the **travel distance** does not exceed 23 m.

9.2.3.3.(1) **Access to exits** shall comply with Article 3.3.2.7. of the **Building Code**.

Access to exits

(2) **Existing access to exits** through dead end corridors shall be deemed to be in compliance with Sentence (1) where

Dead end corridors

- (a) the **occupant load** does not exceed 20 persons, and
- (b) the **travel distance** does not exceed 6 m plus the width of the dead end corridor to a point where a choice of two directions of **exit** travel are available.

9.2.3.4.(1) Each **floor area** shall be served by at least two **exits**.

Minimum number required

(2) Notwithstanding Sentence (1), **floor areas** in buildings not exceeding 2 **storeys** in building height may be served by one **exit** where

- (a) the **occupant load** for the **floor area** does not exceed 60 persons,
- (b) the **floor area** does not exceed 200 m², and
- (c) the **travel distance** from any point on the **floor area** does not exceed 15 m.

9.2.3.5. Each door serving as an **access to exit** from a room serving more than 60 persons shall open in the direction of **exit** travel and shall swing on its vertical axis.

Door swing

9.2.3.6.(1) The minimum number of **exits** from a **floor area** shall be provided as follows:

Number of exits

- (a) **occupant load** 61 up to and including 600 persons, not less than 2 **exits**,
- (b) **occupant load** 601 up to and including 1000 persons, not less than 3 **exits**, or
- (c) **occupant load** more than 1000 persons, not less than 4 **exits**.

9.2.3.7. The total width of required **exits** shall be determined on the basis of 90 persons per unit of **exit** width for a **floor area** located at or near **grade**, and 60 persons per unit of **exit** width where it is necessary to negotiate stairways or ramps.

Total
width

9.2.3.8.(1) The width of an **exit** in units shall be determined by dividing the width of the **exit** in millimeters by 550.

(2) In calculating the width of an **exit**, where the remainder is 300 mm or more, half a unit shall be added to the **exit** width and where the remainder is less than 300 mm, the remainder shall be disregarded.

9.2.3.9.(1) The width of an **exit** stair or of a corridor used as an **access to exit** or as an **exit** shall be at least 914 mm.

(2) Where the total number of **exits** and the total width of **exits** comply with Articles 9.2.3.6., 9.2.3.7. and 9.2.3.8., **existing** corridor and stair widths shall be deemed to be in compliance with Sentence (1).

9.2.3.10. A fire escape may be erected on an **existing building** to provide one or more of the **exit** facilities described in Article 3.4.1.2. of the **Building Code**, provided that the fire escape does not serve **floor areas** above the fifth floor.

Fire
escapes
permitted

9.2.3.11.(1) Each fire escape shall be constructed to comply with Article 3.4.7.13. of the **Building Code**, except as permitted in Article 9.2.3.18.

Fire
escape
construction

(2) Notwithstanding the provisions of Sentence (1), an **existing** fire escape may be **approved**.

9.2.3.12. Emergency lighting shall comply with Article 3.2.7.3. of the **Building Code**.

Emergency
lighting

9.2.3.13.(1) Markings and signs for **exits** and **access to exits** shall comply with Subsection 3.4.5. of the **Building Code**.

Markings
and signs

(2) Notwithstanding Sentence (1), **existing** markings and signs may be **approved**.

9.2.3.14. In **buildings** over 2 **storeys** in **building height**, any part of an **exit** ramp or stair that continues past the **exit** door at ground level to a **basement** or **cellar** shall be clearly marked by a sign indicating that it does not lead to an **exit**.

Signs for
basement
stairs

9.2.3.15.(1) Where an **exit** stairway, an escalator or a moving walkway serves as a required **exit**, it shall be separated from the remainder of the **building** in accordance with Sentence 3.4.4.1.(1) of the **Building Code**.

Stairway
separations

(2) Doors in fire separations required in Sentence (1) shall be equipped with self-closing devices.

(3) An **existing** 3/4-hr **fire separation** with a 3/4-hr rated **closure** as described in Clause 9.2.2.2.(2)(a) shall be deemed to be in compliance with Sentence (1).

(4) **Existing exit fire separations**, containing wired glass screens set in fixed steel frames, shall be deemed to be in compliance with Sentence (1).

9.2.3.16.(1) **Exits** through a lobby area shall comply with the requirements of Clauses 3.4.4.1.(7) (c) to (f) of the **Building Code**.

Exits
through
lobbies

(2) Notwithstanding Sentence (1), more than one **exit** may be permitted through a lobby area where there is at least one alternate **exit** capable of serving 50 per cent of the total capacity and leading directly to the outside.

9.2.3.17.(1) **Existing** storage rooms, garbage rooms and laundry rooms, opening directly into an **exit** stairway shall be **sprinklered** and the rooms shall be separated from the **exit** stairway by a 3/4-hr **fire separation**.

Ancillary
rooms

(2) **Existing** washrooms and toilet rooms opening directly into an **exit** stairway shall be separated from the **exit** stairway by a 3/4-hr **fire separation**.

(3) Notwithstanding Sentences (1) and (2), **existing** ancillary rooms opening directly into an **exit** stairway may be **approved**.

9.2.3.18.(1) Openings adjacent to fire escapes shall comply with Sentence 3.4.7.13.(5) of the **Building Code**.

(2) **Existing** openings shall be deemed to be in compliance with Sentence (1) where each opening is protected by sprinklers in conformance with Article 9.2.5.2.

(3) Notwithstanding Sentences (1) and (2), **existing** openings may be **approved**.

Subsection 9.2.4. Fire Alarm and Detection

9.2.4.1.(1) Fire alarm and detection systems shall be installed in compliance with Subsection 3.2.4., excluding Article 3.2.4.7., of the Building Code.

Fire
alarm
systems

(2) Notwithstanding Sentence (1), existing fire alarm systems may be approved where the system reliability and performance will not increase the risk of life safety.

Subsection 9.2.5. Suppression

9.2.5.1.(1) Access for fire fighting shall comply with Sentence 3.2.5.2.(1) of the Building Code.

Access for
fire
fighting

(2) Sentence (1) does not apply where the building is sprinklered.

(3) Access routes that do not comply with Sentence (1) may be approved where available fire department equipment has access to the building or alternative provisions are made under Subsection 2.8.2. for such access.

9.2.5.2.(1) Except as permitted in Sentence (3), sprinkler systems shall comply with Article 3.2.5.5. of the Building Code.

Sprinkler
systems

(2) An existing sprinkler system shall be deemed to be in compliance with Sentence (1) where the average sprinkler discharge density over the design area is at least equal to the minimum density corresponding to the area for the hazard classification as defined in Table 9.2.5.A.

(3) Where buildings with a ceiling height in excess of 9 m are required to be sprinklered, the design of the system shall be approved prior to installation.

High
ceilings

(4) The water supply requirements for an existing sprinkler system shall be based on

Water
supply
requirements

- (a) the hazard classification, as determined in Table 9.2.5.A., and
- (b) the minimum sprinkler discharge density, area of application and sprinkler spacing, as determined in NFPA 13-1983, "Standard for the Installation of Sprinkler Systems", that corresponds to the hazard classification determined under Clause (a).

TABLE 9.2.5.A.

Forming Part of Article 9.2.5.2.

Hazard* Classification	Occupancy
Light Hazard	Art galleries Beverage establishments Gymnasias Halls in religious establishments (excluding areas of worship) Lecture halls Museums
Ordinary Hazard Group 1	Auditoria (excluding stages) Bingo halls Clubs Community halls Dance halls Lodge rooms Motion picture theatres Opera houses (excluding stages) Restaurants Television studios Theatres (excluding stages)
Ordinary Hazard Group 3	Enclosed arenas Exhibition halls Stages excluded in Ordinary Hazard Group 1

*Hazard Classification is defined as per NFPA 13-1983,
"Standard for Installation of Sprinkler Systems".

(5) Clause 4 (b) does not apply to
the water supply requirements for an **existing**
sprinkler system in an arena or an exhibition
hall.

Arenas and
exhibition
halls

(6) The water supply requirements for an
existing sprinkler system in an arena or an exhibition
hall shall be based on the lesser area of

- (a) 100 per cent of the display area, or
- (b) 200 m².

SECTION 9.3 BOARDING, LODGING AND ROOMING HOUSES

Subsection 9.3.1. Application

9.3.1.1.(1) This Section applies to
boarding houses, lodging houses, rooming
houses and private rest homes in which
residents, because of age, mental or physical
limitations, do not require care or treatment, where

Application

- (a) the **building height** does not exceed three
storeys and the **building area** does
not exceed 600 m²,

- (b) lodging is provided for more than three persons in return for remuneration or the provision of services or both, and
- (c) lodging rooms do not have both bathrooms and kitchen facilities for the exclusive use of individual occupants.

(2) This Section applies to homes for special care within the meaning of the **Homes for Special Care Act**, where

- (a) the **building height** does not exceed three **storeys** and the **building area** does not exceed 600 m²,
- (b) sleeping accommodation is provided for more than three but not more than ten special care residents, and
- (c) residents do not require nursing care.

9.3.1.2. Except as set out in Sentence 9.3.1.1.(2), this Section does not apply to **residential occupancies** that are regulated by or under the **Ministry of Community and Social Services Act**.

Exceptions

Subsection 9.3.2. Containment

9.3.2.1.(1) Each **storey** shall have a ceiling consisting of lath and plaster or gypsum wallboard.

Ceilings
required

(2) Ceilings of noncombustible materials or combustible construction having a 1/2-hr **fire-resistance rating** shall be deemed to be in compliance with Sentence (1).

9.3.2.2. Article 9.3.2.1. does not apply to a **basement** that does not contain a bedroom, recreation room, meeting room or hobby room.

Basement
ceilings

9.3.2.3.(1) Each guest room or suite of rooms shall have interior walls consisting of lath and plaster or gypsum wallboard.

Walls and
partitions
separating
bedrooms and
corridors

(2) **Existing** wall construction that has a 1/2-hr **fire-resistance rating** shall be deemed to be in compliance with Sentence (1).

9.3.2.4. Articles 9.3.2.1. and 9.3.2.3. do not apply to floor and wall assemblies that have a 1/2-hr **fire separation** that are constructed in accordance with Article 9.10.3.1. of the **Building Code**.

9.3.2.5.(1) In a building where the **building height** is greater than two **storeys** or the **building area** is greater than 400 m², a furnace room that is located on a **floor area** that contains a bedroom, recreation room, meeting room or hobby room shall be separated from the remainder of the **building** by a 3/4-hr **fire separation** that is constructed in accordance with Article 9.10.3.1. of the **Building Code**.

Fire
separations
to furnace
room

(2) Where the required vertical **fire separation** in a furnace room is maintained and it is not practical in the circumstances to install a 3/4-hr **fire separation** in the ceiling, the furnace room area shall be **sprinklered** with a spacing that does not exceed 9.5 m² per sprinkler head.

(3) **Closures** in **fire separations** for a furnace room shall have a 3/4-hr **fire-protection rating**.

(4) A hollow metal or kalamein door and frame shall be deemed to be in compliance with Sentence (3).

(5) **Closures** referred to in Sentences (3) and (4) shall be equipped with latches and self-closing devices.

(6) Notwithstanding Sentence (1), **fire dampers** or **fire-stop flaps** are not required in ducts at penetrations of a **fire separation**.

9.3.2.6. Where a furnace room is separated to comply with the requirements of Sentence 9.3.2.5.(1), sufficient combustion air shall be brought directly from the exterior for the proper combustion and safe operation of the **appliance**.

Combustion
air

Subsection 9.3.3. Means of Egress

9.3.3.1.(1) Each **floor area** shall be served by at least two **exits**.

(2) Where sleeping accommodation is not provided for more than ten persons, one **exit** from each of the first and second floor **floor areas** shall be deemed to be in compliance with Sentence (1).

Exits from
1st and
2nd floors

(3) Where sleeping accommodation is not provided in the **basement** or **cellar**, one **exit** from the **basement** or **cellar** shall be deemed to be in compliance with Sentence (1).

Exits from
basements
or cellars

9.3.3.2.(1) **Exits** required by Article 9.3.3.1. shall comply with the requirements of Articles 9.9.2.2. and 9.9.2.3. of the **Building Code**.

Acceptable
exits

(2) Notwithstanding Sentence 9.3.3.5.(1), not more than one required **exit** from the **basement** or **cellar** may lead through the first floor **floor area**.

(3) Where sleeping accommodation is not provided for more than ten persons, corridors that are contiguous to a stairway may form part of the stairway enclosure.

(4) Only one stairway enclosure described in Sentence (3) shall be permitted as an **exit**.

(5) Where a fire escape of the type referred to in Article 9.3.3.4. is used as an **exit**, it shall be deemed to comply with the requirements of Articles 9.9.2.2. and 9.9.2.3. of the **Building Code**.

9.3.3.3.(1) Notwithstanding Articles 9.3.3.1. and 9.3.3.2., where an **approved** level of life safety will be achieved,

(a) **existing exit** facilities may be **approved**, or

- (b) alternative measures, proposed by the **owner**, may be **approved** and implemented in accordance with the schedule of compliance in Subsection 9.1.3.

9.3.3.4.(1) Each fire escape used as an **exit** shall be constructed in compliance with Article 3.4.7.13., excluding Sentences (4) and (5), of the **Building Code**.

Fire
escapes

(2) Notwithstanding Sentence (1), **existing** fire escapes may be **approved**.

(3) Access to fire escapes shall be from corridors.

9.3.3.5.(1) Each **exit** other than a doorway opening directly onto a fire escape or to the outdoors at ground level shall be separated from the remainder of the **building** or from another **exit** by a 1/2-hr **fire separation** constructed in accordance with Article 9.10.3.1. of the **Building Code**.

Protection
of exits

(2) **Existing exit** stairways separated from the remainder of the **building** by walls consisting of lath and plaster or gypsum wallboard shall be deemed to be in compliance with Sentence (1).

(3) Notwithstanding Sentence (1), an **existing** separation of noncombustible material may be **approved**.

9.3.3.6.(1) Floor separations shall be maintained at interior stairways that are not required **exits**.

Interior
stairways

(2) The floor separation shall be maintained at an **exit** permitted in Sentence 9.3.3.2.(2).

9.3.3.7. Floor separations required in Article 9.3.3.6. shall be constructed in accordance with Article 9.3.3.5.

9.3.3.8.(1) **Closures** in **fire separations** required in Articles 9.3.3.5. and 9.3.3.6. shall be constructed in accordance with Article 9.10.3.1. of the **Building Code** with a minimum 20-min **fire-protection rating**.

Closures

(2) **Closures** located along contiguous corridors permitted in Sentence 9.3.3.2.(3) shall comply with Sentence (1).

(3) A 45 mm solid core wood, hollow metal or kalamein door equipped with a self-closing device and a latching device shall be deemed to be in compliance with Sentences (1) and (2).

(4) Notwithstanding Sentences (1) and (2), frames for doors described in Sentence (3) may be of wood, hollow metal or kalamein construction.

(5) Notwithstanding Sentences (1) and (2), **fire dampers** or **fire-stop flaps** are not required in ducts at penetrations of a **fire separation**.

9.3.3.9. **Existing** wired glass **closures** set in fixed steel frames in a **fire separation** shall be deemed to be in compliance with Article 9.3.3.8.

Wired
glass
closures

9.3.3.10.(1) **Exit** signs shall be located along **means of egress** so that directions of **exit** travel are apparent to the occupants.

Exit
signs

(2) **Exit** signs required by Sentence (1) shall have the word "EXIT" in block letters and such letters shall be

- (a) internally or externally illuminated,
- (b) coloured red on an opaque or contrasting field, and
- (c) at least 115 mm high with a 19 mm stroke.

9.3.3.11. The **flame-spread rating** of interior finishes on walls and ceilings within a **means of egress** shall not exceed 200.

Interior
finishes

9.3.3.12. Corridors and stairways shall be lighted to the intensity of 50 lx measured at the floor level, or 5 watts per square metre of **floor area**.

Illumination
of egress

9.3.3.13. Where sleeping accommodation is provided for more than ten persons, emergency lighting shall be provided to corridors and stairways in accordance with Article 9.9.11.4. of the **Building Code**.

Emergency
lighting

Subsection 9.3.4. Fire Alarm and Detection

9.3.4.1.(1) A **building** to which this Section applies that does not comply with Articles 9.10.8.1. and 9.10.9.21. or the Compliance Alternatives of Part 11 of the **Building Code** shall have a fire alarm system that complies with Articles 9.10.17.5. and 9.10.17.11. of the **Building Code** and shall have

Alarm and
detection
systems

- (a) **smoke alarms** that comply with Sentence (2) and that are installed and interconnected so that the activation of any **smoke alarm** will sound a similar signal in each of the interconnected devices, or
- (b) fire alarm system **smoke detectors** installed on the ceiling of each floor adjacent to each stairway, and on the ceiling in the **basement** adjacent to each stairway.

(2) **Smoke alarms** referred to in Clause (1)(a) shall

- (a) be installed on the ceiling in the corridor of each floor adjacent to each stairway and on the ceiling in the **basement** adjacent to each stairway,

- (b) be on a separate circuit with no disconnect switch between the overcurrent device and the **smoke alarms**, and
- (c) employ devices and an interconnected installation that are **listed**.

9.3.4.2.(1) A fire alarm system complying with Articles 9.10.17.4., 9.10.17.5., 9.10.17.11. and Subsection 9.10.18. of the **Building Code** shall be installed where

- (a) sleeping accommodation is provided for more than ten persons, and
- (b) the **building** meets the construction requirements of Articles 9.10.8.1. and 9.10.9.21. or the Compliance Alternatives of Part 11 of the **Building Code** for **residential occupancies** as defined in Articles 9.10.2.1. and 9.10.2.2. of the **Building Code**.

9.3.4.3. Notwithstanding Articles 9.3.4.1. and 9.3.4.2., where sleeping accommodation is not provided for more than 14 persons, an interconnected **smoke alarm** system in accordance with Clause 9.3.4.1.(1)(a) shall be installed.

9.3.4.4. Notwithstanding Articles 9.3.4.1. and 9.3.4.2., **existing** fire alarm systems may be **approved** where the system reliability and performance will not increase the risk of life safety.

Subsection 9.3.5. Suppression

9.3.5.1.(1) Notwithstanding the provisions of Articles 6.2.4.1., 6.2.6.4., 6.2.6.5. and 6.2.6.7., at least one 2A rated portable extinguisher shall be provided on each floor.

Portable
extinguishers

(2) At least one 5BC rated portable extinguisher shall be installed in each kitchen where shared cooking facilities exist.

SECTION 9.4 HEALTH CARE FACILITIES

Subsection 9.4.1. Application

9.4.1.1.(1) This Section applies to

Application

- (a) Homes for Special Care, regulated under the **Homes for Special Care Act**, where sleeping accommodation is provided for more than ten residents,
- (b) Homes for the Aged, regulated under the **Homes for the Aged and Rest Homes Act**,
- (c) Homes for the Aged, regulated under the **Charitable Institutions Act**,
- (d) Nursing Homes, regulated under the **Nursing Homes Act**,

- (e) Private Hospitals, regulated under the **Private Hospitals Act**, and
- (f) Public Hospitals, regulated under the **Public Hospitals Act**.

Subsection 9.4.2. Containment

9.4.2.1.(1) **Existing buildings** shall comply with the applicable construction requirements of Articles 9.4.2.2. to 9.4.2.4.

Construction

(2) **Fire separations** required by this Section to have a **fire-resistance rating** shall comply with Subsection 3.1.5. and Articles 3.1.6.1., 3.1.6.2. and 3.1.6.3. of the **Building Code**.

(3) Where a 3/4-hr or less **fire-resistance rating** is required, **existing** wall assemblies, floor assemblies and their supporting assemblies consisting of membranes of lath and plaster or gypsum board shall be deemed to be in compliance with Sentences (1) and (2).

(4) **Existing buildings** with limited combustible components may be **approved** as **noncombustible construction**.

(5) Heavy timber construction conforming to Article 3.1.4.4. of the **Building Code** shall be deemed to have a 3/4-hr **fire-resistance rating**.

(6) Floor assemblies shall be **fire separations** with **fire-resistance ratings** as required in this Subsection.

9.4.2.2.(1) **Buildings of combustible construction** shall comply with the provisions of Sentence (2) where the **building** is

Combustible construction up to two storeys

- (a) one **storey** in **building height** and not greater than 1000 m² in **building area**, or
- (b) two **storeys** in **building height** and not greater than 500 m² in **building area**.

(2) Floor assemblies and walls, columns and arches supporting floor assemblies shall have a 3/4-hr **fire-resistance rating**.

(3) Notwithstanding Sentence (2), where the **building** is **sprinklered**, a **fire-resistance rating** is not required for floor assemblies and walls, columns and arches supporting floor assemblies.

9.4.2.3.(1) **Buildings of combustible construction** shall comply with the provisions of Sentences (2) and (3) where the **building** is

Combustible construction up to four storeys

- (a) not more than one **storey** in **building height** and not greater than 2400 m² in **building area**,
- (b) not more than two **storeys** in **building height** and not greater than 1600 m² in **building area**, or

- (c) not more than four **storeys** in **building height** and not greater than 500 m² in **building area**.

(2) Floor assemblies and walls, columns and arches supporting floor assemblies shall have a 3/4-hr **fire-resistance rating**.

(3) Notwithstanding Sentence 9.4.4.2.(2), **smoke detectors** shall be provided in bedrooms, corridors, lounges and sitting areas.

(4) A building that is **sprinklered** shall be deemed to be in compliance with Sentences (2) and (3).

9.4.2.4.(1) **Buildings** not described in Articles 9.4.2.2. and 9.4.2.3. shall

All
other
buildings

- (a) have a 3/4-hr **fire-resistance rating** for floor assemblies and walls, columns and arches supporting floor assemblies, and
- (b) be **sprinklered**, where the building is of **combustible construction**.

(2) Where only the roof assembly is of **combustible construction**,

- (a) sprinklering of the top **storey** and **attic space** shall be deemed to be in compliance with Clause 1(b), or
- (b) sprinklers are not required where the ceiling membrane has a 3/4-hr **fire-resistance rating** and the **attic space** is **fire stopped** in accordance with the requirements of Article 3.1.9.3. of the Building Code.

9.4.2.5.(1) **Fire separations** having a 1-hr **fire-resistance rating** shall be provided between **occupancies** regulated under this Section and other **major occupancies**.

Fire
separations
between
occupancies

(2) Where a building is **sprinklered** and the sprinkler system complies with Article 9.4.5.2. or where the other **major occupancy** is equipped with heat detectors and connecting corridors are equipped with **smoke detectors**, a 1/2-hr **fire separation** shall be deemed to be in compliance with Sentence (1).

(3) **Existing** wall or floor assemblies consisting of masonry or membranes of lath and plaster or gypsum board shall be deemed to be in compliance with Sentence (1).

9.4.2.6.(1) Bedrooms or suites of rooms shall be separated from adjacent rooms by **fire separations** having a 3/4-hr **fire-resistance rating**.

Fire
separations
between
bedrooms
and
corridors

(2) Corridors serving bedrooms shall be separated from adjacent rooms, except sitting areas, lounges, nurses stations and washrooms by **fire separations** having a 3/4-hr **fire-resistance rating**.

(3) Where the **floor area** is **sprinklered**, an **existing fire separation** shall be deemed to be in compliance with Sentences (1) and (2).

(4) Where **smoke detectors** are installed in bedrooms, sitting areas, lounges and corridors serving bedrooms on the **floor area** and where heat detectors are installed in other rooms opening onto corridors serving bedrooms, a 1/2-hr **fire separation** shall be deemed to be in compliance with Sentences (1) and (2).

9.4.2.7.(1) **Floor areas** containing rooms or areas used by the residents shall be divided by 3/4-hr **fire separations** separating the **floor area** into at least two zones.

Safe areas
of refuge

(2) Each zone required in Sentence (1) shall

- (a) contain at least one acceptable **exit**, and
- (b) be able to accommodate, in addition to its own occupants, the occupants of the adjacent zone, based on the requirements of 0.5 m² of clear floor space per person, 1.6 m² per person in a wheelchair, and 2.4 m² for each bedridden patient as the occupancy requires.

(3) A **fire separation** is not required under Sentence (1) where

- (a) the **travel distance** between **exits** does not exceed 9 m and the number of occupants on the **floor area** is not more than ten persons, or
- (b) the **floor area** is served by exterior **exit** doors leading directly to the outside.

9.4.2.8.(1) **Closures in fire separations** shall comply with the requirements of Sentences 3.1.6.4.(2), 3.1.6.7.(1) and 3.1.6.8.(1) and Article 3.1.6.9. of the **Building Code**.

Protection
of openings
in fire
separations

(2) Where a 1/2-hr **fire separation** is permitted, **closures** shall have a 20-min **fire-protection rating**.

(3) Where Sentences (1) and (2) require

Doors
and screens

- (a) a 1-1/2-hr **fire-protection rating**, **existing** hollow metal doors, with or without wired glass panels not exceeding 645 cm², equipped with self-closing devices and **existing** hollow metal frames shall be deemed to be in compliance,
- (b) a 3/4-hr **fire-protection rating**, **existing** hollow metal or kalamein doors, with or without wired glass, equipped with self-closing devices and **existing** hollow metal frames shall be deemed to be in compliance,

- (c) a 3/4-hr **fire-protection rating**,
existing wired glass screens set in fixed steel
frames shall be deemed to be in compliance, or
- (d) a 20-min **fire-protection rating**,
existing 45 mm solid core
wood doors and **existing** solid wood frames
shall be deemed to be in compliance.

(4) **Existing** doors to bedrooms not conforming to
Sentences (1) to (3) may be **approved**.

(5) Notwithstanding Sentence (1) and except as
permitted in Article 9.4.2.9., door assemblies required
to have a 20-min **fire-protection rating** shall be
equipped with self-closing devices.

(6) Notwithstanding Sentences (1) and (2),
fire dampers or **fire-stop flaps** are not required
in ducts at penetrations of an **existing fire**
separation.

Fire dampers
and fire-stop
flaps

9.4.2.9. Where a door to a bedroom is not
equipped with an automatic closing device, a latch
that can hold the door in the closed position shall
be installed.

Latches
on bedroom
doors

9.4.2.10.(1) Fuel-fired appliances
shall be enclosed in a service room separated
from the remainder of the building by a **fire**
separation having a 3/4-hr **fire-resistance rating**.

(2) Sentence (1) does not apply to fireplaces.

(3) Notwithstanding Sentence (1), where the
required vertical **fire separation** to a service room
is provided and it is not practical in the circumstances
to install a 3/4-hr **fire separation** above the service room,
the service room area shall be **sprinklered** with a
spacing not exceeding 9.5 m² per sprinkler head.

9.4.2.11. Where a furnace room is separated to
comply with the requirements of Article 9.4.2.10.,
sufficient combustion air shall be brought directly
from the exterior for the proper combustion and safe
operation of the **appliance**.

9.4.2.12. A transformer vault shall be
separated from the remainder of the building by
a **fire separation** having a 2-hr **fire-resistance rating**.

Transformer
vaults

9.4.2.13.(1) Vertical service facilities
shall be enclosed in shafts separated
from the remainder of the building by **fire**
separations having a 3/4-hr **fire-resistance rating**.

Vertical
service
facilities

(2) **Existing** shaft construction shall be deemed
to be in compliance with Sentence (1) where openings in
the shaft, including shaft top and bottom, are
sealed with noncombustible materials having the same rating
as the **existing** shaft to prevent the movement of smoke.

9.4.2.14.(1) Automatic sprinklers shall be
installed at the top and at alternate floor levels
in each linen or refuse chute and in the room or bin
into which the chute discharges.

Refuse and
linen chutes

(2) An **existing** linen chute installation shall be deemed to be in compliance with Sentence (1) where the room into which the linen chute discharges is **sprinklered** and a minimum of 1 sprinkler head is installed at the top of the linen chute.

(3) Each room into which a linen or refuse chute discharges shall be separated from the remainder of the building by a 1-hr **fire separation**.

9.4.2.15. Incinerators shall be enclosed in a service room separated from the remainder of the building by a **fire separation** having a 2-hr **fire-resistance rating**.

Incinerator
rooms

Subsection 9.4.3. Means of Egress

9.4.3.1.(1) Bedrooms or suites of rooms on a **floor area** shall have a doorway leading to an interior corridor where it shall be possible to go in opposite directions to each of two separate **exits**.

Access
to
exits

(2) **Access to exits** through a dead end corridor shall be deemed to be in compliance with Sentence (1) where

Dead end
corridors

- (a) the number of persons served does not exceed ten persons, and
- (b) the **travel distance** does not exceed 6 m plus the width of the dead end corridor, to a point where a choice of two directions of **exit** travel are available.

(3) Where a bedroom or a suite of rooms is served by an **exit** door leading directly to the outside or to an exterior passageway, a doorway leading to an interior corridor served by one **exit** shall be deemed to be in compliance with Sentences (1) and (2).

(4) Where a dead end corridor does not satisfy the **travel distance** as described in Sentence (2), the **existing** corridor shall be deemed to be in compliance where additional fire protection measures are provided that are **approved**.

9.4.3.2. Each **floor area** used by patients or residents shall be served by not fewer than two **exits**.

Number
of exits

9.4.3.3.(1) Each **exit** stairway shall be separated from the remainder of the building by a **fire separation** having a 3/4-hr **fire-resistance rating**.

Stairway
separations

(2) **Closures** in stairway **fire separations** shall conform to Article 9.4.2.8.

9.4.3.4.(1) Each **exit** door shall open in the direction of **exit** travel and swing on its vertical axis.

Door swing

(2) **Existing** door swing arrangements not in conformance with Sentence (1) may be **approved**.

9.4.3.5.(1) Signs for **exits** and **access to exits** shall comply with the requirements of Article 3.4.5.1. of the Building Code.

Signs

(2) Notwithstanding Sentence (1), **existing** signs may be **approved**.

9.4.3.6.(1) A fire escape shall not be erected on an **existing** building unless it is not practical in the circumstances to provide one or more **exit** facilities, described under Article 3.4.1.2. of the Building Code, and provided that the fire escapes do not serve **floor areas** above the second floor.

Fire escapes

(2) Fire escapes permitted under Sentence (1) shall be constructed to comply with the requirements of Article 3.4.7.13. of the Building Code, except that the fire escapes shall not be less than 1100 mm in width when serving **floor areas** with non-ambulatory residents.

(3) Notwithstanding Sentence (2), **existing** fire escapes may be **approved**.

9.4.3.7. Emergency lighting shall be provided in accordance with the provisions of Article 3.2.7.3. of the Building Code.

Emergency lighting

Subsection 9.4.4. Fire Alarm and Detection

9.4.4.1. A fire alarm and detection system shall be installed in each building.

Where required

9.4.4.2.(1) Fire alarm and detection systems shall comply with the requirements of Subsection 3.2.4. of the Building Code.

Requirements

(2) Notwithstanding Sentence (1), in **buildings** constructed prior to December 1, 1983, heat detectors may be installed in bedrooms, corridors and stair shafts to satisfy the provisions of the Building Code, except where other detection is required by Sentence 9.4.2.3.(3), Sentence 9.4.2.5.(2) or Clause 9.4.2.6.(3)(b).

(3) Notwithstanding Sentences (1) and (2), where the **Chief Fire Official** is satisfied that the performance and reliability of an **existing** fire alarm system will provide an adequate early warning level, the **existing** system may remain, be modified or be extended, provided compatibility of components is maintained.

Existing fire alarm systems

9.4.4.3.(1) Each fire alarm system shall be connected to the **fire department** headquarters by

Connections to fire department

- (a) a direct connection, provided the **fire department** has the necessary facilities to accept such a connection, or
- (b) a central station or proprietary control station.

(2) Where the provisions required in Sentence (1) are not available, a procedure for notifying the **fire department** shall be **approved**.

9.4.4.4.(1) Recirculating air handling systems that serve more than one storey or more than one zone as described in Sentence 9.4.2.7.(1) shall be arranged to shut down upon actuation of the fire alarm system.

Automatic
shutdown
of air
handling
systems

(2) In buildings greater than six storeys in building height, air handling systems serving more than one storey or more than one zone as described in Article 9.4.2.7. shall be arranged to shut down upon actuation of the fire alarm system, except where continued operation of the air handling system is required to satisfy the provisions of Subsection 3.2.6. of the Building Code.

Subsection 9.4.5. Suppression

9.4.5.1.(1) Access routes for fire fighting shall be provided in accordance with the requirements of Article 3.2.5.2. of the Building Code.

(2) Sentence (1) does not apply where the building is **sprinklered**.

(3) Access routes that do not comply with Sentence (1) may be **approved** where available **fire department** equipment has access to the building or alternative provisions are made under Subsection 2.8.2. for such access.

9.4.5.2.(1) Sprinkler systems shall be designed in conformance with Article 3.2.5.5. of the Building Code.

Sprinkler
systems

(2) Notwithstanding Sentence (1), water supply requirements for sprinkler systems required in this Section may be based on,

- (a) the operation of at least 3 sprinkler heads spaced not to exceed 14 .4 m² per head, and
- (b) a sprinkler discharge rate of not less than 100 L/min at any single operating sprinkler head for a duration of 30 minutes.

(3) Notwithstanding Sentences (1) and (2), **existing** sprinkler systems providing adequate protection may be **approved**.

9.4.5.3.(1) Notwithstanding the provisions of Clause 2.8.2.4.(1)(b), in buildings greater than six storeys in building height, at least one elevator shall be provided for use by firefighters.

Firefighters'
elevators

(2) An elevator shall be deemed to be in compliance with Sentence (1) where

- (a) the elevator is capable of providing transportation from the **street** floor to each floor normally served by the elevator system,

- (b) the elevator is identified on the **street** floor as an elevator for use by firefighters,
- (c) the elevator satisfies the requirements of Article 3.2.6.3. of the **Building Code**, and
- (d) other elevator cabs in the same shaft as the elevator for use by firefighters satisfy the requirements of Sentences 3.2.6.3.(1) and (2) of the **Building Code**.

9.4.5.4.(1) In **buildings** greater than six **storeys in building height**, a voice communication system shall be provided in accordance with the requirements of Article 3.2.4.16. of the **Building Code**.

Voice
communica-
tion
systems

(2) A public address system compatible with the fire safety plan required under Subsection 2.8.2. shall be deemed to be in compliance with Sentence (1).

REVOCATION

ENVIRONMENTAL ASSESSMENT ACT

O. Reg. 70/87.

Exemption—The Corporation of the
County of Essex—ESSE—CT-1.

Made—February 5th, 1987.

Approved—February 5th, 1987.

Filed—February 12th, 1987.

**ORDER MADE UNDER THE
ENVIRONMENTAL ASSESSMENT ACT**

**EXEMPTION—THE CORPORATION OF THE
COUNTY OF ESSEX—ESSE—CT-1**

Having received a request from The Corporation of the County of Essex (the County) that an undertaking, namely:

The modified use until December 31, 1987, of the existing Essex County Landfill No. 3 Site currently approved under the Provisional Certificate of Approval No. 011501 under the *Environmental*

Protection Act and located on parts of Lots 14 and 15, Concession 4 in the Township of Maidstone, County of Essex, in order to landfill an area of the site in excess of the height and depth restrictions in the current approval

be exempt from the application of the Act pursuant to section 29; and

Having been advised by the County that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

- A. Other available interim waste management options will result in significant increases in costs.
- B. Other available interim waste management options will result in significant environmental effects and risks to human health.

Having weighed such injury, damage or interference against the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

- .. The modified use of the Essex County Landfill No. 3 is subject to approval under the *Environmental Protection Act* and requires that a public hearing be held before the Environmental Assessment Board.
- B. A Landfill Liaison Committee was formed through the effort of the Ministry of the Environment's (MOE) site support team comprising the following groups:

Landfill Advisory Committee
M.A.D. Citizens Group
City of Windsor
Township of Maidstone
County of Essex
MOE — District Officer
MOE — Site Support Team

At the Landfill Liaison Committee meeting of November 25, 1986, the Committee passed a resolution to proceed with this modified use of Essex County Landfill No. 3 as described in the undertaking.

- C. The Landfill Advisory Committee, made up of representatives of member municipalities who use Essex County Landfill No. 3, agreed with the resolution of the Landfill Liaison Committee.

D. The undertaking was recommended after an examination of impacts to the environment of alternatives to and alternative methods.

E. The County of Essex is currently undertaking a waste management master plan in accordance with the *Environmental Assessment Act*. It is the intention of the County to implement a long term waste management system, in accordance with the master plan, by the end of 1992.

F. This modified use application will allow sufficient time for evaluation of alternatives for waste management until the end of 1992.

G. Public meetings were held where the modified use of Essex County Landfill No. 3 was discussed along with the regulatory processes that must be followed. Concerns with the current operations of Essex County Landfill No. 3 were also discussed at those meetings and these are documented in the "Technical Support Document" submitted by the County of Essex in support of the exemption request.

This exemption is subject to the following terms and conditions:

- 1. This exemption order only exempts the modified use of the site as described in the undertaking and does not affect the continued use of the site within the terms of the Provisional Certificate of Approval No. 011501 under the *Environmental Protection Act*. O. Reg. 70/87.

EDUCATION ACT

O. Reg. 71/87.

Designation of Teachers.

Made—February 12th, 1987.

Filed—February 13th, 1987.

REGULATION MADE UNDER THE EDUCATION ACT

DESIGNATION OF TEACHERS

- 1. In this Regulation,

"agreement", other than an agreement within the meaning of subsection 136-1 (1) of the Act, in relation to the employment of teachers, "branch

affiliate" and "teacher" have the same meaning as in the *School Boards and Teachers Collective Negotiations Act*;

"non-resident pupil", "resident-internal pupil" and "resident-external pupil" have the same meaning as in Ontario Regulation 128/85 (General Legislative Grants);

"proportion of qualifications of teachers" means the relative number of teachers who have qualifications in the areas of general studies and technological studies;

"that is coterminous with the public board" means that has jurisdiction in an area that is also the area or part of the area of jurisdiction of the public board and "that is coterminous with the Roman Catholic school board" has a corresponding meaning.
O. Reg. 71/87, s. 1.

2.—(1) This Regulation applies to a public board in each of the first ten years commencing with the year in which a separate school board that is coterminous with the public board elects with the approval of the Minister to perform the duties of a secondary school board.

(2) This Regulation does not apply to a public board that has entered into an agreement within the meaning of subsection 136-1 (1) of the Act.

(3) Two or more public boards that act jointly with each other for the purpose of making or renewing an agreement shall,

(a) notwithstanding that they are required to do certain things under this Regulation on or before the 30th day of April and on or before the 31st day of May, do those things on or before the 15th day of May and on or before the 30th day of June, as the case requires; and

(b) make the determinations and designations required to be made under this Regulation for all such public boards jointly as if they are one public board and the public boards shall not act individually. O. Reg. 71/87, s. 2.

$$1. R_g = \frac{E_g^0}{E_{g-1}^0}$$

$$2. P_g^1 = R_g \times E_{g-1}^0$$

$$3. P_g^t = R_g \times E_g^{t-1}$$

$$4. P_g^t = R_g \times P_{g-1}^{t-1}$$

3.—(1) For the purpose of determining the persons on its elementary and secondary teaching staffs that it shall designate under section 136-1 of the Act, every public board shall, on or before the 30th day of April in each year, determine in accordance with its agreements or board policy,

(a) the number of teaching positions that it believes will not be required in the next following school year because of an anticipated reduction in the enrolment of pupils in that school year from the enrolment of pupils as of the 30th day of September in the previous year; and

(b) the identity of the teachers,

(i) whose services may not be required at the end of the school year as a result of the calculation under clause (a), and

(ii) who in accordance with its agreements are surplus to the needs of the board but who are still in the employ of the board.

(2) The public board, on or before the 30th day of April in each year, shall provide to its branch affiliates and to each Roman Catholic school board that is coterminous with the public board, a list of the names and qualifications of all teachers identified under clause (1) (b). O. Reg. 71/87, s. 3.

4.—(1) Each Roman Catholic school board shall supply, on or before the 31st day of March in each year, for ten consecutive years commencing with the year in which it elects with the approval of the Minister to perform the duties of a secondary school board, to each public board that is coterminous with the Roman Catholic school board, the enrolment and other data necessary to enable the public board to carry out the calculations referred to in this section.

(2) Each board referred to in subsection (1) shall make copies of the data required under that subsection available to its branch affiliates.

(3) Each public board shall, on or before the 30th day of April in each year, make the following calculations in respect of each Roman Catholic school board that is coterminous with the public board for the purpose of determining the enrolment shift:

for each of grades 9, 10, 11, 12 and 13 correct to four places of decimal where g means grade

for each of grades 9, 10, 11, 12 and 13 where g means grade

for each school year from 2 to 10 where t means school year

for each of grades 10, 11, 12 and 13 and for each school year from 2 to 10 where g means grade and t means school year

$$5. ES^t = \sum [(E_g^t - P_g^t) - (E_g^{t-1} - P_g^{t-1})]$$

for each school year from 1 to 10 where t means school year

where R_g

is the retention rate of the Roman Catholic school board in respect of grade g, in the school year immediately preceding the school year in which the Roman Catholic school board has made an election under section 136a or 136f of the Act,

E_g^t

is the number of pupils in grade g as of the 30th day of September of school year t who reside in the area of jurisdiction of the public board and who are enrolled in the Roman Catholic school board that is coterminous with the public board as,

(a) resident-internal pupils,

(b) resident-external pupils, other than resident-external pupils enrolled in the public board under subsection 136o (2) of the Act, or

(c) non-resident pupils who are qualified to be resident pupils of the public board and who enrol in the Roman Catholic school board under subsection 136o (1) of the Act,

and includes pupils enrolled in a private school the enrolment of which is to become or has become part of the enrolment of the Roman Catholic school board in accordance with the Act,

P_g^t

is the projected number of pupils in grade g in the school year t to represent an estimate of the enrolment of the pupils assuming the Roman Catholic school board did not make an election under section 136a or 136f of the Act, and

ES^t

is the enrolment shift in school year t, where the summation is made for all grades in respect of which the Roman Catholic school board receives grants in school year t under sections 136g and 136h of the Act,

where

t = 1 represents the school year in which the Roman Catholic school board makes an election under section 136a or 136f of the Act, t = 0 and t = - 1 represent each of the two preceding school years respectively and t = 2, 3, 4, 5, 6, 7, 8, 9 or 10 represent each of the succeeding nine school years following the election.

(4) Each public board shall, on or before the 30th day of April in each year, determine in respect of each Roman Catholic school board that is coterminous with the public board, the difference between the number of its elementary pupils who are expected to transfer in the next school year to the elementary schools operated by the Roman Catholic school board and the number of elementary pupils of the Roman Catholic school board who are expected to transfer to the elementary schools operated by the public board.

(5) The difference determined under subsection (4), if greater than zero, shall be the net number of

elementary pupils anticipated to transfer to the Roman Catholic school board.

(6) The reduction in enrolment with respect to the elementary school pupils of the public board for the year for which the calculations are made that is attributable to the election of the Roman Catholic school board under section 136a or 136f of the Act shall be the net number of elementary pupils anticipated to transfer in the school year as calculated under subsection (4).

(7) The reduction in enrolment with respect to the secondary school pupils of the public board for the

year for which the calculations are made that is attributable to the election of the Roman Catholic school board under section 136a or 136f of the Act shall be the enrolment shift for the year as determined under subsection (3).

(8) Notwithstanding subsection (3), where R_g is calculated to be lower than the average R_g from the previous five years, the R_g shall be the average R_g from the previous five years. O. Reg. 71/87, s. 4.

5.—(1) Every public board shall, in the manner set out in clause 3 (1) (a), determine the number of positions on each of the elementary and secondary teaching staffs of the board that are related to the reduction in its enrolment determined under subsections 4 (6) and (7).

(2) The number of positions determined under subsection (1) shall be,

(a) adjusted to take into account,

(i) the actual enrolment data as of the 30th day of September of the previous calendar year, and

(ii) in respect of the previous calendar year, the difference between the number of positions calculated to one place of decimal under this section and the number of teachers designated under section 8;

(b) increased by one in respect of each position for which there is no designation under subsection 12 (5); and

(c) increased to take into account the termination in the current calendar year of a secondment, sabbatical, leave of absence or any other scheme or plan acceptable under its agreements, board policy or an understanding with its branch affiliate or branch affiliates, where, pursuant to an agreement under subsection 136-l (1) of the Act, the public board in a previous calendar year, reduced, because of the secondment, sabbatical, leave of absence or other scheme or plan, the number of positions in respect of which it was required to make designations.

(3) The number of positions in respect of which teachers are to be designated under section 136-l of the Act shall be the lesser of,

(a) the number determined under subsection (1) as adjusted under subsection (2), calculated to one place of decimal; and

(b) the number of positions determined under clause 3 (1) (a).

(4) Where the number of teachers available for designation under clause 3 (1) (b) is reduced by the

employment, death or retirement of a teacher referred to in clause 3 (1) (b) and is less than the number of teachers required to be designated under subsection (3), the determination under subsection (3) of the number of positions in respect of which teachers are to be designated under section 136-l of the Act shall be reduced accordingly. O. Reg. 71/87, s. 5.

6.—(1) Every Roman Catholic school board shall, on or before the 30th day of April in each year, provide to each public board that is coterminous with the Roman Catholic school board, a list of the positions on its elementary and secondary teaching staffs that are expected to be vacant in the Roman Catholic school board in the following school year.

(2) A public board that receives a list under subsection (1) shall forthwith make the list known to all teachers in the employ of the public board. O. Reg. 71/87, s. 6.

7. Each public board shall, within fifteen days of receiving the list of vacancies in the Roman Catholic school board, provide to each Roman Catholic school board that is coterminous with the public board a list,

(a) of all teachers who have been identified under clause 3 (1) (b) who are willing to transfer voluntarily to the Roman Catholic school board to fill the vacancies in the Roman Catholic school board; and

(b) showing each teacher, in addition to those teachers referred to in clause (a), who is willing to transfer voluntarily to the Roman Catholic school board to fill a vacancy in the Roman Catholic school board. O. Reg. 71/87, s. 7.

8.—(1) Every public board shall, on or before the 31st day of May in each year, designate teachers under section 136-l of the Act to the number of positions set out in subsection (4) as follows:

1. In order of seniority, designate the teachers identified under clause 7 (a).

2. Where there are positions remaining to be designated after designating the teachers referred to in paragraph 1, in order of seniority, designate the teachers identified under clause 7 (b) if the vacancy created in the public board can be filled by a teacher identified under clause 3 (1) (b).

3. Where there are positions remaining to be designated after designating the teachers referred to in paragraphs 1 and 2, designate, in accordance with its agreements, board policy or an understanding with its branch affiliate or branch affiliates, an appropriate number of teachers from among the teachers identified in clause 3 (1) (b), ensuring where possible that the proportion of qualifications of teachers designated is representative of the

proportion of qualifications of teachers employed by the public board.

(2) In the absence of any agreement, board policy or understanding that deals with how teachers shall be designated, the public board shall designate teachers referred to in paragraph 3 of subsection (1) in order of seniority.

(3) In designating the teachers under this section, each teacher who is employed on a part-time basis shall be counted towards the number of teachers designated only to the proportion of a full-time employee that the teacher represents.

(4) The number of teachers designated under this section shall be equal to or shall differ by less than one from the number of positions determined under section 5. O. Reg. 71/87, s. 8.

9. Each public board that makes a designation under this Regulation and each Roman Catholic school board that is coterminous with the public board shall provide a list of the teachers so designated to each of its branch affiliates. O. Reg. 71/87, s. 9.

10. Each board shall consult with its branch affiliates in respect of any matter required or implemented under this Regulation. O. Reg. 71/87, s. 10.

11. Nothing in this Regulation prevents a public board that has jurisdiction in an area that is also the area or part of the area of jurisdiction of two or more Roman Catholic school boards from having an agreement within the meaning of subsection 136-1 (1) of the Act with one or more of the Roman Catholic school boards with respect to the designation of teachers under section 136-1 of the Act while at the same time dealing with one or more of the Roman Catholic school boards under this Regulation. O. Reg. 71/87, s. 11.

12.—(1) If a position with a public board becomes vacant in the year in which a teacher who is designated under section 8, up to and including the 31st day of May in the year next following, and no teacher employed or eligible to be employed under the recall provisions of the agreement of the public board is available to fill the position, the public board shall offer the right of first refusal with respect to the position to the designated teacher with the greatest seniority who holds the qualifications to fill the position.

(2) Where the teacher with the greatest seniority refuses or cannot fill the position referred to in subsection (1),

(a) the position shall be offered to other designated teachers with the qualifications to fill the position in descending order of seniority until the position is filled or there are no more designated teachers; and

(b) the public board shall not be obligated to continue offering positions to that teacher.

(3) Where a teacher accepts an offer referred to in subsection (1), the Roman Catholic school board shall transfer the teacher's contract of employment to the public board and the public board shall treat the teacher's contract of employment as if the teacher had never left the employ of the public board.

(4) Where a teacher accepts an offer referred to in subsection (1), the public board shall allow the Roman Catholic school board a reasonable length of time in the circumstances to fill the vacancy thus created before requiring the transfer of the teacher.

(5) If, as a result of a teacher accepting an offer referred to in subsection (1), a position becomes vacant in the Roman Catholic school board and there are still teachers unemployed who were identified in accordance with clause 3 (1) (b), the public board may designate another teacher to fill the position in accordance with section 8. O. Reg. 71/87, s. 12.

13.—(1) Where a teacher files an objection under subsection 136-1 (10) of the Act and the public board is of the opinion that the objection is made in good faith, the public board shall designate another teacher in place of the teacher making the objection in accordance with its agreements or understanding with its branch affiliate or branch affiliates or board policy.

(2) In the absence of a provision in its agreements, board policy or understanding with its branch affiliate or branch affiliates with respect to the designation of another teacher, the public board shall designate a teacher under subsection (1) by taking into account the seniority of the teachers from among whom it is selecting and ensuring where possible that the proportion of qualifications of teachers designated is representative of the proportion of qualifications of teachers employed by the public board. O. Reg. 71/87, s. 13.

14. Where a school operated by a public board under Part XI of the Act is transferred to a Roman Catholic school board and the transfer is approved by the Minister, the public board shall designate under section 136-1 of the Act all teachers employed in the school. O. Reg. 71/87, s. 14.

15. Each public board that operates a school or class under Part XI of the Act shall make the determinations and designations required to be made under this Regulation separately for,

(a) the French-language schools and classes operated by it under Part XI of the Act; and

(b) for all schools and classes other than those referred to in clause (a) that it operates. O. Reg. 71/87, s. 15.

16. All teachers who are designated by a public board on and after the 24th day of June, 1986 up to and including the 12th day of February, 1987 shall be deemed to have been designated in accordance with

this Regulation and the adjustments required under subsection 5 (2) shall be made in respect of such designations. O. Reg. 71/87, s. 16.

(bb) for a Short Duration licence,

(i) is a Canadian citizen or has permanent resident status under the *Immigration Act, 1976* (Canada), or

(ii) has a special authorization under clause 10 (c) of the *Immigration Act, 1976* (Canada) to engage in employment in the practice of medicine in Ontario;

(c) where the applicant's native language is not English or French or where the applicant's medical education was not conducted in English or French, has successfully completed the Test of English as a Foreign Language (TOEFL) with a minimum score of 580 and the Test of Spoken English (TSE) with a minimum score of 200 or tests acceptable to the College of the applicant's ability to speak and write in the French language with scores that reflect a competency that is at least equivalent to the scores required for English;

(2) Section 15 of the said Regulation, as remade by section 1 of Ontario Regulation 344/85, is amended by adding thereto the following subsections:

(3) It is a term and condition of a licence that the licence terminates when the licensee,

(a) is no longer a Canadian citizen;

(b) no longer has permanent resident status; or

(c) no longer has special authorization under subclause 15 (1) (ba) (ii) or 15 (1) (bb) (ii).

(4) Clauses (1) (c), (f) and (h) do not apply to an applicant for a Short Duration licence. O. Reg. 72/87, s. 3 (2).

4. Section 16 of the said Regulation, as remade by section 1 of Ontario Regulation 344/85, is amended by adding thereto the following subsections:

(3) An applicant is exempted from clauses (1) (b) and (c) or (2)(b) and (c) if the applicant,

(a) is the holder of a specialist certificate issued by the Royal College of Physicians and Surgeons of Canada based on the applicant having passed an examination of the Royal College of Physicians and Surgeons of Canada ten years prior to the application; and

(b) has held an Academic or Hospital Practice licence continuously for the ten years immediately preceding the application.

(4) It is a term and condition of a General licence issued under subsection (3) that the licensee may engage in the practice of medicine only in the specialty in which the licensee is certified by the Royal College of Physicians and Surgeons of Canada. O. Reg. 72/87, s. 4.

5.—(1) Clause 17 (1) (b) of the said Regulation, as remade by section 1 of Ontario Regulation 344/85, is revoked and the following substituted therefor:

(b) has,

(i) a degree in medicine from an acceptable unaccredited medical school,

(ii) successfully completed the evaluating examination of the Medical Council of Canada, and

(iii) after successfully completing the requirements in clause 15 (1) (c) and subclause (ii), successfully completed,

(A) where the applicant is seeking admission to an internship or to a residency in family medicine, a preinternship program, or

(B) where the applicant is seeking admission to a program of postgraduate medical education other than an internship or a residency in family medicine, a pre-residency program, and

(2) Subclause 17 (2) (a) (iii) of the said Regulation, as remade by section 1 of Ontario Regulation 344/85, is revoked and the following substituted therefor:

(iii) not charge a fee for medical services and may receive remuneration for medical services only in the form of a fixed salary; and

6. Clause 20 (2) (a) of the said Regulation, as remade by section 1 of Ontario Regulation 344/85, is amended by striking out "and" at the end of subclause (i) and by adding thereto the following subclause:

- (iii) not charge a fee for medical services and may receive remuneration for medical services only in the form of a fixed salary from the licensee's employer; and

7. The said Regulation is further amended by adding thereto the following section:

20b.—(1) The qualifications for the issuing of a Short Duration licence to an applicant are that the applicant,

- (a) has a degree in medicine from an accredited or acceptable unaccredited medical school;

- (b) has an appointment by,

- (i) an accredited medical school in Ontario,

- (ii) a hospital that is approved under the *Public Hospitals Act* or an institution designated as a psychiatric facility by the regulations made under the *Mental Health Act*, or

- (iii) the Crown in right of Canada or of Ontario or an agency of the Crown,

solely for the purpose of a short-term, special problem that requires immediate remedy; and

- (c) provides a document from a member holding a General licence with no terms, conditions or limitation that evidences the member's undertaking to supervise the applicant and to be responsible for continuing after the licensee leaves Ontario any medical care started by the licensee in Ontario.

(2) It is a term and condition of a Short Duration licence that,

- (a) the licensee may,

- (i) engage in the practice of medicine only under the supervision of the member whose undertaking has been given under clause (1) (c) and to the extent required by the appointment mentioned in clause (1) (b), and

- (ii) may charge a fee for a medical service performed in Ontario; and

- (b) the licence terminates,

- (i) when the licensee no longer holds an appointment in accordance with clause (1) (b),

- (ii) when the licensee leaves Ontario, or

- (iii) ten days after the licence is issued to the licensee,

whichever occurs first. O. Reg. 72/87, s. 7.

8.—(1) Clause 45 (3) (b) of the said Regulation, as remade by section 6 of Ontario Regulation 344/85, is revoked and the following substituted therefor:

- (b) in the case of a licence holder not holding a licence for the first time, other than an Educational licence, on the 1st day of June in each year.

(2) Subsection 45 (4) of the said Regulation, as remade by section 6 of Ontario Regulation 344/85, is revoked and the following substituted therefor:

(4) The Registrar shall mail a notice to each member, other than a life member or a member holding an Educational licence, before the 30th day of April in each year, that informs the member that an annual membership fee is due on the 1st day of June and the amount of the fee.

(5) A member holding an Educational licence shall be given notice of the membership fee that is due at the time of a confirmation of the continued appointment in a program of postgraduate medical education. O. Reg. 72/87, s. 8 (2).

Made—February 12th, 1987.

Filed—February 13th, 1987.

REGULATION MADE UNDER THE PETROLEUM RESOURCES ACT

SPACING UNIT—SOMBRA 3-26-VI POOL

1. This Regulation applies to the area comprising,

(a) the south half of lots 26 and 27 in Concession VII; and

(b) the lots 25, 26 and 27 in Concession VI,

in the Township of Sombra, in the County of Lambton, as shown outlined in red on a plan filed in the Regional Office of the Ministry of Natural Resources at London as Plan No. SWR-86-6, and dated by the Registrar of Regulations, January 21, 1987. O. Reg. 77/87, s. 1.

2. This Regulation applies only to wells drilled to formations of Ordovician age or deeper. O. Reg. 77/87, s. 2.

3. For the purpose of this Regulation, the area described in section 1 is divided into numbered tracts of approximately 10.12 hectares each in the manner described in subclause 1 (h) (i) of Regulation 752 of Revised Regulations of Ontario, 1980 and two such tracts are combined to form spacing units of approximately 20.24 hectares each as shown outlined in green on Plan No. SWR-86-6. O. Reg. 77/87, s. 3.

4.—(1) In this section, "target area" means the part of any odd numbered tract on Plan No. SWR-86-6 that is no closer than 106.68 metres to any boundary of that tract.

(2) No person shall,

(a) bore or drill more than one well on each spacing unit;

(b) bore or drill a well except in a target area, but the Minister may approve deviation from the target area where topographical or other conditions require such deviation; or

(c) produce from a well on a spacing unit unless all the interests in the gas and oil in the spacing unit have been joined for the purpose of drilling or operating the well. O. Reg. 77/87, s. 4.
